

# REV. ZEPHANIAH MEEK, D. D.

## Eminent Methodist Divine Cured of Nerve Trouble by Paine's Celery Compound.

Rev. Zephaniah Meek, D. D., is a household name all over the South. Since 1867 he has owned and edited the "Central Methodist," the leading paper of the Methodist Episcopal Church in the South. He represented his State at the General Conference.

He was one of the Kentucky Commissioners at the Chicago Columbian Exposition. During his ministry in the South he has built and dedicated five churches. He writes from Catlettsburg, Ky., where his home is, as follows:

"I have used several bottles of Paine's celery compound for nervous trouble, resulting from overwork, and with immediate effect, as well as permanent benefit. It is the best nerve tonic that I have ever tried. It has also been used in my family with great benefit."

Tired-out, half-sick men and women need something more than a mere rest. They need a positive, unmistakable nerve food; they must have a reserve of nerve-force to draw from, before their heads will cease to ache and their nerves cease to tremble with neuralgia.

It is estimated that there are over ten million nerve fibers in the body.

So long as these minute tissues are kept fully nourished, one lives in blissful ignorance of any such thing as neuralgia, headaches, or even a nervous system, but let one become "run-down" and the nutrition of these body get low, and every one of these myriad fibers becomes a "live wire" with in the flesh. Headache, neuralgia, rheumatism, and other forms of nervousness and debility result directly from a famished nervous system.

Paine's celery compound is able to correct this faulty condition. It builds up the nervous system and sustains it. The brain at once feels the strengthening effects of the superb nutrition. There are thousands of

men and women today who have been enabled to keep vigorously at work, who must have given up but for Paine's celery compound.

Nervous affections are a warning to busy people.

At the earliest sign of reduced nerve force, inability to sleep, languor, or a gloomy habit of mind, everyone should look immediately to the nutrition of their nervous system and to the purity of their blood. Paine's celery compound will attend to both of these urgent needs more thoroughly and more speedily than anything else in the world. Paine's celery compound is not to be confounded with the common preparations, the sarsaparillas and nervines. Being the discovery of a man of science, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College, it has the support of the best physicians; they prescribe it universally; and the many sick persons made well by its use proves that that support is merited.

To the great majority of business men a vacation, to say nothing of three months of complete inactivity, is out of the question at this season, even when their brains demand a complete rest and their nerves ache and threaten them with prostration. Now, there are hundreds of business men and hard-worked professional men in this city in just this condition. What are they to do? Those who are tired out "run down" and debilitated at this trying season will do well to read some of the straightforward and convincing statements from the men and women who have been cured by Paine's celery compound.

Nervous weakness vanishes before Paine's celery compound as mist before this strong, health giving rays of the sun. Convince yourself of the fact at once, if your health is at all impaired.

### Visits the Lawler Mines.

EDITOR JOURNAL.—Our party have just returned from a visit to the Lawler mines. They have everything running in fine shape and the officials are gentlemen, as they showed us through all the different departments and it was quite a sight for us. We went up the Gatesville route as we had been advised, and found the picture which they have posted in the O. P. coach to be a true type of their road in every respect. As we came out we were shown a route leading north into Minto, which was a prairie road, or trail, compared with the Gates route, and when the Minto road is finished it will be a nice even grade, and a south side hill from Minto to Sawmill hill. The officers at the mine tell us that they favor the Minto route, as they have been able to get their supplies on that road via Leedy's sawmill when other roads were impassible.

We had a fine trip and will go up the O. P. R. B. and up to Mt. Jefferson, if possible.

J. T. WILLIAMS.

Polytechnic.  
The weather put a stop to shop work last week by bursting the water pipes.

This week closes the winter term of school. The spring term begins March 18. The school is steadily increasing in interest. Many new students have come in and many others making arrangements to come next week. The normal department is drawing many who are desirous of becoming teachers. Teachers who take this drill find no difficulty in passing the county examination.

Miss Leola Smith will teach the Parkersville school the coming term beginning March 15.

Miss Myrta Tomlinson has the offer of a school near Turner, but thinks of returning to Iowa soon.

Many students are laid up with the la grip.

Mr. D. L. Dutton was to have begun his school near Silverton last Sunday but la grip said no.

Many eastern people are here looking for homes in this part of the county.

Mr. B. F. Cook has arrived with a number of families on the same mission.

The weather has been rather unfavorable.

The people of Highland are highly gratified over the result of the school election last Monday. Their children are certainly entitled to a fair chance for an education without having to pay extra for it.

The closing exercises of the term will take place tonight at the chapel, Musical and literary talent will prevail.

Wm. S. Jones Wanted.  
John W. Coats, attorney-at-law, in a letter dated at Platte City, Mo., March 7, and addressed to Secretary of State Kincaid, Salem, says:

One Thomas Jones, late of Platte City, Mo., died at this place about five years ago, aged 104 years, and left several hundred dollars for his son, William S. Jones, in his last will. William S. Jones was here about 10 years ago, but returned to the state of Oregon, where he has been residing for many years. He has not been heard from since his return to Oregon, and there has been no one to claim his money. It is still safe and will be paid to him or his children, if he left any, upon proof of his or their identity. All the required legal publications have been made in vain; but as such papers are usually made in papers of local circulation, they were not calculated to reach him or his heirs in Oregon. Thomas Jones was a soldier and pensioner of the war of 1812. If you will kindly give this matter to the press of your state I feel that it will be generously published, and might be the means of helping some worthy and needy citizen of your state materially. Very truly,  
JOHN W. COATS.
