

STEADIER HOG MARKETS PLANNED

Hog Producers and Packers Confer With Representatives of the Food Administration and Agricultural Department and Adopt New Plan of Regulation.

In accordance with the policy of the Food Administration since its foundation to consult representative men in the agricultural industry on occasions of importance to special branches of the industry, on October 24 there was convened in Washington a meeting of the Live Stock Subcommittee of the Agricultural Advisory Board and the special members representing the swine industry to consider the situation in the hog market.

The conference lasted for three days, and during this time met with the executive committee of the fifty packing firms participating in foreign orders for pork products and with the members of the Food Administration directing foreign pork purchases.

The conclusions of the conference were as follows:

The entire marketing situation has so changed since the September joint conference as to necessitate an entire alteration in the plans of price stabilization. The current peace talk has alarmed the holders of corn, and there has been a price decline of from 25 cents to 40 cents per bushel. The fact that the accumulations of low priced corn in the Argentine and South Africa would, upon the advent of peace and liberated shipping, become available to the European market has created a great deal of apprehension on the part of corn holders. This decline has spread fear among swine growers that a similar reduction in the prices of hogs would naturally follow. Moreover, the lower range of corn prices would, if incorporated in a 13-to-1 ratio, obviously result in a continuously falling price for live hogs. In view of these changed conditions many swine producers anticipated lower prices and as a result rushed their hogs to market in large numbers, and this overshipment has added to and aggravated the decline.

The information of the Department of Agriculture indicates that the supply of hogs has increased about 8 per cent, while the highest unofficial estimate does not exceed 15 per cent. increased production over last year. On the other hand, the arrival of hogs during the last three weeks in the seven great markets has been 27 per cent. more than last year, during the corresponding period, demonstrating the unusually heavy marketing of the available supply. In the face of the excessive receipts some packers have not maintained the price agreed last month. On the other hand, many of the packers have paid over the price offered to them in an endeavor to maintain the agreed price. The result in any event has been a failure to maintain the October price basis determined upon at the September conference and undertaken by the packers. Another factor contributing to the break in prices during the month has been the influenza epidemic; it has sharply curtailed consumption of pork products and temporarily decreased the labor staff of the packers about 25 per cent.

The exports of 130,000,000 pounds of pork products for October compared with about 52,000,000 pounds in October a year ago, and the export orders placeable by the Food Administration for November, amount to 170,000,000 pounds as contrasted with the lesser exports of 98,000,000 for November, 1917. The increased demands of the allies are continuing, and are in themselves proof of the necessity for the large production for which the Food Administration asked. The increase in export demands appears to be amply sufficient to take up the increase in hog production, but unfavorable market conditions existing in October afford no fair index of the aggregate supply and demand.

It must be evident that the enormous shortage in fats in the Central Empires and neutral countries would immediately upon peace result in additional demands for pork products which, on top of the heavy shipments to the Allies, would tend materially to increase the American exports, inasmuch as no considerable reservoir of supplies exists outside of the United States. It seems probable that the present prospective supplies would be inadequate to meet this world demand with the return to peace. So far as it is possible to interpret this fact, it appears that there should be even a stronger demand for pork products after the war, and therefore any alarm of hog producers as to the effect of peace is unwarranted by the outlook.

In the light of these circumstances it is the conclusion of the conference that attempts to hold the price of hogs to the price of corn may work out to the disadvantage of pork producers. It is the conclusion that any interpretation of the formula should be a broad gauged policy applied over a long period. It is the opinion of the conference that in substitution of the previous plans of stabilization the Live Stock Subcommittee of the Agricultural Advisory Board, together with the specially invited swine representatives, should accept the invitation of the Food Administration to join with the Administration and the packers in determining the prices at which controlled export orders are to be placed. This will be regularly done. The influence of these orders will be directed to the maintenance of the common object—namely, the stabilization of the price of live hogs so as to secure as far as it is possible fair returns to the

Livestock Subcommittee of the Agricultural Advisory Board, together with special swine members and the representatives of the packers, to improve the present unsatisfactory situation, which has unfortunately resulted because of the injection of uncontrollable factors.

We ask the producer to co-operate with us in a most difficult task. The members of the Conference were:

Producers—H. C. Stuart, Elk Garden, Va., Chairman Agricultural Advisory Board; W. M. McFadden, Chicago, Ill.; A. Sykes, Ida Grove, Ia.; John M. Eppard, Ames, Ia.; J. H. Mercer, Live Stock Commission for Kansas; J. O. Brown, Monon, Ind.; E. C. Brown, President Chicago Livestock Exchange; N. H. Gentry, Sedalia, Mo.; John Grattan, Broomfield, Colo.; Eugene Funk, Bloomington, Ill.; Isaac Lincoln, Aberdeen, S. D.; C. W. Hunt, Logan, Ia.; C. E. Yancey, W. R. Dodson.

