

THE OLD RELIABLE

**Absolutely Pure
THERE IS NO SUBSTITUTE**

**Concerning
Revolutions**

Washington, Nov. 10.—The state department is informed that the American Venezuelan commission has awarded \$5,000 on the Rudloff claim. Minister Powell, of San Domingo, cables the state department, under date of November 6th, that Marcoris was commanded by the revolutionist gunboat, and partially destroyed. American interests at Marcoris are considerable. The cable companies operating between America and Colombia have informed the department that the Colombian government has declared a censorship on all messages from Buena Ventura, the terminal to the interior. It is not believed, however, the censorship will apply to messages between the state department and Minister Beaupre, at Bogota. A joint committee of the house and senate, appointed to inform the President that congress is in session, visited the White House at 10:30, and were told the message would be sent to congress today.

**Visits the
Navy Yard**

Norfolk, Va., Nov. 10.—Dewey arrived today, and received an ovation at the navy yard. He inspected the Olympia, thus celebrating the anniversary of his taking command of the Asiatic squadron. The Maine was sighted off the coast today, steaming rapidly southward.

Miners Are All Out.

Denver, Nov. 10.—The miners' strike reports show but a few hundred men working in Colorado, and 75 per cent of the men are out in New Mexico. In Wyoming and Utah the strike is not yet effective. The Colorado Fuel Company has given notice of ejection to its tenants of the company houses, unless they return to work by Friday.

Shot by a Coward.

Topeka, Kan., Nov. 10.—William Smale, a farmer, was shot through a window, while at supper with his family last night, and instantly killed. His assassin is unknown.

**Morgan Deposed, and Hanna
Will Be Appointed Chair-
man of the Isthmian
Canal Committee**

Washington, Nov. 10.—Today, for the first time since President Roosevelt has been President, visitors were admitted to a cabinet meeting. Hanna and Aldrich entered, by appointment, and, as Hanna will probably be chairman of the committee on inter-oceanic canals, and Aldrich chairman of the finance committee, it is supposed they were present to discuss the Panama situation. The caucus of Republican senators today will depose Morgan from the chairmanship of inter-oceanic canals, as it is determined the committee is too important to be left in the control of the minority. Republicans were much embarrassed last session by the fact that Morgan was chairman, and at the same time an ardent opponent of the Panama canal. It is the generally accepted belief that Hanna will succeed him.

Hanna said, when he left the cabinet, that Panama was discussed, but asserted there were no serious questions regarding the choice of routes, everybody favoring Panama. There will be no trouble in arranging a new treaty, as the republic of Panama strongly favors the building of the canal. Hanna was accompanied to the White House by Attorney Curtis, one of the representatives of the Panama Canal Company, but the latter was not admitted to the cabinet meeting.

The house met at noon, with but few members absent. The public interest almost equaled that of yesterday, the galleries being filled. The swearing of Chaas. Thompson, of Alabama, was the first business. Tawney reported that the President would immediately transmit his message, and Assistant Secretary Barnes, at 12:15 presented it, and the reading began forthwith.

In striking contrast to yesterday, there were no flowers, and few spectators, although there was a full attendance. Senator Barnes delivered the message, which was read by the secretary of the senate, Bennett. The reciprocity treaty referred to accompanied it, which was referred to the committee on foreign relations. The senate adjourned at 12:16.

Criticise the President.

Boston, Nov. 10.—In the Federation of Labor convention today, Duncan read a report on strikes, also reported conversations and correspondence of President Roosevelt and Gompers in the Miller case. Roosevelt's attitude was severely criticised.

The Linen King.

Brace up! Be a king of something, or a Napoleon. There is in New York a big, blonde, broad-shouldered, open-hearted Englishman, who drifted here eight years ago, and worked for \$3 a week. His salary today is about \$12,000 a year, and he is known throughout the length and breadth of the land as the "linen king." He got into the linen department of a great house, and made himself an authority on linens. The house soon found him indispensable. John Cooper is his name. It is true that he knows a few things besides linen, as countless acquaintances will attest, because Cooper has eyes that see, ears that hear, a nose that can smell, and a tongue that can be still. As for the other sense—that of touch—he feels his way guardedly, as his hands are always in his pockets to relieve a brother's distress. There must be a thread king, a needle king, a button king, etc. The idea is—be a king, and the kingdom is some like.—New York Press.

Judge Judah's Grievance.

J. C. Smith, R. L. Smith and Fred Jensen were arrested last night for keeping late hours. The men were placed in jail, and will have a hearing this evening, when the night officers appear in court to testify. The three men held in the jail as vagrants yesterday were discharged last evening, upon the showing made that they had work. They left town at once for their places of employment.

Payday Today.

The Citizens' Light & Traction Company pay off on the 10th of each month, and disbursed about \$2000 to its employees today.

Supa Springer has started a force of ten men putting in the lighting line to the reform school.
