NEW YORK SUBWAY OPENED

Great Rapid Transit Line Under City's Streets

New York, Oct. 27.—The Rapid Transit railway, the subway, as it is popularly known, and the most colossal undertaking of its kind in the world's history, was formally opened today with imposing ceremonies. The exercises took place under the auspices of the Interborough company and the board of aldermen. In City Hall park, where the great downtown terminal is located, and where the first spadeful of earth was turned, the principal ceremonies of the day took place shortly before noon. The park and city hall were lavishly decorated. Bishop Potter opened the ceremonies with prayer, and was followed by an address by Alexander E. Orr, president of the Rapid Transit commission, who turned the subway over to the city. Mayor McClellan accepted the trust, and then turned the road over to August Belmont, president of the Interborough company, who also made a brief address. Archbishop Farley closed the ceremonies.

At 1 o'clock the first train was started over the road, operated by Mayor McClellan in person. Bands of music were stationed at all the principal stops along the route. Included among the passengers on the first train were the city officials, officials of the Interborough company, a large party of distinguished engineers and other invited guests. Promptly at midnight the road will be opened to the general public. That part of the road that will be operated for the present includes the whole of the main line from City Hall park to the Harlem river to traffic within a month or so, and also the east side branch to the Bronx.

The great subway today consists of 21 miles of railroad under the city's teeming streets. The actual work of construction has taken just four years and the cost has exceeded \$50,000,000. When the entire system is complete it will enable one to travel from the limits of Brooklyn to the northernmost end of Manhattan entirely underground.

A dazzling array of facts and figures tell the story of the building of the mammoth underground road. For instance, more than 3,000,000 cubic yards of dirt and rock were blasted and dug from the streets of the crowded city. To tear away the rock, 900,000 pounds of dynamite were used. Eleven thousand men were employed in the work, and of this number several hundred lost their lives through accident, premature explosions, cave-ins and falling rock.

It is estimated that the road will carry 115,000,000 passengers a year. The fare is 5 cents. When the extension to Brooklyn, under the East river, has been completed, it is estimated that the road will carry 200,000,000 passengers a year.

Express trains will run through the subway at the rate of a mile a minute for the benefit of the long hauls from the Bronx to the busiest sections of the city below Fourteenth street. Local trains will stop at all of the underground stations, every half dozen blocks along the route. The tunnel is ventilated by a system of electric fans, and illuminated the entire route by incandescent lights.

A trip through the great tunnel is all that is necessary to convince one of its entire security. White enameled bricks wall up the sides to a bricked arch overhead. Everything else is of stone and steel and heavy plate glass at the stations to let the light in from the street overhead. It would seem impossible for a disaster to occur where everything is as new and strong and perfect, apparently, as it is within the power of man to contrive. The pneumatic block system is pronounced by experts to be the most wonderful thing of its kind in the world, and it is calculated to make collisions impossible.

The cars have steel bottoms, copper sheathed sides, and there is very little wood in their construction. The lighting system is entirely separate from the power plant that will move the trains by means of the third rail.

The route of the main line is up Fourth avenue to Forty-second street, then up Broadway until One Hundred and Fourth street is reached. There it branches into two sections. The first continues straight out Broadway to Kingsbridge, a distance of more than 14 miles from Battery park. The second section runs east, cutting off a solid rock corner of General park, then north through Lenox avenue and on to the borough of the Bronx.

Headache

Can be Cured with Dr. Miles' Anti- Pain Pills.

If your nerves are subject to disturbances, such as Headaches, Neuralgia, Backache, Rheumatism, Menstrual Pains, Sleeplessness, etc., their jarring and jangling can be quickly ended with a Dr. Miles' Anti-Pain Pill.

Dr. Miles' Anti-Pain Pills are pleasant little pink tablets, which do not act on the bowels, nor do they have any disagreeable weakening or habit-forming effect on the system.

Weak, Nervous People.

