Albuquerque, N. M., Nov. 13.—A peculiar accident occurred to a party of Santo Domingo Indians near the enchanted Mesa of Acema. They had been hunting, and at night stacked their arms like soldiers, and went to sleep. During the night a gust of wind blew down the guns and discharged the loaded weapons into the sleeping Indians. A large number of prominent men have been invited to the function and it will be one of the most interesting events in which Prince Louis will take part. It is quite interesting in that connection that the New York chamber of commerce obtained its charter from George III.

The other event of the day will be the great dinner of the blue jackets at Coney Island. Twelve hundred American sailors will entertain an equal number of British sailors, and Prince Louis of Battenberg, Admiral Evans and several hundred officers of the American and British ships will visit the men while they are at dinner. The American sailors, who pay for the dinner, have taken good care to supply a sufficient supply of liquid refreshments to put their guests in the very best of humor. The average allowance per man is said to be fifteen glasses.

Twenty-first National Horse Show.
New York, Nov. 13.—This is the opening day of the twenty-first National Horse Show at Madison Square Garden, an event which annually attracts thousands of lovers of fine horses to this city. From year to year the National Horse Shows have gained in professional as well as social importance and now the New York horse show is probably one of the most important functions in which America's aristocracy of wealth takes part. Recognizing the steadily increasing importance of the event, the managers of the horse show have constantly added to the number of classes and also to the list and size of the prizes, until now both have reached gigantic proportions.

From sixty or seventy the number of classes to be judged was increased from year to year, until it has reached 137 this year. Besides the classes which were exhibited in former years there are several special classes, which will add considerable interest to the display. The total of the prizes offered aggregates \$37,000, not including the famous \$500 Waldorf-Astoria challenge cup for the best gig horse and several other prizes of a similar kind. The entries for the Waldorf-Astoria cup must be driven by their owners and dealers and professional men are barred. This cup must be won three times before it becomes the undisputed property of the winner. This is probably the most eagerly sought for trophy offered at the horse show. Another valuable cup is that offered by the American Coaching Club for the best road team, four-in-hand, to be shown to a coach driven by the owner who, as coachman, must be approved by the committee. This cup must be won twice by the same owner before it becomes his property. Then there is the hunter's cup, offered
