BIG OVATION TO REPUBLICAN CANDIDATES

EXPLOSION ON BIG SHIP KILLS SIX AND INJURES THIRTY

ROOSEVELT GOES TO HIS HOME AT OYSTER BAY

PRESIDENT AND FAMILY LEAVE ON ANNUAL VISIT—"THANKS DUE AMERICAN PEOPLE" FOR WORK ACCOMPLISHED.

(United Press Lensed Wire.)
Washington, June 26.—President Roosevelt, accompanied by his wife, his daughter, Ethel, and his son, Quentin, left Washington at 9:15 o'clock today for the President's annual summer visit to Oyster bay. The President was accompanied to the depot by a crowd of officials and friends and guarded by secret service men.
Secretary William Loeb accompanied President Roosevelt's party, as did Assistant Secretary Forester.

Assistant Secretary Latta remained at Washington to be the chief Pook Bah of the executive offices until the President returns.
Before he left for his summer outing, the President was reminded by one of his friends that he had earned his vacation.
"Don't waste any sympathy on me," he replied in a hearty voice, "I have enjoyed every minute of my term of office and my thanks are due to the American people and not theirs to me for the opportunity I have had to serve them. I have had a perfectly corking time."

STRIKE ON IN COLORADO COAL FIELDS

(United Press Lensed Wire.)
Denver, Colo., June 26.—Dissatisfied with the conditions under which they were working, 2500 miners employed in the northern Colorado coal fields have quit work, determined to remain out until their employers grant their demands.
The strike dealers declared today that a sufficient number of men to operate the mines cannot be secured and that in all probability they would remain idle for some time. They say the men will not return to work until they are promised an increase in wages.

Although King Leopold got off from being a witness by pleading diplomatic immunity, his chauffeur was fined \$110 for injuring a bicycle rider while taking his majesty for an airing.

TAFT IS GIVEN AN OVATION TRIUMPHAL MARCH

CINCINNATI RUNS WILD FOR "BILL" AND SHERMAN—QUANDRY OVER CAMPAIGN MANAGER—HITCHCOCK DECLINES

(United Press Lensed Wire.)
Cincinnati, O., June 26.—The center of Republican activity was today transferred from Chicago to this city with the appearance of Presidential election time, so great is the enthusiasm.
William H. Taft arrived from Washington at 8:20 o'clock and was greeted at the station by a tremendous throng who cheered and made a wild demonstration.
James S. Sherman, the vice presidential candidate, had arrived from Chicago 15 minutes earlier, with Charles P. Taft and the sub-committee of the national Republican committee, which will confer here today on the appointment of a permanent chairman to manage the campaign.
Sherman and the national committee were given almost as great an ovation as Taft himself, as the crowd was primed and anxious to show its enthusiasm.

Two bands were at the station and carriages had been prepared for a parade through the city. The line of the procession through his home city was a continuous triumphal march.
The streets were blocked all along and women and children and old men, scarcely able to hobble, were out to cheer "Our next President."
There were cries of "Cincinnati's president" and "Our own president" all along the line. The crowd took up the "yell" of the convention, "Taft, Taft, William H. Taft!"
The parade, led by the bands, made its way to the residence of Charles P. Taft, but it had to proceed slowly. At Fourth and Race streets a big bunch of American beauty roses was thrown into Taft's carriage and he received them with much apparent pleasure. A street-hawker who had been following the Taft carriage played on a flute and in a moment of enthusiasm threw the instrument into the carriage and it fell into Taft's pocket.

The crowds and the bands drew up in front of the Taft residence where the demonstration lasted several minutes. The candidates bowed and smiled and waved to the crowd. Then he sprang out of the carriage with surprising agility for a man of his size, walked lightly up the steps and at the door turned and waved to the crowd as he entered.
Quandry Over Manager.
It is understood that Taft's in a quandry regarding the appointment of a campaign manager. The sub-committee and Sherman came here at his request to talk the matter over.

The Ohio contingent holds that the permanent chairmanship of the national committee should go either to Arthur I. Vorys, the first Taft manager, or to former Governor Myron T. Herrick, Ohio. Many members of the national committee insist that Frank H. Hitchcock, who managed Taft's campaign for the nomination on the firing line, is not entitled to the place but is the best equipped man yet suggested.
The members of the sub-committee here are General Powell Clayton, of Arkansas; former Governor Myron T. Herrick, of Ohio; Frank B. Kellogg, of Minnesota; Charles Nagle, of Missouri; E. E. Hart, of Iowa; Senator Borah, of Idaho; E. C. Duncan, of North Carolina, and Frank O. Lowden, of Illinois.
Frank H. Hitchcock was offered the management of the national Republican campaign but he declined and so far no selection has been made.

