

The Daily Astorian.

ASTORIA, OREGON:

SUNDAY, NOVEMBER 4, 1888.

WELL, which way am your musket a pintin' to-day?

INGERSOLL and Ingalls kept very quiet during the campaign.

In all the doubtful states the registration is unprecedented, indicating an extraordinary heavy vote.

In 1856 John Dudley of Minneapolis bought a tract of land near that city for \$3,200. A few days ago he sold it for \$200,000.

PRESIDENT Carnot's speeches as he goes through France are said by the French newspapers to be summed up in the words: "You are fine fellows, I'm a fine fellow, and we are all fine fellows. The president, consequently, is eminently popular."

The greatest national debt among the nations of the globe is borne by France. It is about \$6,250,000,000. Russia comes next, with about \$3,600,000,000; then England, with \$2,225,000,000; Spain, with \$1,297,500,000; Prussia, with \$1,000,000,000.

The total emigration from the United Kingdom for the nine months ended September 30th was 336,042, against 325,765 in 1887. The destination of the emigrants was: United States, 251,306; British North America, 45,593; Australasia, 22,994; and all other places, 16,089.

JOE HOWARD, a New York "journalist," got a well deserved brothering last Friday from the brother of a lady whom he had maligned. Howard is the man who forged a proclamation in 1864, and signed Abraham Lincoln's name to it, calling for 300,000 men. He was sent to Fort Lafayette. He grows worse as he grows older.

CAUGHT ON THE FLY.

Orders for Christmas trees are already being received in Maine.

Julia Beck, a Kansas City girl, killed herself because some one had told her she "was too homely to live."

There were 4,500,000 bushels of wheat, intended for export, stored at New York last week awaiting a fall in price.

An election will be held in "No Man's Land" next month to provide for organization as a Territory, with courts and laws.

Mrs. Alex Young apparently died at Brookings, D. T. As the coffin was about to be closed she revived and is expected to recover.

The amount of lumber that will be scaled and sawed before the close of the season by the Minneapolis mills is estimated at \$25,000,000 feet.

Speculator Corwith of Chicago found lead a heavy thing to hold, and has accordingly failed for a fortune. Little tumps of lead kill in peace as well as in war time.

The Chesapeake and Ohio has given orders to double its freight equipment, proposing to build up a great export business at Newport News by shading export rates.

Mortgages to the amount of \$30,000 per mile have been filed for the building of a railroad from Sioux City to Salt Lake. The Manhattan Trust company of New York is the trustee.

Jay Gould and the Union Pacific people have revised the Duluth, Huron and Denver scheme, and will build the road from Duluth southwest to tap the Union Pacific at North Platte.

The passenger trains on the Rock Island and Santa Fe run races from Abilene to Salina, a distance of twenty miles. The tracks are parallel with each other, and the races are novel and exciting.

Chief John of the Sioux says that eastern slaughterers have swept the Indian hunting-grounds bare, and that there is no hope for them unless they learn the ways of the whites and intermarry with them.

The Atchison, Topeka and Santa Fe company has added another state to the list of ten states and territories which its lines already penetrate by the completion of a branch to Superior, in Nebraska, a few miles north of the Kansas border.

A report is circulated that the Northern Pacific had contracted for the construction of eight new vestibled passenger trains, which were to be constructed in March and put on the road as through trains between Chicago and the Pacific coast, running over the Wisconsin Central Road.

The Scotch population in North Carolina, which in a great measure consists of the descendants of those who left their country to share the fortunes of the ill-fated House of Stuart, has become so numerous that a weekly paper—the Scotch Chief—has been started, devoted to Scotch interests.

The Alabama legislature is to be petitioned at its next session to buy the town of Decatur and wipe it out of existence, in order to prevent future outbreaks of yellow fever. It is claimed that most of the epidemics originate there, and that it will be an act of economy and mercy to remove it.

A horse-thief, arrested at Mexico, Mo., boasts that he has cut his way out of seventeen jails.

New York employing bakers have voted not to reduce the size of loaves or increase the price of bread.

Steps have been taken to provide special voting booths for the women in the coming municipal election at Boston.

It is estimated that a third of the population and voters of Minnesota are Scandinavians, principally Swedes and Norwegians.

Hanging is evidently going out of fashion in Canada. There have been fourteen murders since the year opened and only one execution.

The season of the year has arrived in Kansas when, notes a local paper, a man who goes ten miles from home wants to take along at least three grades of underwear.

The farmers near Colfax, Wis., raised such an enormous crop of potatoes this season that they do not know what to do

with them. The best price obtainable is 10 cents per bushel.

Dan Jordan, aged eleven, has been sent for three years to the Tennessee state prison for the theft of \$5. He is probably the youngest penitentiary convict in the United States.

Flour has been advanced 100 per cent in price because wheat costs 30 per cent more than it did six weeks ago. There's nothing like knowing how to figure a ratio of profit.

ALASKA CANNED SALMON—PACK ALL IN.

