CANDIDATES ATTENTION!

Nominating petitions for county and district candidates before the primary September 24, for sale at this office. Nicely bound. Complete sets only \$1 at office or by mail.

Petition Signed by 12,000.

Weston.—The initiative petitions of the Eastern Oregon state normal school was filed at Salem with 12,000 names attached, or about 3500 more than the number required by law. It is expected that additional names will be secured, and these will be filed later in a supplementary petition. The papers were widely circulated, and the signers live in 20 or more Oregon counties.

With the incarceration of Howard Hunter in the county jail at Healy, Idaho, the American Bankers' association believes it has retarded the activities of one of the most dangerous forgers who has operated in the Northwest in recent years.

Secretary Nagle, of the department of commerce and labor, who will visit Alaska this summer, has invited Attorney-General Wickersham to accompany him on the trip.

Hundreds of acres of bottom land near Dawson are being seeded this spring in potatoes. The greater portion of the potatoes consumed in the Kootenai are now raised near Dawson.

KNOX SENDS SHARP NOTE TO MADRIZ

Nicaraguan President Undiplomatic in Censuring United States Government.

Washington, June 20.—Madriz has drawn from this government a sharp reply to the protests he made to the President, alleging that the United States has prolonged the war in Nicaragua because it refuses to allow the bombardment of Bluefields or to allow the Venus to maintain a blockade there.

Consul Olivares, of Managua, has been furnished with a statement to hand to Madriz. It tersely observes that if any violation of neutrality has occurred, it was when the Venus sailed from New Orleans as an expedition of the Madriz faction.

Madriz' Protest General.

Madriz protested not to the United States alone, but to all the South American and Central American republics. The statements in his telegram are construed by the State Department as an effort to place in a false light the policy of the United States in regard to Nicaragua. Some governments that received his protest have asked for information from Washington upon which to base their replies and there has been an exchange of telegrams between President Diaz and President Taft.

Information Sent to Mexico.

President Diaz, it is explained, merely asked for information, and President Taft, replying in a cordial manner, sent to the government at Mexico City the same statement which consul Olivares has been directed to hand to Madriz.

Secretary Knox decided that the Madriz protest required the special notice of this government because the allegations made evidently were founded on errors as to the actual facts and applicable to the principle of war.

CANNON TO OPEN CAMPAIGN

Columbus, Ohio, June 22.—Speaker Cannon will open the congressional campaign in Ohio at the Chautauqua at Urbana on July 7. To this meeting all of the Ohio senators and representatives have been invited and a number of them will also be called upon to speak. It is understood that a united defense of the republican party in congress will be entered into, Cannon upholding his course and defending his action in regard to the house rules.

Arizona Wild With Joy.

Phoenix, Ariz., June 18.—Ten minutes after the receipt of the news of the passage of the statehood bill by the house of representatives reached Phoenix, every merchant had disposed of his entire stock of bunting, as well as the noise-makers which he had provided for the Fourth of July celebration. The town is fairly intoxicated with joy of prospect of statehood.

Severe Storm in New York.

New York, June 18.—Seventeen persons met death, scores were injured, thousands were given bad frights and great property loss resulted from an almost tropical storm which swept New York and vicinity late this afternoon. Twelve persons were drowned from overturning craft, and the others were killed by falling trees and smoke stacks.

50,000 Socialists Listen to Siedel.

Chicago, Ill., June 19.—The greatest crowd that ever attended a Socialist meeting in Chicago today greeted Emil Siedel, the Socialist Mayor of Milwaukee. It is estimated there were 50,000 persons, men and women, at the gathering, which was held in a North Side amusement park.

Coal Strike Is Expensive.

Chicago, June 20.—Extra expenses amounting to \$17,000,000 a year, borne by the members of the Illinois Manufacturers' association, as a result of the coal strike, caused a meeting of the association in the Hotel La Salle to devise ways and means to eliminate the extra expense.

Graders Find Gold Mine.

Auburn, Cal., June 22.—In railroad building operations in this county during the last few months, the Utah Construction Company has cut say-

eral quartz ledges in making excavations, and in some of these rich values in gold have been found.

New Mexico Celebrates Statehood, Albuquerque, N. M., June 21.—News of the passage of the statehood bill was received here with wild rejoicing. A big celebration took place Monday night, speeches being made around a bonfire by republican and democratic leaders.

THEODORE ROOSEVELT, JR.

Theodore Roosevelt, Jr., eldest son of former President Roosevelt, who was married to Miss Eleanor B. Alexander, of New York, Monday.

ROOSEVELT RECEIVES OVATION IN GOTHAM

Demonstrative Throngs Witness Parade and Drive Up Broadway.

Former President Theodore Roosevelt returned Saturday to New York from his trip through Africa and Europe, which began immediately on his leaving the white house, and which has lasted for 15 months.

Colonel Roosevelt was greeted by such a demonstration of popular enthusiasm and personal devotion as had seldom, if ever, been accorded to a returning American traveler.

