## TO ORGANIZE FARMER'S FRUIT SELLING AGENCY

Portland, Ore., June 16, (Special)—On Saturday, June 20, representatives of fruit grower associations at Forest Grove, Dilley, Corvallis, Eugene, Sutherlin, Yoncalla, Cottage Grove, Dallas, Salem, Brownsville, Independence, Gresham, Monmouth, Newberg, Springfield and Roseburg will attend a meeting to be held in the Green Parlor of the Portland Commercial Club for the purpose of organizing a sub-central branch of the North Pacific Fruit Distributors, will elect one member of the board of managers for the Spokane show and will complete the details of a campaign for marketing the 1914 crop of fruit in Western Oregon.

Mr. H. C. Sampson, secretary of the N. P. F. D., who is directing this movement, said: "Briefly stated, the distributor in this case will be the farmer himself in the selling game. It is purely co-operative. The organization will sell on a commission of 10 cents per box, which is sufficient to pay the expenses of salaried agents in all parts of the world and of 67 special representatives. Through these agents we distribute the fruit to all parts of the world, keeping markets fully supplied but never overloaded."

In order to stimulate interest among stock breeders in Oregon, the Oregon Exposition Commission announces that \$10,000 will be set aside as prizes for the best stock from this state exhibited at San Francisco next year. It is hoped that on completion of the budget it will be possible to increase this sum to \$15,000. This will be in addition to the \$175,000 which will be distributed in livestock prizes by the authorities of the exposition.

Business men of John Day are organizing in an effort to secure new enterprises in that valley. According to a statement issued by them, there are exceptional opportunities for a roller flour mill and for an up-to-date creamery. They say that all four raised in Grant County has to be hauled in from distant outside points while grain of all kinds is shipped out of the valley, and that in John Day and Bear valleys a large amount of milk is produced, a large part of which is hauled 40 miles to Prairie City, the nearest creamery. Business men and property owners are ready to lend all possible assistance to the establishment of these industries.

Work has been commenced in the preparation of a 400-acre tract of land one mile from Hermiston for

the purpose of seeding the entire acreage to alfalfa. The owner of the tract expects the venture to be immensely successful, as he has been producing alfalfa in that vicinity for a number of years.

It having been asserted that a large part of the land in the Umatilla Project is infertile and non-productive, the Oregon Conservation Commission has had a representative go carefully over the entire section, and his report, just sent in, indicates that under intelligent management and cultivation that soil is extremely productive and that the majority of the farmers are doing well. He states that the bank at Hermiston has in the past 18 months loaned \$15,000 to the farmers for the purchase of stock and the notes are being promptly paid at maturity.
