Announce Tests in Egg Production.
Corvallis—November 1 will see the completion of some valuable tests now being made at the Oregon Agricultural college by Professor James Dryden, poultry husbandman, which will prove the effect of crossing Barred Plymouth Rocks with White Leghorns to increase egg production.

By means of the trapnest which Professor Dryden originated some years ago and which is now in use at a number of experiment stations and poultry farms of the country, he has several hundred hens out of the college flock of 2,000 chickens making laying records. While some have had a record of less than a dozen eggs in a year others have laid more than 200 eggs annually.

The District-Attorneyship To the Voters of Wallowa County:

As most of you are aware, I am a candidate for the office of District Attorney for Union and Wallowa Counties. I have been induced to make this race by both Republicans and Democrats, as there is, and should be, no politics in this office, which is so vital to the public welfare.

I practiced law more than seven years in Wallowa county, and when I moved to La Grande some three years ago, I left, I believe, possessing the confidence of the people, and a record upon which I can honestly and consistently ask their suffrages for this office; and those with whom I am not personally or professionally acquainted, I refer to my former neighbors who knew me best for information, regardless of party or creed.

It is my intention, if elected, to conduct this office in an honest, straightforward manner, according to law without favor or vindictiveness, and give, and have my deputy give, to public business, both civil and criminal, all the care and attention bestowed upon any private business, so as to avoid unnecessary expenses or the miscarriage of justice; and I shall highly appreciate a good vote from my home county, and shall regard the same as an expression of personal confidence.

Respectfully Yours,
JNO. S. HODGIN
