FOR SHERIFF
 We are hereby authorized to announce that we have nominated for the office of Sheriff of Grady County, Oklahoma, subject to the action of the Democratic Party.

A WORD TO THE DEACON

Deacon Jones says he must have a fifty year franchise for an electric light and power system; otherwise, he won't give us any street cars. Now, Deacon, the Express has already informed the people that the street car system was assured and it doesn't seem fair for you to come in now and block our plans. Besides you are asking a pretty big bonus. A fifty year franchise for any old thing is a pretty big proposition, especially at this time when people have begun to recognize the value of franchise. And you say you won't stand for submitting it to the people. Your position is an illogical one and it sounds like you are trying to force something on us. We are heartily in sympathy with your enterprise and have felt that you would succeed if it were possible. We believe now that you can and will succeed with your present franchise, but don't like to hear you speak to us in that tone of voice, and besides it will do you no good. The council has treated you with the utmost consideration, as you yourself have said, but you must not ask too much. Go ahead and build your street railway and we'll throw up our hats and "holler" hurrah for you, but don't act ugly.

All the signs spell prosperity for Chickasha in 1907.

If you want to hear the Simon pure article, go to the opera house tonight.

The railroads probably took notice when the resolution calling for two cent fares was introduced in the convention.

It will probably be discovered that the graft story at Guthrie originated in the feverish brains of the next correspondent.

Colorado's new preacher-governor closed his inaugural address with a prayer. If he has as much trouble as his predecessors, he will probably need a good deal of help from on high.

Republicans are worrying a good deal about how the democrats are going to get the Jim Crow into the constitution. They had considerable anxiety on the same subject

During the campaign, The democrats are not at all troubled about it.

Another fact that it is well for both democrats and republicans to observe in putting out county tickets, is that the independent voter will have his say. The disposition to "vote for the man" was never so strong before. A party that would win must put up with strong men.

Dele- states Hayes took Mr. Has- and down the line on the anti- junction proposition and he took the wind out of Mr. Ledbetter's sails in refuting the latter's argument against the adoption of a resolution favoring a constitutional amendment for an income tax. It is quite evident that Chickasha has a delegate in Guthrie.

Enid gave the company that secured her street railway franchise a pretty strong dose. The company is required to deposit a certified check for \$20,000 that it will have four miles of the line in operation within six months.

Leslie Niblack ought to have known better than to try to make the convention swallow the kind of printing contract that the State Capital has been serving up to Oklahoma legislatures. We didn't think of you, "Nib."

Grady county has soil as rich as can be found in the world and can grow as great a variety of crops as any territory in the state.

The best advice to give to Ray Stafford and Mr. Haskell is, "Don't."

A TRIP TO CUBA

Highly Interesting Exhibit Seen in the Cuban Car Now Here.

The exposition car, "Cuba on Wheels" exhibiting now here was visited by an EXPRESS reporter this morning and in addition to seeing and inspecting the many different exhibits from the island, was entertained for a little while by Miss Richardson, in charge of the car, in her cosy little library at the end of the car with a brief history of the car since it had started on its long journey and of incidents of the trip.

The car is fitted up and filled with the various exhibits by the board of Immigration and Department of Agriculture and since leaving the St. Louis exposition has traveled in twenty states. The small cost of five and ten cents admission is made to help defray the expenses. Miss Richardson was looking for the school children from one of the buildings this morning, but the weather kept them from coming.
