### COUNTY REPUBLICAN TICKET

Representatives,  
DR. J. N. SMITH, of Salem,  
H. L. BARKLEY, of Woodburn,  
E. W. CHAPMAN, of Brooks,  
M'KINLEY MITCHELL, of Gervais,  
DAVID CRAIG, of Macleay.

County Judge,  
GROVE P. TERRELL, of Mehanua.

County Commissioner,  
J. N. DAVIS, of Silverton.

County Clerk,  
L. V. EHLER, of Butteville.

Sheriff,  
F. T. WRIGHTMAN, of Salem.

Recorder,  
F. W. WATERS, of Salem.

Assessor,  
J. W. HOBART, of Garfield.

Surveyor,  
B. B. HERRICK, of Yew Park.

Treasurer,  
JASPER MINTO, of Salem.

School Superintendent,  
GEO. W. JONES, of Jefferson.

Coroner,  
A. M. CLOUGH, of Salem.

For Justice of the Peace Salem Dist.,  
H. A. JOHNSON Jr.

For Constable,  
A. T. WALN.

New flags are to be bought for the Salem schools.

It should be called the Kickeronian—the Portland organ of the bolters.

Isn't it funny that nearly all the wealthy men are "sound money" men.

It is significant that Oregon, the first state to vote in 1896, is for McKinley.

The Pacific coast states will never see prosperity under the single gold standard.

It now looks as if McKinley would be put up and elected on the Ohio platform.

It will be Bill McKinley by acclamation and the people will make it unanimous.

Big Tom Reed's presidential boom is said to have the support at least of little Rhody.

The rate of interest on state, county, and school warrants, should be reduced to 6 per cent.

It is Mr. Dolph and his Portland friends who are doing most of the bolting and kicking this year.

It looks very much as if an Independent bimetallic Mitchell legislative ticket will sweep Linn county.

Up in Washington a young lady who came out of a greenhouse with a bouquet was pursued by a starving cow.

There are now three candidates in the field for mayor of Portland, ex-Gov. Penneyer, ex-Mayor Mason and Solis D. Cohn.

THE JOURNAL loves to accommodate its neighbors, but it will not go to the extent of printing poetry handed in by any lady friends of Fletcher, of the Post.

A wealthy New York widow gives up a fortune of \$1,000,000 to marry an American. The American man is slowly but surely coming to be appreciated.

The referendum is demanded on many important measures, and is being granted by the Republican legislature of New York. New York is quite a state, mind you!

Simon Isaac Rosendale of the New York Sound Currency committee has issued an argument against wampum currency, meaning silver. People would be glad to get a little.

The cable reports say they have the bubonic plague at Hong Kong. No knowing what that is—but they have got it very bad. Nearly as bad as the Portland primaries.

General Harrison gave the minister \$1,000 as a wedding fee. And as the countryman remarked about the high price of the butter he was eating—it was worth it.

Commenting on the Portland primaries the Chief Justice of the Supreme Court said a registration law or the application of the principle of the Australian ballot to the primaries had become a necessity.

The water stock should be wrung out of the Pacific railroads and then they should be run by the government in the interest of the people, instead of a lot of corporation lawyer sharps and Wall street strippers.

There is one reason why the gold men will win. They have the money to hire able speakers and the big newspapers. The people's cause can only plead the mute eloquence of poverty.

With most of the hop growers mortgaged for last year's picking money, and hops selling at two cents a pound, where is the inducement to continue growing more hops? There are enough in the markets now for two year's beer making.

The gold standard crowd will not be consoled. The La Blañch swing they got in the Republican state convention dislocated their jaw. If we don't own the Republic party we can't keep house, say the goldbugs. Well they don't own it, by a long shot, and they might as well wipe their eyes. They don't own the American people and never will.

'The School of Politics.'

