THE FRUIT GROWERS

Talks, Debates, Essays and Resolutions—State Fruit Show.

The most important business at the Wednesday session of the State Fruit Grower's meeting was the report of a committee on State Fruit Fair.

This committee met during the noon intermission and later in the day reported their labors in the form of the following resolutions:

"We, your committee appointed to consider a state fruit exhibit to be made during the coming fall and winter have reached the following conclusions:

- First, In our opinion the time has arrived for us to make known at home and abroad the facts concerning our large and growing fruit industry. To this end we recommend that an executive committee of five be selected at this meeting (the president to act as chairman) who shall carry this into effect. They shall have power to select an auxiliary committee composed of one from each local society and one from each county.

"Second, That a treasurer be selected at this meeting.

"Third, That the time and place for holding the fair, method of raising funds, amount and character of premiums be let to the executive committee.

"Fourth, that the State agricultural society, chamber of commerce, and various boards of trade, and all other bodies interested in the development of our resources, be invited to co-operate with us.

The program yesterday was full of interest, every feature being carried out reflecting great credit on the local committee, the whole meeting being declared the most successful ever held in the state.

The lively talks of the day were made by Mrs. R. E. Wanda's, who is always prepared to do her part well, and J. J. Walton in his "Random Shots," full of originality, humor and sound sense.

In the evening P. S. Knight gave a talk on the Commercial aspects of horticulture.

The morning session was called to order at 10 a. m., by President Cardwell. He asked all to unite with the state society by paying a dollar. The members of the state board had their vouchers issued to them on the state treasury for mileage and per diem; this morning and were all preparing to go on the train.

The State Horticultural Society spent the forenoon considering ways and means of co-operative fruit marketing and shipping, and adjourned at noon.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Ad dress, F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c.