Food Administration—Herbert Hoover, F. S. Snyder, Major E. L. Roy, G. H. Powell.

Department of Agriculture—Louis D. Hall, F. R. Marshall.

The packers present and others sharing in foreign orders were represented by the elected packers' committee. Those represented were:

Packers—Armour & Co., Chicago, Ill.; Cudahy Packing Co., Chicago, Ill.; Morris & Co., Chicago, Ill.; Swift & Co., Chicago, Ill.; Wilson & Co., Chicago, Ill.; John Agar Co., Chicago, Ill.; Armstrong Packing Co., Dallas, Tex.; Boyd Dunham & Co., Chicago, Ill.; Brennan Packing Co., Chicago, Ill.; Cincinnati Abattoir Co., Cincinnati, O.; Cleveland Provisions Co., Cleveland, O.; Cudahy Bros. Co., Cudahy, Wis.; J. Dold Packing Co., Buffalo, N. Y.; Dunlevy Packing Co., Pittsburg, Pa.; J. E. Decker & Sons, Mason City, Ia.; Evansville Packing Co., Evansville, Ind.; East Side Packing Co., East St. Louis, Ill.; Hammond Standish & Co., Detroit, Mich.; G. A. Hornel & Co., Austin, Minn.; Home Packing & Ice Co., Terre Haute, Ind.; Independent Packing Co., Chicago, Ill.; Indianapolis Abattoir Co., Indianapolis, Ind.; International Provision Co., Brooklyn, N. Y.; Interstate Packing Co., Winona, Minn.; Iowa Packing Co., Des Moines, Ia.; Powers Begg Co., Jacksonville, Ill.; Kingan & Co., Indianapolis, Ind.; Krey Packing Co., St. Louis, Mo.; Lake Erie Provision Co., Cleveland, O.; Layton Co., Milwaukee, Wis.; Oscar Mayer & Bro., Sedgewick and Beethoven streets, Chicago, Ill.; J. T. McMillan Co., St. Paul, Minn.; Miller & Hart, Chicago, Ill.; J. Morrell & Co., Ottumwa, Ia.; Nuckolls Packing Co., Pueblo, Colo.; Ogden Packing and Provision Co., Ogden, Utah; Ohio Provision Co., Cleveland, O.; Parker Webb & Co., Detroit, Mich.; Pittsburg Packing and Provision Co., Pittsburg, Pa.; Rath Packing Co., Waterloo, Ia.; Roberts & Oake, Chicago, Ill.; Rohe & Bros., New York City; W. C. Routh & Co., Logansport, Ind.; St. Louis Ind. Packing Co., St. Louis, Mo.; Sinclair & Co., T. M. Cedar Rapids, Ia.; Sullivan & Co., Detroit, Mich.; Theurer-Norton Provision Co., Cleveland, O.; Wilson Provision Co., Peoria, Ill.; Western Packing and Provision Co., Chicago, Ill.; Charles Wolf Packing Co., Topeka, Kan.

We agree that a committee shall be appointed by the Food Administration to check the daily operations in the various markets with a view to supervision and demonstration of the carrying out of the above.

The ability of the packers to carry out this arrangement will depend on there being a normal marketing of hogs based upon the proportionate increase over the receipts of last year. The increase in production appears to be a maximum of about 15 per cent. and we can handle such an increase.

If the producers of hogs should, as they have in the past few weeks, prematurely market hogs in such increasing numbers over the above it is entirely beyond the ability of the packers to maintain these minimums, and therefore we must have the co-operation of the producer himself to maintain these results. It is a physical impossibility for the capacity of the packing houses to handle a similar over-flood of hogs and to find a market for the output. The packers are anxious to co-operate with the producers in maintaining a stabilization of price and to see that producers receive a fair price for their products.

(Signed) THOS. E. WILSON, Chairman Packers' Committee.

The plan embodied above was adopted by the conference.

The Food Administrator has appointed a committee, comprising Mr. Thomas E. Wilson, chairman of the Packers' Committee; Mr. Everett Brown, president of the Chicago Livestock Exchange; Major Roy of the Food Administration, Mr. Louis D. Hall of the Bureau of Markets, to undertake the supervision of the execution of the plan in the various markets. Commission men are asked to co-operate in carrying out the plan embodied in the packers' agreement. It must be evident that offers by commission men to sell hogs below the minimum established above is not fair, either to the producer or the participating packers. Mr. Brown has undertaken on behalf of the commission men in the United States that they will loyally support the plan.

It is believed by the conference that this new plan, based as it is upon a positive minimum basis, will bring better results to the producer than average prices for the month. It does not limit top prices and should narrow the margins necessary to country buyers in more variable markets. It is believed that the plan should work out close to \$18 average.

