WARREN

Miss Martha Reyer of Portland, left for home on Sunday after spending three weeks with her parents, Mr. and Mrs. F. W. Boesel.
A great deal of discontent and complaint is being very forcibly expressed over the action of the S. P. & S. Ry. Co. in taking away from Warren and closing the depot of the agent. This leaves Warren nothing more than a flag station. The company claims the business does not warrant the paying of wages to an agent, especially the amount now allowed by the secretary of the treasury of the U. S. The agent here for the last year has been drawing nearly double the amount paid in former years. The right-of-way at this place contains more land than any other point between Portland and Astoria and the amount of shipping is greater now than in the past. Some of the assistants to the head "push" claim that the action is taken because some of the people patronized the truck for freight and the bus for passenger traffic and this action is taken as a retaliatory measure to endeavor to freeze out the trucks, but as the freight by truck is less than that by rail, little effect will be gained by the action and the matter will be threshed out in the meeting of the grange to which nearly every live farmer of Warren belongs.

Lowman's sawmill has started up after an idleness of about three months. Mr. Lowman has been down to Crow, Oregon, for awhile on some timber deals. Mr. Lowman is talking of moving his mill to that vicinity to operate it. We hope he changes his mind, however, as Apiary cannot afford to lose any of her industries and citizens.
Mrs. Ray Clark, teacher for Apiary, spent the week end with her family at Rainier. Mrs. Clark says her visits shall be few and far between to Rainier, because she is afraid of losing all her teeth on the way, but, oh! the roads are not rough!
Some very mysterious trips have been made to Rainier by some of our boys and large loads of furniture brought out. It looks very suspicious and, as nothing has been said about wedding bells, we are watchfully waiting.

The pleasant weather of the past few days has set every body busy cleaning up more land and the coming spring will see less stumps and more ground under cultivation. Chapman is proving to be a place of real home builders.
The local grange held their regular monthly meeting last Saturday. Mrs. Howard Miller, Verner Miller, Wm. Gilbert and wife, O. F. Anderson were initiated in the mysteries of the order, after which a light lunch was served, and all agreed that the Chapman goat was not so bad.

Plant This HOME APPLE ORCHARD!

and in just a short time,—a very few years—you'll have apples by the barrel from your own Home Orchard. And the trees will add to the value of your home. You can plant them in your yard, or in a row along the fence or road, or in the chicken run, where the growing trees will provide shade for the flock. Accept our offer and order your trees NOW!

We'll Send Twelve Grafted Apple Trees, Postpaid

Each little tree is produced by grafting together a "scion" (branch) from a selected tree of heavy-cropping record, to a healthy one-year root. Each little tree is about a foot high. They take root at once, make rapid growth, and bear large crops of choice apples even sooner than larger trees planted at the same time.

TWO EACH OF THE SIX MOST POPULAR VARIETIES

- Two Genuine Delicious** The finest and most beautiful apple grown. Very large, inverted pear-shape. Color dark red, shading to golden yellow toward the tip. A fine keeper, sweet and juicy. The tree is strong, bushy, and productive.
- Two Stayman Winesap** Deep, rich red in color, it is a marked improvement over the old Winesap, in both quality and appearance. Flavor rich sub-acid. The tree is a thrifty grower and an abundant bearer.
- Two Wealthy** A native of Minnesota, where it has proved hardy, vigorous and productive. The fruit is of medium size, red, streaked with white. Excellent quality and flavor. One of the best and most productive apples grown.
- Two Yellow Transparent** A very early, and an abundant bearer. Often bears some apples and very good. Skin clear white, turning to pale yellow.
- Two Jonathan** A general favorite, and always in good demand at fancy prices. Of medium size, roundish; skin nearly covered with dark red. Fine-grained, tender, and of exquisite flavor. Tree stender and spreading.
- Two Winter Banana** A fine, vigorous grower, with large, healthy foliage. A very early bearer of large, beautiful apples, golden yellow, with a red blush. The flesh is rich, succulent, and of the highest quality. A good keeper.

Our 12 Grafted Apple Tree Offer

—On any renewal of subscription or new subscription, if 50c is added to the subscription price of \$1.50 per year, The Mist will send postpaid, this collection of Apple Trees. Deliveries begin February 1st and end June 1st. Send in order and subscription now.
