BELGIANS TAKE ROULERS

(Continued from page 1.)

Paris, Sept. 30.—The allied advances on four sectors from the North sea to the Meuse continue and important strategic points are being taken from the Germans by the French, British, American and Belgian forces.

Not since the first battle of the Marne has there been an attack to compare in extent with the present operations. The new thrust of the Anglo-Belgian armies was a complete surprise to the Germans and is meeting with marked success.

The number of prisoners increases hourly and the advance goes on steadily despite the fiercest resistance of the Germans.

Raise in Price Necessary

Owing to the fact that all supplies used in the conducting of the laundry business have increased in price from \$400 to 1,000, together with the heavy increase in wages, makes it absolutely necessary that an increase in the price of laundry work be made. We had hoped to continue at the pre-war price but the business is now being conducted at a loss and in order to continue we must make a 25 PER CENT INCREASE BEGINNING OCTOBER 1.

Prices will be lowered again as soon as the conditions warrant.
