HUNDREDS OF SALUTES ARE FIRED.

Five Million Dollars Blown in for
War Glory.

The Oregon Launched.

SAN FRANCISCO, Oct. 25.—Shortly before noon today the battleship Oregon, the first vessel of her class constructed on the Pacific coast, was launched from the ways at the Union Iron Works in the presence of one of the greatest crowds of people which ever assembled there, to witness a similar event. Representatives of the army and navy, civil officials of the general government and the states of California and Oregon, and a large number of invited guests were present. At the moment the several thousand tons of steel commenced to glide down the ways, a hundred salutes were fired, bands of music played national airs, thousands of spectators gave cheer after cheer, and every steam whistle within a radius of a mile of the works joined in the chorus. The launch was entirely successful, and the new battleship now lies in a little lagoon in front of the Union Iron works awaiting her completion which will be pushed as rapidly as possible.

DESCRIPTION OF THE SHIP.

The Oregon is what is technically known as a sea-going coast line battleship, and is the most powerful ship in the United States navy. She will have a maximum speed of sixteen and two tenths knots, and will carry a crew of four hundred and sixty men.

The cost, exclusive of armament will be four million dollars. The armament consists of four 13-inch, eight 8-inch and four sixteen breech-loading rifles; also a second battery of a twenty-six-pounder and six one-pounder rapid-fire guns, two gattling and also six torpedo tubes, and 13 inch and 8 inch guns mounted in turrets.

Proceedings in Congress.

WASHINGTON, D. C., Oct. 25.—When the senate convened the repeal bill was taken up. Teller resumed his speech against the bill without finishing. He yielded the floor to Squire who spoke in favor of his amendment to the repeal bill. In the house discussion of the bankruptcy bill was resumed, Boastner of Louisiana taking the floor.

Well Received.

BERLIN, Oct. 27.—Hon. Theodore Ruyon, the new ambassador to Germany, was presented and produced his credentials this morning. He was cordially received by the emperor.

Street Car Strike.

ST. PAUL, Minn., Oct. 25.—Employees of the Twin City Rapid Transit Company to the number of four hundred struck this morning. Men in Minneapolis are expected to join the strike. So far all is quiet, though officers have been ordered to protect the company's property.

Some cable cars are running with aid of men who refused to strike and new men have been secured.

Big Strike in New York.

NEW YORK, Oct. 25.—Six hundred men employed on the new building of the Mutual Reserve Fund and Postal Telegraph Company struck this morning against a sub contractor who refused to discharge non-union men.

B RADFIELD'S FEMALE REGULATOR

Has proven an infallible remedy for all derangements peculiar to the female sex, such as chronic womb and ovarian disease. It takes in time it regulates and promotes healthy action of all functions of the generative system. Young ladies at the age of puberty, and older ones at the menopause, will find it a healing, soothing tonic. Highest recommendations from physicians and those who have tried it. The Silver Debate.

WASHINGTON, Oct. 26.—The repeal bill was taken up and Pugh spoke against it. Referring to the recent compromise, Pugh said the Democratic senators had held a caucus and selected an equal number of senators from those friendly to unconditional repeal and those opposed to it, and with the full knowledge of President Cleveland and Secretary Carlisle that such an effort was being made to bring the Democratic senators together upon some common ground that could be enacted into a law. They accomplished that laudable undertaking so far as to agree upon a compromise that secured the signatures of every Democratic senator but six. The fact was not considered doubtful that 43 Democratic senators would have sanctioned compromise had not the president interposed any objection, and demanded unconditional repeal at all hazards. Pugh was now satisfied that all effort at compromise had failed solely on account of Cleveland and the secretary of the treasury. He was satisfied he could get a sufficient number of senators to join him in filibustering, and he was forced to record his vote against this diabolical measure, and to appeal to the people to organize their forces for the great battle of the future. Pugh said he was willing as he had sufficient support to resort to any and all means to defeat the impending bill. He was proud to be called a filibuster in defeating a conspiracy equal in ruinous consequences of its success to war, pestilence, and famine. He would rather be called a filibuster by the conspirators and lickspittles of the gold kings than be called a traitor and faithless representative by the state and people who honored him with their trust and confidence. As for himself, he would do his duty as a senator as he understood it and leave the consequences to God and his country.

Stewart then resumed his speech. He spoke of the gold combination as having agents in the capital to dictate legislation and as having elected a president determined to carry out the policy. The president was in the saddle and congress was helpless. The time might come when the haughty tyrants would meet a rebuke from the people.

When Stewart had talked an hour or so, he yielded the floor to his colleague, Jones, saying he would finish his remarks at another time. Jones discussed at length the relations of workingmen to the money system.

BILL TO REMIT THE TAX.

The committee on banking and currency will probably report a bill today remitting the 10 per cent. tax which it is proposed to levy on clearing-house certificates. These certificates in the South were not handled in the same manner as those in New York. In the South they passed from hand to hand, and were made to take the place of money. It was stated upon them that they should be redeemed at the bank issuing them on a certain date. It was the opinion of most members of the committee that these certificates clearly came within the meaning of the law and that a bill is necessary to remit the tax.

