London, Jan. 12.—The Japanese ambassador this afternoon made the following statement: "Russia, in her last reply suggests the neutralization of a part of Korea, while recognizing Japanese preponderance and rights in that country. Japan is unable to accept this, and is now preparing a reply setting out her suggestions. If Japan secures what she wants in Korea, negotiations regarding Manchuria will take a more friendly tone, and the crisis will be considered passed. At present it is impossible to say if war will or will not result."

The correspondent says that the dispatch has deeply impressed the Chinese, who now believe war to be inevitable. He adds that notes looking to the ratification of the treaty between China and Japan were exchanged yesterday afternoon.

Washington, Jan. 12.—The following bulletin was posted at the state department today: The Russian ambassador called yesterday upon the secretary of state and conveyed the assurance of his government that Russia will place no obstacles in the way of the full enjoyment by the powers having treaties with China of all their rights and privileges guaranteed by such treaties in Manchuria.

He said Barry's successor told him to prevent standing in the aisles, but he had no order to prevent the sale of standing room, or overcrowding. He further admitted that he didn't know what the laws regarding building inspections called for, as he had never read the instructions. He admitted he didn't know who was in charge of the theatre inspection; never made any report of theatres inspected by him. To his knowledge no one had ever been assigned to inspect theatres, but went whenever they pleased. He believed the theatre managers had a right to refuse the inspector admission to the house, and didn't believe the inspectors had the right of forcible entry for inspection. When asked how he gained entrance, he said Barry gave him the authority.

Victoria, B. C., Jan. 12.—Several prominent and well-known Japanese merchants of Victoria have wound up their affairs here, transmitted their capital to Yokohama and other Japanese centers, through the local banks, and are waiting to return to Japan on the next Empress. Inquiry as to the cause invariably fails to provoke anything more than polite smiles and doubtfully vague and evasive replies. It is learned from another source, however, that they confidently expect war in the far East, and are going home to render what assistance they can to their country.

England Ready for Any Emergency.
London, Jan. 12.—It is learned that England realizes the present emergency, and is fully prepared for any event. The large war preparations for concluding the South African struggle were fully maintained in the naval department. The necessity for placing a check on Russian aggrandizement grows more apparent each day. In the event of war Germany and England will be allies, and France
