Eastern Oil Up Twenty-Five Good Well in Henryetta Cents; Mid-Continent Next District The price of Pennsylvania was ad- ... Ohlo-Chilahoma, Oil company and

vanced 25 cents to \$33.25 per barrel. Associates No. I Flord Fields, in the by the principal purchasing agentics, to take effect Saturday morning. This puts Pennsylvania grade at the hole has filled up 1.800 feet with \$3.25. Cahell at \$2.11. Somerget oil. Well has been shut down for the hole has filled up 1.800 feet with 33.25. Casell at \$2.11. Somerset \$1.20. Somerset light \$2.12. Corping \$1.25 and Ragiand \$1.00. The two latter remain unchanged.

The first day of January, 1922 would be a mighty good time to post an increase in the price of crude here, at the same time advancing all refined products. This advance has been anticipated by well posted oil men for some time, and will cause a great deal of dissatisfaction if it fails to materialize.

REFINERIES

Use Oklahoma Southwestern Ry. Service to Secure Favorable Factory, Gasoline Plant and Refinery Sites

More than a railroad service - that's what the Oklahoma Southwestern railroad offers industry. It aims to not only provide a 100 per cent fetch-and-carry medium between its points of supply and demand, but to promote industrial growth by putting business interests in touch with locations suitable for almost every branch of industry.

The Oklahoma Southwestern railroad operates complete service-Passenger, LCL, Carload and Daily Package Car Freight-connecting with the Frisco terminus at Bristow and serving the industrial and oil developments in the Slick and Nuyaka districts.

On this line are many choice industrial, gasoline plant, carbon plant and refinery sites. Especially at Slick are these close to abundant raw materials; supplied with the facilities and environs of a modern city; with abundant power, water and labor; with first-class outlet to the great centers of distribution.

For Prompt Attention, Address Communications to R. E. BROOKE, Superintendent of Transportation.