Each step in this eventful homecoming, from the time he had embarked from the steamer Kaiserin-Auguste Victoria until he moved up Broadway amid the tumultuous demonstrations of large throngs of people was one continuous ovation and tribute of popular enthusiasm.

The stages in this welcome were crowded into hardly more than three

THEODORE ROOSEVELT.

hours. At 8:30 in the morning Mr. Roosevelt left the steamship amid the roar of big guns from battleships and land forts and a pandemonium of steam whistles from water craft and the factories along the water front.

Aboard the revenue cutter Androsoggin, he moved at the head of an imposing marine parade, up the Hudson river to Riverside drive and back again to the Battery amid the continuous demonstrations of water craft and the multitude along the water front.

The landing at the Battery was the signal for another clamorous ovation.

Mayor Gaynor extended official felicitations and Mr. Roosevelt spoke briefly but significantly of the part he will continue to take in public affairs. At 11 o'clock the start up Broadway began, through densely massed throngs extending for five miles along the main thoroughfare of the city.

One Better.

Knicker—What do you think of a tax on dowries? Bocker—Fine. Why not on alimonies?

NEWS FROM OUR NATIONAL CAPITAL

What Our Lawmakers Are Doing and Other Items of Importance.

Washington, D. C.—The administration's railroad bill is now a law, having passed both house and senate and been signed by the president. The bill is substantially in accordance with the president's message demanding amendments to the interstate commerce laws. About the only exceptions are that it does not legalize holding agreements made by railroads, or permit the regulation of the issuance of stocks and bonds. It creates a commerce court and broadens the scope of the jurisdiction of the interstate commerce commission regarding railroads.

Statehood Bill Passes.

The house concurred in the senate amendments to the statehood bill and passed the measure without sending it into conference.

It cannot be stated definitely when Arizona and New Mexico will come into the Union, as the constitutions adopted by the proposed states must be ratified by congress and approved by the president. It will be necessary for the territories to hold constitutional conventions, which will require many weeks, submit the constitution to the people of the territories for adoption, and then return them to Washington.

Neither City Favored.

Unwilling to favor either of the rival Panama exposition cities, San Francisco or New Orleans, the house committee on foreign affairs decided to report favorably two resolutions, authorizing the president to invite foreign nations to participate in each exposition to be held in the two cities, whenever each city had raised \$7,500,000 for the purpose of holding its exposition.

The senate committee has taken no action on similar measures, and neither house is expected to act on them during the present session.

Bullinger Probe Waits.

The chances of a verdict from the Bullinger-Pinchot investigating committee during the present session of congress are remote. The committee held a meeting behind closed doors and Senator Nelson said after the meeting that he did not think it would be possible for the committee to conclude its labors before the adjournment of congress. The committee has authority to meet during the recess of congress and it is possible that the report will be completed and given to the public during the summer or fall.

Cannon Defends Rules.

The old rules of the house were defended and critics of the speaker were severely scored by Speaker Cannon in a brief address in the session of the house. Mr. Cannon contended that the rules as amended by the fifty-first congress and as enforced by him, had never interfered with the will of the majority of the house when an actual majority had objected on any proposition.

Session Nears End.

Congressional leaders confidently expect to wind up the present session this week, and adjourn not later than Saturday. If the session is carried beyond that time it will be because of amendments to the general deficiency bill or complications in connection with the omnibus public building bill.

Public Building Appropriations.

The public building bill, reported to the house, contains the following Oregon and Washington items: Public building at Medford, \$110,000; at The Dalles, \$30,000; site at Roseburg, \$10,000; public buildings at Olympia, \$100,000; Aberdeen, \$125,000; Seattle, \$200,000; site at Vancouver, \$12,500; at Wenatchee, \$12,000.

Salmon Export Limited.

The bill prohibiting the exportation of sockeye salmon from the United States, except when frozen, canned or salted, was passed by the senate. The bill, which was introduced by Senator Piles, is a measure of retaliation against British Columbia, which recently prohibited the exportation of fresh Canadian salmon to Puget Sound canners.

Freight Meets Boxcar.

Calfax, Wash., June 19.—While a

loaded boxcar was being pushed up a grade between Riparia and Grange City, Wash., on the line of the O. R. & N., the car and switch engine behind it crashed head-on into the first section of a special freight train, carrying Campbell Brothers' circus, which was on its way from Walla Walla to Lewiston. Three cars of the circus train were wrecked and five horses killed. No one on this train was hurt.

MRS. THEO. ROOSEVELT, JR.

Miss Eleanor B. Alexander, who became the bride of Theodore Roosevelt, Jr., son of former President Roosevelt, Monday.

BRIEF NEWS OF THE WEEK

French statesmen are greatly exercised over the suggestion that King Edward's death may open the way to a combination between England and Germany.

President Taft went to New Haven Wednesday to see his son Robert graduate from Yale university.

