

Illinois Pen Model Prison

COLIET, Ill.—The new Illinois state penitentiary, a model of concrete and brick, is in the final stages of construction, and those who have seen it during the past few weeks of its construction are convinced that it will be one of the best penitentiaries in the world.

The new prison is located at Joliet, near Joliet, and has been viewed by officials of several European nations as well as by many of our own people from practically every part of the union.

The prison will be a concrete and brick building, 200 feet long, 100 feet wide and 40 feet high, and will be one of the most modern of its kind in the world. It will be a model of the latest in prison architecture, and will be one of the best penitentiaries in the world.

The penitentiary is located on a 100-acre tract of land, and will be one of the most modern of its kind in the world. It will be a model of the latest in prison architecture, and will be one of the best penitentiaries in the world.

Thanksgiving and the Cranberry

A LITTLE CRANBERRY KNOWLEDGE

It is estimated that a depth of five or six feet during the winter. When the water is withdrawn in May the vines are found green and fresh.

Japan's Leaders Hope Washington Conference Will Prove Successful

BY DUKE N. PERRY.

TOKYO, Nov. 19.—The Japanese leaders who remain at home are urging their chief interest toward the American conference. While Japan ranks first for the number of emissaries now in the United States, her missions number three, there are, nevertheless, many former leaders and men still active in governmental affairs who must watch the developments of the meeting vital to Japan, through the cables sent from the United States.

15 Presidents Were Masons

By GEORGE WASHINGTON.

THREE—Fifteen presidents of the United States were prominent Masons, many of them having been masters of their lodges or otherwise active in Masonry, according to a statement made here today by Frank A. Ives, Jr., secretary of the Grand Lodge, F. & M. A. O. U. of the United States.

PICKING CRANBERRIES

In starting a new cranberry plantation, fresh cuttings are used, set out in May or June. What with ditching and other preliminary operations, the cost to begin with is \$500 to \$700 an acre. In the third year the bog may be expected to yield 20 to 30 barrels of fruit per acre. Later on it may run up to 75 or even 100 barrels.

Bargain Sale of U. S. Stamps

SHANGHAI.—The United States postal agency at Shanghai is probably the only American postoffice that may be called a bargain sale in stamps. This happened here in late October and was made possible by a fluctuation in the rate of exchange.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is sign you have been eating too much meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms urine and which overloads the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and flag you must relieve them here, or your increased uric acid removing all the body's uric acid waste, else you have backache, sick headache, dizzy spells, your stomach sour, your throat coated, and when the weather is hot you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water made and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithium-water drink. Advertisement.
