

# Crawford Shoes

The bashful Standish doth not dare  
To ask a maid his lot to share.  
In fight he fears no foe nor hurt  
Yet trembles when he sees a skirt.  
So dapper Alden, by his wiles,  
Presents the loud ha-ha to Myles.  
For girls must ever choose a man  
Whose dress is close to fashion's plan.  
Poor Standish groans,  
"My girl I lose  
Because I don't wear  
Crawford Shoes."

**Smiles From the Typewriter.**  
Holding up a train isn't as bad as holding up a whole state.

Salem sports have succeeded in bagging their trousers this week, if nothing else.

The light rains have put the Salem streets in the usual condition. Heavier rains will improve them. Problem: Would it not pay every business man to have nice clean streets summer and winter—when the millennium comes there will be no mud in winter and no dust in summer. But when will it strike Salem? Not until Salem strikes the millennium. We have to meet heaven at least half way, or we will never get there.

Plant flowers for next year. Let us make Salem the flower city. We can have flowers by the wagon load from February 1st to December 1st. Plant bulbs for the next three months. Plant rose and vine and shrub cuttings now. Plant, plant, plant. We remember a dear mother who always had an abundance in the kitchen garden for the family table, because she made a rule to sow seed or stick some young plant in the ground every day of the gardening time.

The public schools this year are saving on ink. Many a child will go without being able to learn his tasks or do his lessons for want of a few drops of ink. It seems poor economy to cut off supplies of paper, chalk, ink or pens, or anything that would enable a child to learn anything. The day of the free school supplies and free text-books is not far away. Our petty economies will be brushed away to meet the demands of the common people for a decent education.

The time has come to put up that shed for the cow, if you have no barn.

## WE MAKE LOANS

on approved security whenever conditions warrant it. Preference, of course, being given to our regular depositors.

Perhaps we are a little exacting in the selection of security. But our plan of loaning money is advantageous to every good borrower.

## Salem State Bank

E. W. HAZARD, Cashier

and give her protection from the beating winds and rains. The family cow should not be turned out twenty-four hours in all kinds of storms. It will pay to make her comfortable. Give her a dollar blanket at night. A dry place to stand in when the rains come down and a dry, clean place to lie down at night. Do not pretend to be a Christian and try to get into the pearly gates on a certificate of neglect and cruelty to animals.

With the advent of the rainy season come the women's parties. With muddy streets and crosswalks comes the time for gadding about in party gowns. But it makes business for the hawks, and still it does not seem possible for a half dozen hawks to handle some of the crushes of two to four hundred ladies at an afternoon reception. What will the fair creatures do? Walk or give smaller parties? Parties make business for the florist, the caterer, the dressmaker and the dry goods man. Then they all like to read about them in the paper afterwards, and that makes business for the newspapers. Parties make our little world go round, but back of it all they are a terrible waste of time and effort. But is not that the way of mortal man?

## X-RAYS

Tacoma ought to grow, it was well irrigated Monday.

The Telegram built another railroad down Coos Bay way last night.

With the big maple trees, it is sure enough the sere and yellow leaf.

Only ten days more of the fair, and it is plenty, for everybody is getting tired of it.

Harriman will start home on the 13th. While away Jim Hill took a look over his territory.

There is still more room on the map of Oregon for a few more railroads, if they are not too long.

Young ladies can go to the play Saturday night without any escort. The company provides chaperones for all.

The harmony at that Portland meeting may not all be of the Beethoven variety. It may develop some ragtime, with the rags all chewed, too.

Director-General Goode's addresses of welcome are getting somewhat frayed at the edges, and, like Rockefeller's money, are slightly tainted.

## TAMMANY'S TICKET

New York, Oct. 5.—When the Tammany city conventions meet in Carnegie hall tonight it will be to ratify the ticket already framed by Leader Charles F. Murphy and his lieutenants of the Fourteenth street "Wigwag." Though the powers that be have made no definite announcement of their slate the ticket will in all probability be made up as follows: For mayor, Geo. B. McClellan; for controller, Herman A. Metz, of Brooklyn; for president of the board of aldermen, Francis Burton Harrison.

There has never been any question about the renomination of Mayor McClellan. Controller Edward M. Grout has been talked of for another term, but it is believed that Mr. Metz, who has the indorsement of the McClellan faction of Brooklyn will prove stronger in the running. No one has been seriously mentioned for the presidency of the board of aldermen excepting Francis Burton Harrison. Mr. Harrison is wealthy, a good campaigner, has served a term in congress as a result of a victory in a strongly Republican district, and made a creditable run for lieutenant-governor on the Democratic ticket last year.