The highway, like a building, is nothing to brag of without a solid foundation and a good roof. The road drag will make the last.

BIG CEMENT PLANT FOR WASHINGTON

(United Press Lensed Wire.)
Bellingham, Wash., June 26.—The Hallow-Guthrie company, the cement importers of Liverpool, England, have decided to build a cement plant in Whatcom county that will cost \$1,000,000.
Alexander Guthrie, senior member of the firm, arrived in this city last night accompanied by Alexander Baillie, of Tacoma, R. A. McWilliams, of San Francisco, and T. W. B. London, of Portland, to make an examination of the company's properties which comprise one thousand acres at Kendall.
Guthrie and Baillie, who is a member of the firm, admitted last night that the plant is assured. To begin the preliminary work, Richard McWilliams, scientific cement engineer of Toronto, Canada, will arrive here and begin the preliminary work next week. To McWilliams belongs the task of deciding whether Bellingham or Kendall shall become the site for the plant.
The proposed plant will be a duplicate of the cement works at San Jose, Cal.
The operation of the plant will mean that 600 men will be given permanent employment.

KILLED BY HIS HOME DESTROYER

(United Press Lensed Wire.)
Des Moines, Iowa, June 26.—Frank Parker, a business man of Denver, died near Kellogg today from wounds received yesterday while he was trying to kidnap his 5-year-old daughter from the home of his wife. Parker was shot by George Young, of Denver, a former business partner.

CLAIMS A FRAUD OF \$70,000

(United Press Lensed Wire.)
San Francisco, June 26.—According to witnesses who will appear before the federal grand jury here the Dunkards of Pennsylvania, particularly the wealthy religious colonies at Manheim and Lancaster, have contributed the past two years, more than \$70,000 toward the development of the oil companies, the greater part of which, they claim, has disappeared into the coffers of the promoters instead of going to develop the properties.
Rev. Charles C. Madeira and Wm. L. Evans, two Dunkards, are now in this city investigating the Mount Hamilton Land & Oil company and the Esperanza Land & Oil company in which they say the Dunkards of Pennsylvania are heavily interested. They came all the way from the Quaker seat for the purpose of pressing charges against J. F. Krause and his associates in the two oil companies, whom they say have never accounted for nearly \$150,000 contributed by the Dunkards.

TO REBUILD FAMOUS HOSTELRY

(United Press Lensed Wire.)
San Francisco, June 26.—It has been announced today that the famous Occidental hotel, known throughout the entire country and for years the headquarters of army and navy officers in this city, is to be rebuilt on the old site on Montgomery street.
Since the fire the property has remained unimproved, but Richard Burke, one of the principal owners, is now in this city making arrangements for rebuilding the famous hostelry. Next to the Palace, the Occidental was the best known in the west and old timers hail the news of the rebuilding with much pleasure.

SIX ARE KILLED BY EXPLOSION THIRTY WOUNDED

BIG STEAMER BLOWS UP—EXACT NUMBER OF DEAD AND HURT UNKNOWN—SEVEN ARE MISSING.

(United Press Lensed Wire.)
Philadelphia, Penn., June 26.—It is believed that half a dozen men lost their lives as the result of an explosion on board the Hamburg-American steamer Arcadia here today. The ship has been practically destroyed by fire.
Chief Officer Kruger, of the Arcadia, was badly burned about the face and hands while rescuing the injured, who would have been buried to death if it had not been for his heroic work. He rushed into the ship amid the roaring flames, and with the aid of members of the crew carried out the bodies of two dead negroes and sixteen injured men.
The roll call this afternoon shows that a score of men are missing. Many were seen to jump overboard and some are believed to have been drowned. Twenty-five men were below the hatches when the explosion occurred and it is not known whether all of them got out before the intense heat forced back the rescuers.
Thirty are known to have been injured, according to the list made up by the ship's officers, and it is feared that one-third of these will not survive.
The steamer, which carried a general freight cargo, settled down into the mud and it is believed her entire interior has been destroyed by the flames. Fire boats have been pouring water into her hold but the fire had spread beyond control before they arrived.
Nothing inflammable appears on the list of the Arcadia's cargo and the theory explanation is that the explosion was caused by gas. She steamed up the bay this morning after completing her voyage from Hamburg and was near her dock at the time of the explosion.

