D. REDFIELD, P. M.

NEBO.

Special Correspondence.
Nebo, I. T., Feb. 9.—Our farmers are turning the soil for another crop.

The wet and warm weather is making the vegetation and grass grow in low places.

Stock is looking bad and some of our farmers are losing cattle with a disease similar to blackleg.

Mrs. Eastman James and R. C. Krebs made a business trip to Ardmore Monday on account of bad roads to other towns.

Sulphur is getting what little cotton our farmers have to sell now.

Dan Thompson of Guy Sandy paid his old time friends, Mr. and Mrs. R. C. Krebs, of Board Bottom, a visit this week.

Mrs. Eastman James moved this week to Mill Creek and has left her home and stock in charge of Charley Coker. Charley is a business young gentleman, and Mrs. James could have selected no better man.

Nebo has a good school with a large attendance and a good teacher. Prof. Drake is giving perfect satisfaction.

On account of bad wagon roads and no bridge on Caldo creek, Ardmore will miss lots of credit and cash trade from this part of the Chickasaw nation.

Stomach Troubles cured by KODOL

DYSPEPSIA CURE

FOSTER.

Special Correspondence.
Foster, I. T., Feb. 10.—A slow rain has been falling since 8 o'clock last night.

Health is very good.

Farmers are plowing and seem to be in fine spirits for a good crop, as the ground is in better condition than it has been for a long time. There is no small grain sown in this community, hence the crop will be corn and cotton principally.

Our school is still progressing nicely.

There was spelling at the school house Saturday night.

There is some talk of organizing a literary society in the near future.

J. B. Shelton and J. W. Alexander went to Velma on business Saturday, returning Sunday.

Mrs. William Fisk and daughter, Mattie, of near Homer, are in town visiting friends and relatives. We hear that Mr. Fisk intends locating in town. We would be glad to welcome them among us.

The races are still on and will probably continue until March.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by City Drug Store, F. J. Ramsey and Ardmore Drug Co.

It must be hard for some people to be poor, but for others it is the easiest thing in the world.

Chamber of Commerce Committee.

Cured Consumption.
Mrs. B. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months; the doctors stated he had quick consumption. We procured a bottle of Ballard's Horehound Syrup and it cured him. That was six years ago and since then we always kept a bottle in the house. We can not do without it. For coughs and colds it has no equal." 25c, 50c and \$1 bottles at W. B. Frame's.