Pursuant to the call of Governor Hughes, the New York legislature met in extra session Monday for the further consideration of the direct primary issue.

The trial of Robin J. Cooper, charged with the murder of former Senator Carmack in November, 1908, began in Nashville Tuesday. Young Cooper was convicted in the criminal court and the case was reversed last spring by the state supreme court.

The Fourth International Congress of chambers of commerce and industrial association convened in London Tuesday for a session of three days.

Other events of the week of more or less public interest include the presidential election in Mexico.

Owing to the threat of Gov. Gillette to call out the militia, if necessary, to stop the fight, San Francisco has been definitely eliminated as a possible scene of the Jeffries-Johnson fight. The fight will be held in Nevada, as the laws of that state do not prohibit glove contests, and no serious objections to the battle is anticipated in that state.

A favorable report was made to the senate on the house bill appropriating \$25,000 for erecting and equipping detention hospitals for the Alaska insane at Fairbanks and Nome.

The senate has passed the bill appropriating \$40,000 for constructing a residence for the governor of Alaska at Juneau.

The Washington Pioneers' association accepted the invitation of the Oregon Pioneers' association to meet at Portland June 22.

The house committee on labor has decided to favorably report the bill creating a department of labor with a seat in the president's cabinet.

Representative Poindexter has introduced a resolution for a congressional investigation into alleged timberland frauds in the Marble Creek district of Northern Idaho, under which a subsidiary of the Weyerhaeuser company is alleged to have acquired title to very valuable white pine lands. There is no likelihood that the resolution will pass.

Timbermen and loggers report that there is a general upward tendency in the price of logs throughout the Northwest and a still greater advance is expected owing to the conditions now prevailing in the market.

Not only is Senator Robert M. La Follette to be read out of the Republican party in Wisconsin, but the organization which he has laboriously built up is to be discredited in the national convention, two years hence. Such, at least, appears the purpose of the Taft Republicans who met in Milwaukee in conference and appointed a state committee with authority to perpetuate itself.

ITEMS OF INTEREST THROUGHOUT OREGON

Chronicle of Important Events of Interest to Our Readers.

Bowerman Acting Governor.

Salem.—Oregon has acquired a new governor, for the time being. He is Jay Bowerman of Condon and succeeds to the office because of and by virtue of his position as president of the Oregon state senate. The constitution of Oregon provides that in the event of the resignation, absence or other disability of both the Governor and secretary of state, the president of the senate shall perform the offices of the chief executive. The accumulation of state business caused Governor Benson who is receiving treatment for a bothersome affliction of the face, to call on Mr. Bowerman to relieve the executive office at Salem of the congestion.

It is believed by H. L. Benson, brother to the governor, that if the governor is allowed to remain in San Francisco long enough, his physicians will be able to restore him to his former health. Heretofore the governor has been compelled to return before the course of treatment had been completed, necessarily to his great disadvantage.

State Wins Suit.

Salem.—The state of Oregon won a victory over the Corvallis & Eastern Railway company in the Circuit court when Judge Galloway decided the case of the railroad against the state land board in favor of the board. This was an injunction action to restrain the land board from selling a small quantity of tideland in Alsea Bay, and in itself was unimportant, but involving as it does title to thousands of acres of tide and submerged lands in Alsea, Yaquina and Siletz bays, the outcome has been awaited with interest.

The company set up that the legislature of 1874 had ceded to the predecessors in interest of the Corvallis & Eastern Railway company all the tidelands in the three bays named; that the railroad company's right had become a vested one and that no subsequent session of the legislature had the power to revoke the action of the session of 1874.

Government Takes Invoice of Timber.

Eugene.—Fifteen or more expert timber cruisers in the employ of the government are now in Eugene ready to start for the Cascade forest reserve, where they will make a careful cruise of all of the timber of the entire watershed of the Willamette river and its tributaries. They will make a complete survey of the entire forest and classify the land, segregating the timber into logging units, and expect to be at the work all this summer and a greater part of next.

This is the first attempt of the government to take an inventory of its timber resources, and hereafter it will know just what it has and will be able to dispose of it with some justice to itself and fairness to its citizenship.

Not Enough Votes in District.

Salem.—According to a ruling made by the secretary of state's office, there were not enough votes cast by the democrats for their nominee for congressman in the second congressional district two years ago for that party to nominate a candidate under the direct primary law. The nominations will have to be made under the old system.

The direct primary law provides that a political party is not a party in a congressional district unless it can cast 25 per cent at least, of the total vote cast for congressman.

Girl Graduate Wins Medal.

Albany.—The Frank J. Miller, medal for the graduating class of 1910 at Albany college has been awarded to Miss Rhoda Stalnaker, of this city. A medal is given annually by State Senator Frank J. Miller, who is president of the board of trustees of the college, to the member of the graduating class who makes the best showing during the college course. This medal is not awarded in scholarship alone, but participation in college activities and loyalty to the college are also considered.