OWNS 5000 ACRES OF KOREAN MINES

(United Press Lensed Wire.)
San Francisco, June 26.—Adolph Ottinger, a retired broker of this city, left for Chicago today to make arrangements to form a syndicate to mine for gold near Seoul, Korea. He has received word that his title to 5000 acres of placer claims in Korea has been adjusted at a conference between the American ambassador to Japan and the Japanese resident general at Seoul and is elated over what he says is a chance to make a big fortune.
A syndicate composed of himself, Mrs. E. O. McCormick of Chicago and her brothers, Charles and Henry Frank of Cincinnati and Josh Desher of the same city, will work the claims with dredgers to be built in this country.

WASHINGTON ENDANGERED BY BIG FLOODS

(United Press Lensed Wire.)
Woodland, Wash., June 26.—Scores of farmers, with all their possessions and stock, are today being driven from their homes by one of the worst floods that has visited this part of the state in years.
The waters of the Lewis river are overflowing their banks and flooding the bottoms west and south of the Columbia river. At Woodland the stage of the river in the north fork is now 15 feet. During the present week the water has been rising at the rate of three inches a day. As little hay has been cut when the floods came the crop will be almost a total loss.

EXCITING RACE OF "GEORGIA."

(Wireless to United Press.)
By H. Lee Clotworthy.
U. S. S. Georgia, at Sea, June 26.—The Georgia is still the sea queen of the battleship fleet. Under her natural drift and racing through a moderate sea basin, the Georgia in a speed trial south from Cape Flattery on Friday averaged 18.02 knots per hour on the nine hour run, and 19.02 knots under forced draft on a four run.
The record beats the builder's trial speed of the ship, though on the run just completed the Georgia was more heavily loaded and was drawing three feet and eight inches more water.
No other battleship in the navy has equalled this record even under more favorable circumstances. The same splendid esprit de corps which marked the record breaking coaling "down" by the Georgia crew in the speed run.
Members of the crew, after a tour of deck duty, volunteered service in the fire room, but the fire room force insisted on being allowed to finish the run without assistance.
The crew of the Georgia, which is known as the happiest ship in the navy, is determined to go after all navy records and fully expects to repeat its achievements of last year when the ship won the gunner's prizes in the battle practice.
Friday morning a line of seething water dotted with black bodies loomed up before the ship in remarkable resemblance to breakers. The officers on deck were startled for a moment until it was discovered that the supposed threatening rocks and breakers were a school of whales engaged in a battle royal.
This morning the weather is very thick with rain. Unless blanketed in fog, the Georgia will arrive at San Francisco at 3:30 this afternoon.

ROOSEVELT ENCOURAGES SPRECKELS

(United Press Lensed Wire.)
San Francisco, June 26.—"You have heart breaking difficulties with which to contend. You have to fight, not only the banded powers of evil, but the supineness and indifference of many good men upon whose zealous support you had a right to feel that you could rely."
Thus writes President Roosevelt, in a letter to Rudolph Spreckels, which was made public today, offering encouragement to those who are conducting the graft prosecution.
"Do not be discouraged; do not flinch," he continues in his lengthy letter. "You are in a fight for plain decency, for the plain democracy of the plain people, who believe in honesty and in fair dealing as between man and man."

RACING DEAD IN COLORADO

(United Press Lensed Wire.)
Denver, Colo., June 26.—There were no races at Overland park today and it is unlikely that there will be any more racing here this season. The police have been directed to arrest anyone caught laying a wager on the races and the bookies are not anxious to buck against the determined spirit abroad.
An appeal has been taken from the decision of Judge Carlton H. Bliss, who, sitting in the district court, has held that race track gambling is a crime against the laws of the state.
It is predicted here that the racing game has been permanently killed.

YOUTH'S SHOT BY POLICEMAN

(United Press Lensed Wire.)
Portland, Or., June 26.—Two young men are today suffering from painful bullet wounds and a special officer accused of firing the shots occupies a cell as the result of a riot that brought a meeting of the Tongues of Fire, a religious body, to an abrupt end.
A large number of the Tongues of Fire were throwing themselves on the ground in a tent at Mount Tabor and screaming and praying loudly when the youths appeared on the scene bent on amusing themselves.

CHICAGO STORE

PEOPLES BARGAIN HOUSE

THE WHITE FAIR SALE

is now in full progress at the CHICAGO STORE. All White Goods throughout the store are radically reduced. Thousands of items to pick from. Now is the time for Everybody to get a share of those White Fair Bargains. Read on—