Mr. Ernest Hofer, formerly of Iowa but now the editor of the Salem (Oregon) Capital Journal, has just issued through Charles H. Kerr & Co, 56 Fifth Avenue, Chicago, Ill., a neatly printed pamphlet of 75 pages—price 25 cents—"The School of Politics—The American Primary System." Mr. Hofer predicated his book on the sound maxim. "In the perfected 'nominating primary every member of every party should have a direct vote in the choice of every candidate 'whose name appears on the ticket of 'his party.'" He treats the subject freely, but in one italicized sentence he thus correctly portrays the ignominy and results of packed party caucuses and primaries. "The corrupted 'primary is the political crime of the 'century.'" If the source of a party or a government is corrupt, that corruption extends through every branch and detail of that party or government. The object of those who join in packing caucuses and primaries is spoils, and the spoils will be gained as certainly as the packed methods gain the victory and the power to accomplish their purposes.

Mr. Hofer treats the subject under three general phases. "The Primary 'and Spoils Politics. How Primaries 'are Conducted. The Primary As It 'Should be Safeguarded by Law." He has examined the laws regulating primaries in the several states that have attempted legislation on that line, and reaches the conclusion that "the few laws enacted for that purpose so far have been drawn up more 'to protect the managers of political 'machines than to protect the people." He concludes that the only remedy is a demand on the part of the voters for the right to a voice in the government of parties, and also of schools; and that "the instinct of self-preservation against corruption must be 'crystallized into a national primary 'law as carefully safeguarded as the 'general election laws." It is possible that that may be the only permanent remedy, but if the states wait for a national law the remedy will never be gained. Every state should have an honest primary election law, and all states will have as soon as their people realize that honest primaries are the chief source of their own power and protection.—Daily Iowa State Register.

### FREE-TRADE BUSINESS FAILURE.

The Democratic "Restoration" of Business and "Good Times" Sweep the Country.

[Bradstreet's, April 4, 1896.]

The total number of business failures during the past quarter is so much larger than usual—in fact, so much larger than ever before in a corresponding period—as to challenge attention, particularly when it is recalled that these reports exclude failures of those engaged in agricultural pursuits, in any of the professions, in transportation enterprises, or as employees in mercantile or industrial concerns, or of those engaged in personal service.

Business embarrassments reported refer exclusively to those of individuals, firms and corporations engaged in mercantile or industrial or financial enterprises, in which the 'failure' resulted in every instance (except banks) in loss to the creditor; in other words, of those actual liabilities were in excess of actual assets.

For the past sixteen years the number of failures, with assets and liabilities, for the first three months have been as follows:

Year.	No. Failures.	Total Liabilities.
1876	4,512	\$62,513,926
1877	3,812	46,910,443
1878	3,696	49,685,088
1879	3,069	39,424,144
1880	3,207	35,861,749
1881	3,401	44,348,783
1882	3,326	33,814,301
1883	3,569	41,761,696
1884	3,053	34,108,679
1885	3,128	25,591,986
1886	3,302	29,996,416
1887	4,050	41,464,335
1888	3,320	39,047,121
1889	3,189	42,235,535
1890	2,146	29,010,944
1891	1,986	24,167,739

### THE WORST ON RECORD.

The total number of business failures in the United States during the past three months is 4,512, by coincidence exactly 700 more than in the like quarter last year, an increase of almost one-fifth. The only preceding quarter in which the total number of failures was as large as 4000 was in 1885, immediately following the panic of 1884, when the total was 4,050. In no like quarter before or since has the number of failures been as large as in the past three months, although in the first quarter of 1894 there were nearly four thousand business failures reported—3,969—compared with which the increase during the past quarter is about one-ninth.

### OBITUARY.

The following lines were written in memory of Zena, the 14 months old daughter of Mr. and Mrs. Frank Davis, who died April 10, 1896:

We folded her shroud about her,  
Soft folds of snowy white;  
Yearning hearts must live without her,  
She is in the land of light.

On the downy coffin pillow  
We laid the darling little head;  
Laid the precious sleeper softly  
In her strange and lonely bed.

Never more will pain's keen arrows  
Pierce that sweet and tender form.  
She is safe from every evil,  
Safe from ever earthly storm.

Our home is so lonely, the days are so long,  
Since our dear little Zella is gone;  
Yet why do I weep for the dear little dove  
When I know she's safe in the arms of her Savior above.

