

HOW THE WAR AFFECTS TRADE

During a recent 10 months our exports of manufactured articles decreased \$444,000,000, compared with the same 10 months a year ago.

KAISER IS VERY RICH

The kaiser not only has sacrificed the people of Germany to his ambition, but also is one of the greatest war profiteers.

WHEN YOUR HORSES GET THE "FLU"

To guard against an unfavorable termination of the development of one of its numerous complications, horses upon showing evidences of influenza should be relieved immediately from work.

ONLY A PRIVATE

He was only a private, a simple lad. Who had never answered the big world's call; Happy, contented with what he had.

He was only a private, he did not know Much of the war that mad men make;

But he learned of his country's need, and so Took the path that the patriots take Straight to the heart of the slaughter sent.

He was only a private, but as he came Out of the carnage, the blood, the stench, Somewhere a faint voice called his name

He was only a private, but where they pen Deathless records of heroes' deeds

There on the roster of noblemen The humble name of a private leads! In a soldier's grave, with the simple cross

The Philippine Islands are steadily gaining in the production of raw sugar.

HOUSEHOLD HINTS

Both for the sake of safety and appearances, get rid of waste paper promptly.

Scissors are often useful in the kitchen, and the sensible housewife will keep an inexpensive pair there always ready.

Save all the chips and refuse that collects in the bottom of the wood-box. Put it in paper bags.

When an old fur coat is too old to be of service cut it down for a winter robe for baby's carriage.

When you are having a fancy salad or dessert, and want to use marshmallows, cut them with scissors—and if you dip the blade in cold water it will be easier.

Leftover sandwiches that have grown stale can be dipped in a pan of water and fried in golden brown in fat.

When your neighbor borrows frequently from you and does not return the borrowed just borrow back.

Mrs. Isley's Letter In a recent letter Mrs. D. W. Isley of Litchfield, Ill., says, "I have used Chamberlain's Tablets for disorders of the stomach and as a laxative, and have found them a quick and sure relief."

An International Service Built on Tiny Profits Per Pound

Some industries have been able to get in step with war demands more quickly than others.

In many cases mighty plants have sprung up—but at a prodigious cost.

The packing industry was able to adapt itself to unheard of demands more quickly, perhaps, than any other industry. And this was because the vast equipment of packing plants, refrigerator cars, branch houses, etc., had been gradually developed to its present state of efficiency, so that in the crucial hour it became a mighty international system for war service.

And how had this development taken place?

Not by making vast inroads into the capital wealth of the country, but largely by using, from year to year, a portion of the profits, to provide for expansion.

Swift & Company's profits have always been so tiny, compared with sales, that they have had practically no effect on the price of meat (amounting to only a fraction of a cent per pound).

And yet the owners of the business have been content with reasonable returns on their capital, and have been able, year after year, to put part of the profits back into the business to provide for its expansion.

These fractions of tiny profits have been repaid to the public many fold in the form of better service, and better and cheaper meat, and made it possible for Swift & Company to meet, undaunted, the sudden cry for meat for a vermin.

Could any other method of financing a vital industry involve less hardship to the people of the country? Could there be a better instance of true "profit-sharing" than this return in added usefulness and in national preparedness?

Swift & Company, U. S. A.