The steamer Karluk arrived from Alaska yesterday. She is reported to have brought down the final consignment of the season, together with the last of the Chinamen sent up last spring to engage in the fisheries. The Alaska Commercial company alone caught 1,200,000 salmon, most of them in the Karluk river, which is about 2 1/2 miles long. The receipts of Alaska salmon at this port for the season to date are as follows:

Table with columns: Arrived, Vessel, Cases, and amounts for various dates from July to October.

\*Also 750 bbls.; also 163 bbls.; also 351 bbls.; also 157 bbls.; also 456 bbls.; 705 hf bbls and 198 kits.

The Saddle F. Catter on August 31st brought 2,100 bbls, and the Mattheus on October 23rd brought 317 bbls. The receipts for 1887 were 190,000 cs., the largest up to that time.—S. F. Dullin I.

LIGHT HOUSE IMPROVEMENTS.

Major T. J. Handbury, U. S. engineer, who has charge of all matters pertaining to the construction or repair of light-houses in this district, says the Oregonian, has prepared plans for a screen of shutter to protect the lantern at the Tillamook lighthouse from damage from the spray, which during fierce storms sometimes break the glass.

The lantern is surrounded by a balcony and railing, and it is proposed to place on this a screen or shutter about fourteen feet wide, made of galvanized iron, two inches wide by five-eighths of an inch in thickness, in the form of a lattice, the openings in which will be six inches square, extending to the top of the lantern.

This shutter will stand on wheels, so that it can in a moment be shoved around to the back of the lantern in fine weather, where it will be out of the way, and when the storm king gets on his ear and the scattered washers raise and the winds their vigils keep, it can be shoved around to the point where it will do the most good in breaking the force of the water which dashes against the lantern, and thus protect the costly lenses from damage.

The shutter will weigh about a ton and a half. It will doubtless prove very efficient. Iron workers have been invited to bid for its construction.

The castings for the proposed lighthouse at Cape Meares are being made at the Willamette Iron Works as fast as possible.

Bids are advertised for repairs to the U. S. buoy depot near Tongue point. A slip is to be put in, the foundation fixed up, and a number of piles which have become chafed are to be replaced.

Material has been purchased for repairs, etc., at Cape Hancock lighthouse. The roof is to be reshingled, new wood-sheds built and things fixed up generally.

They Sent Him a Rabbit For Luck.

INDIANAPOLIS, Nov. 2.—Gen. Harrison was to-day the recipient of a unique gift, in the shape of a big jack-rabbit, which came by express from Washington, Kansas. The box was covered on three sides with American flags, while the top was hidden by countless tags and stamps, put on by express agents, with their greetings to the general. Accompanying the box was a letter from the three youthful donors, which reads as follows:

GEN. HARRISON: We are little boys, only 11, 8 and 6 years old, and can't vote for you, but we want you elected, and we send you a rabbit for luck. It is said that getting a rabbit's foot is a sign of good luck. Somebody sent Mr. Cleveland a rabbit's foot in 1884 and he was elected. If the paw of a common rabbit would elect him, we hope a whole jack rabbit will elect you sure. It likes to eat apples and cabbage and corn and will drink milk as well as water.

GUY RECTOR, ROY RECTOR, MARLEY RECTOR.

A Safe Investment. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised Druggist a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case when used for any affection of Throat, Lungs or Chest such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc., etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon.

Trial bottles free at John C. Dement's Drug Store.

A fine cup of coffee, at the Telephone Restaurant.

ADVICE TO MOTHERS. Mrs. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The finest and juiciest steak at the Telephone Restaurant.

Meals Cooked to Order. Private rooms for ladies and families; at Central Restaurant, next to Foard & Stokes.

—All the patent medicines advertised in this paper, together with the choicest perfumery, and toilet articles, etc., can be bought at the lowest prices, at J. W. Cook's drug store, opposite Orient hotel, Astoria.

The latest style of Gents' Boots and Shoes at P. J. GOODMAN'S.

Believed To Be Drowned.

Last Saturday Richard Morris of Riverside left this place in a small boat to cross the bay on his way to Wilapa, since which time nothing has been seen of him and it is feared that he was drowned. An oar and the rudder belonging to the boat have been picked up at Sand Point and it looks very much as if Mr. Morris had been capsized in that vicinity and drowned. His son was here Monday in search of him. Mr. Morris was a resident of Riverside, Willapa river, for several years, where his family now reside.

Since writing the above we received news that the tug Hunter picked up the boat that Mr. Morris had at Toke's point. The boat was bottom up and without any contents. This is sufficient evidence that the occupant was drowned.—Pacific Journal, 2.

Mr. Morris was the father of Mrs. John A. Montgomery of this city.

Merit Wins.

We desire to say to our citizens, that we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use.

These remedies have won their great popularity purely on their merits. Jno. C. Dement Druggist.

Wainhard's Beer. And Free Lunch at the Telephone Saloon, 5 cents.

The best Oysters in any style, at the Telephone Restaurant.

NEW TO-DAY.

Democratic Parade!

The Democratic Procession Will Form Monday, Nov. 5, at 7 o'clock P. M.

At The Democratic Club Room, Three doors east of Aug. Danielsou's.