### REPUBLICAN PLATFORM.

Following is the report in full of the committee on platform, in the Republican state convention of Oregon, which was adopted and is the party platform:

The representatives of the Republicans of the state of Oregon in convention assembled, call attention to the condition of industry throughout the country, as a proof of the necessity of returning to the policy of the Republican party under which there was general prosperity during thirty years.

We reaffirm the principles of the Republican national platform of 1892, and assert that the results that have followed the change decreed by the election of the year have justified our protest against the national policy adopted by the Democratic party.

We believe that the government should have an ample revenue, with a sufficient surplus over ordinary expenditures to provide for coast defenses, for the steady building up of the navy, and for the constant reduction of the public debt. We believe that the present tariff, with its lowered rates and its destructive and dishonest system of undervaluations and discriminations as to localities, should be replaced by one framed on protective principles similar to that of the McKinley bill and arranged to give ample protection to American wages and American industry, and to restore the reciprocity policy of James G. Blaine.

We have always given protection to our shipbuilders. In six years we have neglected to protect our shipowners. We believe the time has come to restore to the policy of Washington and Hamilton, which, by discriminating duties in favor of American bottoms, secured 90 per cent of our carrying trade to American ships, and which, if now restored, would again reserve our shipping and cause American freights to be paid to Americans.

The American people, from tradition and interest, favor bimetallism, and the Republican party demands the use of both gold and silver as standard money with such restrictions and under such provisions to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be equal at all times.

The interest of the producers of the country—their farmers and their workmen—demand that every dollar, paper or coin, issued by the government shall be as good as any other dollar.

Resolved, That we earnestly endorse the proposed amendment to the constitution of the United States, providing for the election of United States senators by popular vote, recently reported from the committee on privileges and elections by Senator Mitchell and now pending consideration in the United States senate.

Resolved, That the application of the Oregon delegation in congress to the president of the United States and now pending before him, praying a modification of his proclamation creating the Cascade forest reserve, is hereby earnestly approved, and we appeal to the president to grant the prayer of our delegation in congress.

We realize the importance and magnitude of the fishing industry on the Columbia river and would recommend that some provisions be made for a state hatchery for artificial propagation, and that the laws regarding the closed season be rigidly enforced.

That we endorse the efforts of our representatives in congress to secure repayment to the settlers of Oregon of the excess of \$1.25 per acre wrongfully collected by the government on lands located in the timber, and to secure unearned Northern Pacific railroad land grant now forfeited.

The construction of the Nicaragua canal is of the highest importance to the American people, both as a measure of national defense and to build up and maintain American commerce. It is moreover of special importance to our Pacific states and we demand its completion as speedily as possible by the government of the United States.

We hereby endorse the action of our senators and representatives in congress in their endeavor to secure grants of pensions to Indian war veterans.

We pledge the Republican party to a rigid economy in the expenditure of public money; to the reduction of excessive salaries; and the abolition of the fee system whenever possible, and of all useless commissions; and believe that no appropriation should be made to any school or charitable institution not under the control of the state; and oppose the incorporation into the general appropriation bill of items for the expenditure of public money not authorized by law.

We demand the enactment of rigid restrictions on foreign immigration, both for protection of our country against illiterate and vicious classes from foreign lands and for protection of our labor and preservation to our own people of the remainder of our national domain.

We commend the policy of the Republican party in relation to internal improvements, and in particular in opening our

The largest piece of GOOD tobacco ever sold for 10 cents

waterways to commerce, and we denounce the illiberality of Democratic party in these important matters.

Respectfully submitted,  
T. E. FELL, Secretary.  
SOL. HIRSCH, Chairman.  
MINORITY REPORT.

Following is the minority report, which was defeated by a vote of 108 to 129:

We, a minority of your committee on platform save and except the section on finance, for which we submit the following as a substitute:

Resolved, That we favor the use of both gold and silver to the extent which they can be maintained in circulation at parity in purchasing and debt paying power; but we are earnestly opposed to the free and unlimited coinage of silver at the ratio of 16 to 1 for the reason that it would destroy such parity, enormously contract the volume of currency by forcing gold out of circulation and immediately place the country on a silver basis.

Believing that the effect of international demonetization of silver can be overcome only by international remonetization of that metal, the Republican party of Oregon most earnestly favors such measures as will accomplish that purpose.
