ARCHITECTS READY TO BEGIN THEIR WORK ON NEW COUNTY COURT HOUSE.

The board of county commissioners met yesterday afternoon with the Oklahoma City firm of architects who have made the plans for the court house.

The Carter county court house will be one of the best in the state. It will have a basement in which the janitor will have his apartments and where the furnace will be located.

On this floor there will also be rest rooms for ladies and for men and the county superintendent and county surveyor will have their offices on the first floor.

The second floor the county commissioners, county clerk and treasurer will have offices, the lobby will extend east and west and in the northeast corner the offices of the register of deeds will be made and in the northwest corner the county attorney will have his offices.

The first story is to be built of Oklahoma granite which will most probably be brought from Tishomingo, and the face brick will be of a good quality of pressed brick with fillers of ordinary brick.