## BONDING COMPANY WON'T PAY.

Refuses to Make Reparation Where Officer Whom It Had Bonded Defaults.

Chicago, Oct. 5.—A dispatch to the Tribune from Sigourney, Ia., says: Presiding Judge Scott, of the sixth judicial district, yesterday ordered the clerk of the court to receive bonds offered by an foreign fidelity bonding company. The order cites a case in another county. When a defaulter's bond was forfeited, it was discovered that an Eastern bond company, the surety, refused to make reparation, having no property or collateral whatsoever in this state.

Massfield is subject to a longshoreman's strike.

## Dr. Stone's Drug Store

does a strictly cash business, owes no one, and no one owes it; carries large stock; its shelves, counters and show-cases are loaded with drugs, medicines, notions, toilet articles, wines and liquors of all kinds for medical purposes. Dr. Stone is a regular graduate in medicine and has had many years of experience in the practice. Consultations are free. Prescriptions are free, and only regular prices for medicine. Dr. Stone can be found at his drug store, Salem, Oregon, from 8 in the morning until 9 at night.

## RIVER OUT OF BANKS

Heavy Rains in Washington Make a Mississippi of the Skagit

Bellingham, Wash., Oct. 5.—A special to the Herald from Sedro-Woolley says: The warm chinook winds prevailing for the past few hours have converted the Skagit river into a raging torrent. All tributary streams up the valley have left their banks, and give every indication of causing the worst freshet that the Skagit country has seen since 1898.

If the present warm wind continues 48 hours, the valley will witness the worst flood known in its history. Reports come from the hills that terrific snow storms have been raging there.

Yesterday the river rose 12 inches an hour. Log booms have broken away causing thousands of dollars damage. Tributary streams, usually only a few feet wide, now measure several hundred feet. Mill dams have been washed out. Vast tracts of country protected by dykes near the mouth of the river are in danger, as the floods descend toward the sea.

## ANOTHER FOREST RESERVE

President Establishes Million Acre Reservation in California

Washington, D. C., Oct. 5.—The President has issued a proclamation enlarging the Lake Tahoe forest reserve to nearly a million acres, including the watersheds on the South, Middle and North forks of the American river, and both the Tahoe and Truckee basins, extending into Nevada. The mining interests will be greatly furthered by thus furnishing a permanent supply of timber. Five more important watersheds in Northern California will be placed under government protection by the establishment of the Shasta reserve, including tracts in Shasta, Siskiyou and Trinity counties, aggregating over a million acres.

## Will Change Its Motive Power.

New York, Oct. 5.—The New York, New Haven and Hartford railroad is making preparations for changing the motive power on some or all of its lines from steam to electricity. An order for 25 electric locomotives has been placed with the Westinghouse Electric and Machine Company by the railroad company. These locomotives will be driven by an alternating current, single phase, which is said to be the most economical application of electrical power yet made. Each locomotive is to weigh 75 tons, and is to be equipped with four motors, each of 400 horse power, making a total of 1,600 horse power for each locomotive. This is about 800 horse power greater than that of steam locomotives in present use.

The motors will be able to maintain a speed of 26 miles an hour in local service, reaching a maximum speed of 45 miles an hour between stations, and hauling 200 tons. In express service a speed of 60 to 70 miles an hour can be maintained with a train weighing 250 tons. For heavier loads two or more locomotives can be coupled together, and operated from the front cab by one engineer.

## Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of the grave. He says: "This great specific completely cured me and saved my life." Since then, I have used it for over ten years and consider it a marvelous throat and lung cure." Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventive of Pneumonia. Guaranteed, 50c and \$1.00 bottles at J. C. Perry's drug store. Trial bottle free.

## Giving Away Dollars.

On Saturday, October 7th the Daily Journal will have a Great Special Sale and sell subscriptions to the Daily Journal at \$3, cash in advance, for one year by mail, or one year by carrier for \$5. Better take advantage of this reduction. Read the big display ad.

## CHILDREN BURNED TO DEATH

Three Dead, Two Fatally Burned and Nine Seriously Injured

New York, Oct. 5.—This morning three children, girls of 6, 10 and 8 years, were burned to death in a fire in a row of houses, and the father, Charles Donnelly, and the mother, were probably fatally burned.

Nine were seriously injured. Six families were saved by Firemen Tease and Nugent. Tease saw the flames break from the building while standing, off duty, on the corner. He turned in an alarm, and joined his companion, who had in the meantime arrived, and found the doors locked. They secured a ladder and entered through the windows, and found the Donnelly family unconscious. They carried them out and aroused the others, most of whom had to be carried to safety.