ADJOURNMENT.

The prospect at the close of the senate was favorable to voting on the amendments to the repeal bill by Friday. Senator Jones will conclude and Senators Teller, Martin, Allen and Stewart each desire to talk. So far as is learned there will be no other speeches and when the last of these is concluded voting will be the next thing in order. A later inquiry confirms the prediction heretofore made that some of the amendments will receive a sufficient vote to insure their adoption but it is possible that none of them will receive as high a vote as will be recorded in opposition to the bill. The reason for this is found in the fact the silver men do not expect any of them to carry and therefore consider it unnecessary to attempt to have any of them adopted. A majority of the free coinage men are of the opinion that nothing can be agreed upon that would be advantageous to silver and many of them announce their intention of voting only for the free coinage amendment and of giving no countenance to any of the other amendments.

The Republicans have abandoned all idea of introducing the amendment as a party measure. Sherman thinks authority should be given for bonds, but sees a difficulty in getting such a provision through at this time and will, in all probability, not attempt it.

It is believed if voting on the amendments can be begun early Friday the final vote can be reached by Saturday and the bill sent to the house for action. When the house shall have acted upon the bill there is very little doubt now that an adjournment will be

taken, so general is the desire on the part of the members to get away. It would be next to impossible to hold a quorum of either house in Washington, even should it be attempted. At one time it was believed there would be an effort to pass the bill for the extension of the Chinese exclusion act but that probability has been averted.

THE GOLD BOND SCHEME.

Sherman Will Wait—Populists Will Not Filibuster.

WASHINGTON, Oct. 25.—Senator Sherman says he has no intention to offer an amendment to the repeal bill for the issue of two hundred millions of gold bonds to strengthen the gold reserve at this session. At the regular session, however, he will introduce a bill for that purpose.

Senator Peffer denies that populists intend to filibuster against repeal.

Supposed Vindication.

WASHINGTON, Oct. 24.—A telegram has been received by Secretary Hoke Smith announcing administration has been vindicated by a large democratic majority in the elections at Perry, Oklahoma. The intention of the telegram is to show that the method of opening the Cherokee strip does not seem to meet with so much dissatisfaction as has been alleged.

ANOTHER ELECTROCUTED.

A Fine Electric Wire Does the Business With Neatness and Dispatch.

This afternoon a fine gray horse of Lon. Geeser's was shod at Willard's blacksmith shop on State street, and as he was taken out by a young man on his back he passed through the back door into the alley near the fire alarm bell, he stepped upon a small wire that was down, and was killed without much struggle. The boy at once seized the wire to relieve the animal, and received considerable hurt, but was not seriously hurt. The wire which did the fatal work was the small alarm wire running from the engine house to the fire bell. It had been down all the forenoon, but up to this time it cannot be learned from what cause. The wire cut a deep gash into the breast of the horse between the fore legs, which fact probably caused the sudden death.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

THE LABORER SHALL BE FREE.

Enforced Slavery Abolished in Guatemala.

Guatemala.
SAN JOSE, Oct. 25.—President Reina Barrios decreed that labor should henceforth be free all over the country. By this decree the oldest institution of enforced labor is abolished. This pernicious system was nothing less than a form of slavery, thinly disguised. The police are busy tearing down posters, calling upon Guatemalans to defend their rights. Circulars are secretly distributed, denouncing President Barrios and his wife, the latter being characterized as an "interloping American." It is stated that the government is banishing all arrested persons, but it is believed that one or two have been shot. The prisoners are confined in the military barracks, which no one else is allowed to enter.

Brazil.
WASHINGTON, Oct. 25.—The navy department has learned by authority late by telegram from Rear-Admiral Stanton, in command of the United States naval forces at Rio Janeiro, that this officer had saluted the flag of Admiral Mello, commanding the insurgent fleet. This salute was unauthorized by any instructions the admiral had received. It was an unfriendly act toward a friendly power, and the secretary of the navy, after consulting with the president and secretary of state, issued an order detaching Admiral Stanton from the command of his squadron, turning it over to Captain Pickens, the next officer in rank. This was in reply to a telegram of inquiry.

Rio Janeiro, Oct. 25.—Peixoto's government issued a decree October 15 which extended the period of martial law, under which the city has been placed from that date up to October 28. The same decree restricts the liberty of press entirely, provides for the expulsion of foreigners from the country who may render themselves obnoxious to Peixoto, and removes any guarantee for the safety of their lives and property which heretofore has been rendered.

Silver in Peru.
LIMA, Peru, Oct. 25.—The house of deputies has approved several clauses of the monetary bill now under consideration, and the export duty on silver bars has been abolished. Twenty-five per cent of the import duties will be payable in gold coin after April 1 next, and only Peruvian silver coin will thereafter be legal tender throughout the entire republic. The senate has authorized the administration to issue a loan of 1,000,000 silver soles, guaranteed by the excise duties, the tax on opium and 40,000 tons of guano from the Chinchi Islands.