We have received letters from all parts of the U. S. highly recommending Dr. Gunn's Blood & Nerve Tonic, until the faith we had in the remedy has been fully sustained. We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been upheld in our belief we want to impart to others our confidence. Nervous and unsteady people, weak, fleshless people, pimply, pale, or sallow people, are all victims of weak, watery blood. Make new, rich blood, to be forced through the system by the way of the arteries, and disease cannot remain. This Tonic cures disease by giving you strength to resist it. All druggists sell it for 75c per box, or 3 boxes for \$2. The tablets are to take after each meal. They turn the food you eat into rich red blood. Persons who take this Tonic gain in good solid flesh from 1 to 3 lbs. per week.

For sale by Dr. C. S. Stone, druggist.

War Makes Carpets Dearer.

New York, Oct. 27.—An advance in the price of carpets is expected in a few days as a direct result of the Russo-Japanese war. The war has forced the price of carpet wools so high that the manufacturers have been making goods at a loss for some time. Russia and China are the two great sources of supply for carpet wools, both countries have been denuded practically of their supply. Russia has taken her own wool for clothing her soldiers, and Japan has bought up all the available Chinese supply. What is left has advanced in price until it is almost on a level with the fine clothing wools, and in addition to this the increased valuation has put it into a class paying much higher duty.

Lucas County.

State of Ohio, City of Toledo, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Hereafter this store will have a special cut price sale on some article every Saturday. Watch for it.

Remember,---25c Broom for 10c.

ECONOMY STORE,

—NEXT TO CAPITAL NATIONAL BANK.—

When Your Cold Catches You Just There

There
is No
Time
to
Wait.

It is not a "little thing." It's a deadly thing. It will not "get well by itself" if you let it alone. Whiskey and quinine and such things brace you up for the time, but they don't cure you.

Ask any intelligent doctor why you catch cold so easily. He will say, "Because you are a bit run down." He means that the force which nature placed in your body to keep out disease germs—the resistive force—is weakened. The door is open a little way toward disease.

There is not a gravestone in any cemetery in the world caused by consumption or pneumonia or any lung trouble whatever, which did not start with what you call "Nothing but a cold."

A cold should not be beaten back or dragged over—it should be cured, and the general health should be built up.

ACKER'S ENGLISH REMEDY

should be taken at the first symptoms of cold. It is a tonic for the whole body, a specific for sudden colds, coughs or sore throats. It doesn't matter where the cold is or how it got there, we know that Acker's English Remedy will reach it and cure it. It is sold on a positive guarantee.

NO CURE NO PAY. If you have a cold—no matter how slight—it means something. Take Acker's English Remedy at once. Keep it in the house. If it does not relieve you almost instantly, we will refund you the price paid.

"ACKER'S ENGLISH REMEDY saved my life. A cough, slight at first, grew constantly worse and I finally had to give up my work in the Knife Factory at Walden. I had frequent bleeding spells. Was examined by local doctors, prominent physicians in New York and at a Medical College. They all pronounced my case hopeless. I began using Acker's ENGLISH REMEDY and a few bottles cured me. I am today a perfectly well man." (Signed) A. H. SIMPSON, Walden, N. Y.

Acker's English Remedy is sold on a positive guarantee that the purchase money will be refunded in case of failure. 25c., 50c., and \$1.00 per bottle.

SOLD AND RECOMMENDED BY DAN'L FRY, DRUGGIST, SALEM, OREGON.

Meets in Springfield.

Springfield, Ill., Oct. 27.—The Central Illinois Homeopathic Medical Society held its twenty-second annual meeting in Springfield today, the sessions being held in the supreme court

room of the state capitol. The meeting was devoted entirely to the bureau of medicine, of which Dr. W. E. Neuberger, of Bloomington, is chairman. The treatment of tuberculosis was one of the principal matters discussed.

To St. Louis.

The Southern Pacific have made additional sale dates for the sale of world's fair tickets, as follows: October 27th, 28th and 29th.

W. E. COMAN.
