Call at any time at the college of music of the Willamette university and arrange for lessons. R. A. HERITAGE, Dean of College of Music.

CAMP FIRE LAWN PARTY.—A unique social event occurred last evening at the beautiful rural home of Judge R. S. Bean on East Court street. A score or more of friends were entertained around a camp fire in the grove of oak trees on their extensive lawn. Japanese lanterns were suspended from the trees, which lent a mystic effect reinforced by the bright bonfire. Although unostentatious in every particular, probably no more pleasing lawn party was ever given in Salem. Lively conversation, repartee and story telling amused the circle, and light refreshments were served. Before departing all voted Judge and Mrs. Bean, and their wide-awake boys, charming entertainers.

AT THE WOOLEN MILL.—Work in the different departments of the mill are progressing as rapidly as the preparation of the wool for the different processes of manufacture will allow. Carders have commenced while spinning, weaving and the more intricate machinery of the mill will be placed in operation in the course of ten days or two weeks. It will not be long before the entire force of about 100 hands will be employed and the excellent goods for which the mill is characteristic, will be turned out. A great many of the old hands are resuming work in the mill but owing to the increased number of hands needed to carry on the work of this successful enterprise, a large number of hands are being employed.

YAQUINA CONTRACT.—It is said that the O. C. & E. railroad company will be a prominent factor in the bidding on the contract for the government work, soon to be started under the new project on the bay. Should the company become a successful bidder it will bring about quite a change in affairs on the bay. It will not doubt be the means of influencing them to build on from Yaquina City and make the terminus of their line at Newport. Or it is intimated that they may build a cutoff, leaving the line just below Toledo, going up the Little Beaver across to Newport. This cutoff would take their track away from the edge of the bay along which it runs for nine miles from here to Yaquina.—Albany Herald.

THE MACLEAY MEETING.—The meeting to have been held at Macleay last night for the purpose of raising subscriptions etc for the proposed Valley Motor Railway, failed to materialize. The meeting has been set for next Tuesday evening when a liberal contribution is expected from this community. However, J. S. Bosler has offered it of the number of lots asked for and Mr. Huffman pledged \$500 in labor and material. The Shaw station people will hold a meeting Thursday evening when a liberal contribution towards the road will no doubt be made.

A NEW VENTURE.—J. J. Richardson starts today with a complete stock of goods which he will peddle throughout the country. He has a "prairie schooner" well stocked from John G. Wright's grocery, and will visit all parts of the valley. Country produce will be bought and thus the rural patrons will be accommodated.

MONEY IS POWER.—A person can now go into John G. Wright's Pioneer grocery and by paying cash can get any article in the store practically at their own price. Money talks these days.

THE STATE SEWER.

Work Progressing Nicely.—Completed to Church Street.

Work on the great state sewer is progressing nicely. Excavation was today begun across Winter street. The tiling that is being laid on either side of the main sewer for drainage purposes, has been finished as far as Cottage street.

The immense sewer has been completed to a point beyond Church street, almost to the alley. The trench has been filled up to High street. No more cave-ins have occurred, the only reason to be given therefor is a change of soil. The ground at a depth of fifteen feet at the intersection of Center and High streets and westward to the river, contains much gravel and crumbles away very easily. Between Church and Cottage streets, the trench is not more than one-half as deep as at other points along the route. This is explained by the unusually low condition of the street in that vicinity.

Today there were 22 men digging the ditch, nine brick layers, assisted by ten others in carrying brick and mortar; five men engaged in filling up the trench, besides Foreman Earl Race and Water Carrier Capt. Adams.

Public Hitching Posts.

Recorder Edes was busily engaged nearly the entire forenoon today posting the following notices in different parts of the city: "Any person hitching or tying horses or other animals to shade trees within the city limits will be prosecuted in accordance with section 41, ordinance 203, Ed. N. Edes, city recorder." That section of the city's statutes provides that a fine of not more than \$25 be imposed on the person breaking such ordinance. It certainly appears that a city of the size of Salem should have hitching posts erected in different portions of the city that farmers who are obliged to leave their teams standing, might not be compelled to convert our shade trees into hitching posts. Our beautiful shade trees are a source of much pride to Salemites, yet not only the beauty but also the growth of these trees is greatly impaired by the tying of horses thereto. Since repairs have been made about the court house no provision whatever has been made for hitching posts which proposition should receive the thoughtful consideration of the commissioners.

Police Court.

Three drunks appeared before Recorder Edes this morning who administered the usual dose to such patients—five days in the city jail. Two of the men who had imbibed too much fire water were before Recorder Edes yesterday morning on similar charges, but promising that a repetition of the same performance would not take place they were released, but this morning they did not fare so well. Their names are Dave Hall, Sid Brodie and Wm. Woolen.

The Monmouth State Normal.

The report of the State Normal school at Monmouth shows excellent results for the work of the past year. The normal enrollment was unusually large. Four states and 24 counties of Oregon were represented in the schools. The average age of the students was above 21 years. Of the 361 students graduated from the school during the past fourteen years, 289 are at present engaged in teaching.

ACCIDENT TO THE GYPSY.—When near Eola last evening, on her trip up the river, the Gypsy broke one of her eccentric rods, which delayed her for a few hours. The rod was brought to Salem, where it was welded, and the boat left for Corvallis again this morning. She will return to Salem late this evening or early tomorrow morning and leave for Portland on regular time.

WORK RESUMED.—J. E. Murphy, Salem tile manufacturer, has completed the temporary buildings at his works in North Salem, and work was resumed today turning out the drain pipes which are so much needed in Oregon. Mr. Murphy sustained a severe loss in this fire, but he is a man of energy and pluck, and will after a three months run rebuild his works in better shape than ever.

A THRESHING MACHINE.—A new threshing machine arrived in the city, on the mid-night freight last night for Brody and Hartman. It will not be long now until we hear the musical hum of the machines throughout the Willamette valley. Threshing will probably commence in the Waldo hills the latter part of this week.

MARION COUNTY'S COURT.

Special Session Held to Consider Matters of Importance.

The county court met this morning at 10 o'clock, to consider the report of experts, W. I. Staley and Scott Bezzorth, on the books of Jap Minto, the late county treasurer. Before the court took action upon the same, Mr. Minto's friends requested the privilege of going over the report to verify the same. This courtesy was granted by the court, and it is probable that the report will not come up for consideration before the next regular session of the court, the first Wednesday in August. Orin Barker and D. C. Sherman have been selected on the part of Mr. Minto, and the report, when taken up by the court, will be thoroughly understood by all concerned. John McCune of Aumsville, was appointed Canada thistle commissioner for road districts No. 28 and 49.

It was ordered that the county judge audit the bills for salaries of sheriff, clerk and recorder, on the first day of each month.

Mrs. Brown, a soldier's widow, was granted \$6 assistance.

The court this afternoon went out to inspect the covered bridge, near the Dick Swartz place.

A sumptuous dinner was served on the lawn, where many reminiscences were discussed. Those present were: Mr. and Mrs. L. L. Leith, Mr. and Mrs. D. W. Matthews, Mr. and Mrs. H. H.