## SOLDIERS TO MANILA

San Francisco, Oct. 5.—The transport Thomas, which has recently been overhauled, sailed at noon for Honolulu, Guam, and Manila. She carries the Thirteenth infantry, the enlisted men of Company E, signal corps and many officers and cabin passengers.

## Portland Poultry Show.

Portland, Ore., Oct. 5.—The first poultry exhibition representative of the entire Pacific Northwest opened today in connection with the Lewis and Clark Exposition, and will be continued until the 12th inst. Over 3000 entries of high class chickens, ducks, turkeys, geese and pigeons are on view, the display of chickens and ducks being especially fine. The exhibitors represent a score or more states and various parts of Canada. Over \$50,000 in money prizes and trophies has been offered by the management.

The judges of the exhibition are Theodore Hewes, of Indianapolis, Geo. D. Holden, of Owatonna, Minn., W. W. Browning, of Ogden, Utah, C. G. Hines, of Alameda, Cal., E. J. Ladd, of Portland, C. H. Hallock, of St. Louis, Thomas Wilkinson, of Nansaimo, B. C., and H. H. Collier, of Tacoma, Wash.

## City Will Lose Playground.

Pittsburg, Pa., Oct. 5.—There is serious trouble between Henry Phipps, the steel magnate, and the tax officials of Allegheny and the result will undoubtedly be that the city will lose the fine playground which Mr. Phipps has had fitted up at his own expense upon property valued at \$1,000,000. When Mr. Phipps turned over the playground to the city he did not deed the property, but informed the officials that it was to be used for its present purpose as long as the city wanted it. The property was not assessed by the county, but this year the Allegheny city officials assessed it and sent a tax bill amounting to \$2,155.78 to Mr. Phipps. When he refused the property was advertised to be sold for taxes. Then Mr. Phipps paid the taxes, but ordered the playground closed.

## Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain and suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." J. C. Perry, druggist, guarantees them at 50c.

## Buying Pianos in Large Quantities

Its Effect Upon Price

The wholesaler has an advantage over the retailer, simply because he is able to buy in larger quantities. The retailer must buy from him, and then sell to the public.

Suppose you were the retailer. You would save his profit. Eilers Piano House makes you a retailer when you buy a piano or organ. How?

Because we buy for the largest and busiest piano houses on the Pacific coast—one in Portland, one in San Francisco, one in Oakland and one in San Jose, Cal.; Spokane, Seattle and Walla Walla, Wash.; Boise and Lewiston, Ida.; Salem, Astoria Portland and Eugene, Oregon.

We can afford to sell you a piano just about the same amount that an ordinary dealer himself must pay the factory for it.

For example, say the retail value of an instrument was \$350. The ordinary retailer would sell you that instrument for \$390, and boldly advertise that you get the benefit of a reduction of \$60. That piano cost him nearly \$250. If you went into the retail business as a dealer it would cost you about that amount.

Now we sell that piano to you as wholesaler at \$195.

This is where your benefit comes when you buy a piano from us.

The fact that we practically sell you to explain the whole problem of price.

Of course, we reduce shipping expenses by dealing in large quantities. We don't even ship in boxes. Our special cars come direct from the factory to our large wholesale warehouse at the corner of 13th and Northrup streets, Portland. The pianos are shipped in our patent harness device, and come in perfect condition. We save the freight by at least \$125 on each carload of freight alone.

We have not only solved the problem of shipping, but others as well, so you get the benefit of every dollar saved.

These things show why we do the largest business of any piano house in the United States—why we are constantly increasing the volume of our business.

In the matter of quality of goods we select the finest instruments that can be bought. Today we carry the leading pianos manufactured in the world—the celebrated Chickering, of Boston; the beautiful Weber, of New York.

In addition to these we have the E. Cliton, Lester, Hobart M. Cable, Geo. Orchestral, Story & Clark, Haberer, Schumann, Schuler, etc., etc. etc. etc. makes in all, giving the purchaser not only the largest stock to select from but more makes than are to be found in any other piano house in the United States.

Lowest prices, easiest terms and best instruments are inducements that we offer you.

Are they not worth investigation? The Pianola, the most perfect player made, is sold exclusively by us.

EILERS PIANO HOUSE, Room 7, McCornack building, Clark W. Simon, manager. Tuning and repairing a specialty.

## Packer Get More Time.

Chicago, Oct. 5.—Because they were not ready to submit a demurrer to indictments to Judge Humphrey, attorneys for the packers this morning applied for and received more time. They promised to be ready tomorrow. It is expected that several days will be consumed in arguments, and the decision will probably not be given this week.