Swine producers of the country will contribute to their own interest by not flooding the market, for it must be evident that if an excessive over percentage of hogs is marketed in any one month price stabilization and control cannot succeed, and it is certain that producers themselves can contribute materially to the efforts of the conferences if they will do their marketing in as normal a way as possible.

The whole situation as existing at present demands a frank and explicit assurance from the conferees represented—namely, that every possible effort will be made to maintain a live hog price commensurate with swine production costs and reasonable selling values in execution of the declared policy of the Food Administration to use every agency in its control to secure justice to the farmer.

The stabilization methods adopted for November represent the best efforts of the conference, concurred in by the Food Administration and the

BIG FALLING OFF IN GERMAN BIRTH RATE

Decline of 40 Per Cent Reported in Births Between 1913 and 1916

A decrease in Germany's live births from 1,839,000 in 1913 to 1,103,000 in 1916—a falling off of 40 per cent—is revealed by figures compiled from German sources by the British local government board and published in the Monthly Labor Review of the United States department of labor. During the same period the decrease in the number of live births in England and Wales was 10.9 per cent.

In the effort to reduce infant mortality the German authorities have undertaken three schemes—maternity grants, increased work in welfare centers for women and children, and special provision of suitable food for expectant or nursing mothers and for young children.

GOVERNOR MAKES VERY LONG TRIPS

Alaskan Executive Can Travel 5,000 Miles in Own Commonwealth

Juneau, Alaska—Few governors under the Stars and Stripes can travel 5,000 miles within their commonwealths, and Governor Thomas Riggs, Jr., of Alaska is one of the few. In making a tour of his territory he goes from Juneau to Nome on the first lap, then crosses the Gulf of Alaska and goes up Cook Inlet to Anchorage. At Fairbanks he strikes the Tanana river and boards a sternwheel river boat for St. Michael on Bearing sea. Thence an ocean vessel or launch takes him to Nome.

The wool-production estimate of the bureau of crop estimates makes the clip of 1918 amount to 257,921,000 pounds in the grease; pulled wool is not included. The clip of 1917, revised estimate, was 241,892,000 pounds.

In an Oregon county where 710 women enrolled in the classes and clubs organized by the home demonstration agent 233 household account books were placed as a result of the activity of the agent in creating interest in thrift and home management.

These are the days when the arguments pro and con about whiskey are being renewed. A public lecturer reports from Kentucky:

"I heard the other day a malignant story about a Kentucky colonel. 'Colonel,' a man asked him, 'is there any cure for snake bite except whiskey?' 'Who cares,' snorted the colonel, 'whether there is or not?'"

THERE'S WORK EVERY DAY ON ANY FARM for the

MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

You can make more money with the Moline-Universal than any other tractor because it can be kept at productive work more days a year—no matter how large or small your farm or what crops you grow. This is because the Moline-Universal is built to fit the farm and every operation on the farm. It is not limited to a few operations, nor to certain classes of work.

The Moline-Universal will do anything any other tractor will do and in addition an infinite variety of work impossible for any other tractor. You can find work for it every day in the year. If for no other reason than the fact that the Moline-Universal will do more and better work and can be kept busier than any other tractor, it is your best buy.

But the greatest advantage of the Moline-Universal is that one man controls both tractor and implement in all operations. You sit on the seat of the implement, where you must sit in order to do good work, and control the entire outfit. This means that you can farm more land than was ever before possible, with either horses or tractor.

The wonderful versatility and one-man control of the Moline-Universal are due to its two-wheel construction. It attaches direct to the implement and forms one compact unit with it—the tractor front wheels and the implement the rear wheels. Every control on both tractor and

implement is within reach, making easy handling of the entire outfit, which can be turned in a 16-foot circle, and backs as readily as it goes forward. A boy or woman can handle it as well as a man.

Due to its two-wheel construction, which makes all its power available for pulling and greater speed, the Moline-Universal Tractor will do as much work in a day of ten hours with two 14-inch plow bottoms as the average three-plow tractor.

The high clearance of the Moline-Universal Tractor, as great as that of the average cultivator, and its light weight make it perfectly adapted for cultivating. With a two-row cultivator, it cultivates from 14 to 20 acres a day. There is hardly anything on the farm that it cannot do. For odd jobs it is converted into a four-wheel unit by means of a rear carrying truck, to which any implement on the farm may be attached in the ordinary way.

From a mechanical standpoint, the Moline-Universal Tractor measures up to the very limit of modern engineering knowledge. Perfected overhead-valve four-cylinder engine, complete enclosure of all working parts, electric starting and lighting system, with electrical engine governor, and differential lock are only a few of the many improved features. It will pay you to stop and examine this latest and best of all tractors the next time you are in town.

I have made arrangements so I can let you have one of these TRACTORS on very advantageous terms. If you are interested, write or phone to me at St. Helens.
