

# NEW YORK LABOR ASKS FOR TRUCE

## Committee Makes Report After Study of Conditions.

### TIME LIMIT IS FIXED

### Six Months Prescribed to Give Time for Amelioration

### WANT LIVING COSTS CUT

### Period Is Agreed Upon in Which to Give Officials Trial

NEW YORK, Sept. 1.—A suspension of all strikes throughout the United States and the declaration of a labor truce on the basis of the status quo for six months or more is made President Wilson to bring about a truce in the case of labor, is recommended in a report of a committee of the New York state federation of labor made public here today.

The recommendations urge Americans organized labor to cease wage and hour controversies in order to increase production and restore normal conditions. They express the hope that no new strikes will be ordered, except to relieve workers of intolerable oppression.

#### Reports After Conference.

The committee was appointed by James P. Holland, president of the federation, on July 29, and made its report after conferring with representatives of industrial, commercial, manufacturing, financial, transportation and other interests, with a view to devising plans to lower the cost of living.

Business men, it is explained, were in a state of apprehension, due to rapidly changing conditions, since the signing of the armistice, and industry had been disturbed and dislocated to a degree never before experienced.

"Your committee is convinced," says the report, "that this condition is wrong and cannot be permitted to continue unless we—and by we your committee means not labor alone, but the people of the whole United States—wish to invite a disaster unparalleled in history. The people must be given a breathing spell. There must be a suspension of struggling for class and party advantage. All Americans must bend their backs to the same yoke and pull steadily against the storm-tossed waters until our boat again rides safely on the placid sea of prosperity."

Continuing, the report says: "As a result of President Wilson's appeal, backed by the attitude of Samuel Gompers, president of the American Federation of Labor, and the leaders of the railway brotherhoods, the threatened railroad strike was averted and the country spared a terrible tragedy."

#### Agitators Blamed.

"On every hand there are strikes and threats of strikes. Most of these disturbances have been provoked by radical agitators who have not the interests of the toilers at heart, but who seek to promote industrial warfare for the present economic nation and substituting industrial ownership by the proletariat. Fortunately, the sane leaders of organized labor have, after a short period, succeeded in regaining control of their temporarily rebellious unions."

# Ex-Kaiser's Cousin, Prince Leopold, Hoards Food While Others Starve

Prince Friedrich Leopold and his family.

The latest example of Hohenzollern greed came to light recently when Prince Friedrich Leopold, a cousin of the ex-kaiser, was found to have hoarded vast quantities of food in his capacious cellar while many people in the neighborhood of his residence were starving. The authorities confiscated the food and distributed it among the needy.

# LABOR BOOMS GOVERNOR FRAZIER FOR PRESIDENT

FAIRBANKS, N. D., Sept. 1.—The North Dakota workers' comparative timorous support for Governor Frazier last night, the session continuing until 7 o'clock this morning, was a surprise to the new organizing league support in the non-partisan league and endorsement to the National labor party the nomination of Governor Louis J. Frazier of North Dakota for president of the United States.

# PRODUCTION IN GERMANY IS SHOWING A DECREASE

By The Associated Press. BERLIN, Sept. 1.—The production of all branches of German industry has declined at an alarming rate, the official bulletin of the national socialist party declares in a recent issue, adding that the German people will not be able to survive unless the rate of production begins to rise.

# COMMITTEE WILL MEET ON COLD STORAGE BILL

## WASHINGTON, Sept. 1.—Chairman Hagen of the house of agriculture committee announced today a final committee meeting tomorrow or Wednesday to complete the cold storage bill suggested by President Wilson as part of the government's program for fighting the high cost of living. He also predicted house passage of the measure by the end of the week.

Committee members have virtually agreed that cold storage of practically all necessities with the exception of those held for export purposes should be limited to a year. The bill also provides for stamping the date of admission to storage and if held longer than a year they would be denied interstate transportation as well as be subject to confiscation by the government.
