Interesting Facts Regarding the Laboratory of the Chamberlain Medicine Co., Des Moines, Iowa.

A person purchasing a bottle of Chamberlain's Cough Remedy has no conception of the magnitude of the laboratory where the medicine is manufactured. The machinery and apparatus used in its preparation was designed especially for the purpose and cost several thousand dollars. Europe, South America and the United States supply the various ingredients of this remedy, and only the highest obtainable quality is used. No pains or expense has been spared in making it as nearly perfect as possible.

A force of helpers representing homes enough to populate an average Iowa town are regularly employed at the plant of the Chamberlain Medicine Company, at Des Moines. Their printing department, which is usually overlooked in calculating the expenses of a business of this kind, ranks as one of the best in the state, and is thoroughly equipped with automatic folders of the latest improved type. Here enough print paper is used in one year to spread over 10 farms of 160 acres each, upon which is printed advertising matter, directions and labels in 24 different languages and dialects. Enough number is used in making the cases in which the medicines are shipped to build an eight-room house on each of these ten farms every three months. The bottles used by this firm every year, which are filled by machinery at the rate of 2000 per hour, if placed end to end would reach across the United States seven times, or almost encircle the globe. 4-12-21

MOUNTAIN WATER GIVEN A LIFT

A report from the Capital Water Commission was received by the city council last night, recommending that the steps being taken to arbitrate with the City Water Company, as to the value of their plant, and in the event of inability to buy the plant at a fair price, to proceed to install mountain water independently. But the Salem Water Company comes forward with an offer to arbitrate and sell at any reasonable price that can be agreed upon.

On motion the report was referred to the special committee on mountain water of the city council, composed of Elliott, Eldridge and Millard, with power to act. The plan seems to be to have three expert engineers, one representing the water company, one for the city and one for the state, go over the matter and arrive at the value of the present plant, and make a report to the city council.

FORGOT GIRL'S NAME

WHEN HE ASKED FOR MARRIAGE LICENSE

Oakland, Cal., April 13.—Louis Baylard, of Suisun and his wife-to-be, today are awaiting the peals of the wedding bells, which an unhappy lapse of memory on the part of the anxious swain was nearly instrumental in postponing to a future date.

Yesterday Baylard entered the office of the county clerk and timidly requested a permit to wed. All went well until he was asked to state the name of the future Mrs. Baylard. Immediately there was a halt in the proceedings. The would-be benedict thought and pondered and racked his brain, but the name of the fair one was hopelessly gone.

With the patience born of experience, the willing deputy suggested every Christian name applicable to a fair maid that entered his mind, in the hope of furnishing a working basis to the perplexing youth. By happy chance the roving glance of Baylard fell upon a stately Easter lily which stood in a vase upon a desk, and he cried with happy voice, "Lilly Irene!"

The fact that the surname was missing, and could not be found was no hindrance to the determined deputy, and 10 minutes later Baylard left the office possessed of a license to wed Miss Lilly Irene, of Oakland. Plans for the happy event are going on apace.

PERHAPS SUICIDE MAY BE MURDER

[United Press Leased Wire.]
Lovelock, Nev., April 13.—Did W. T. Onon, assistant cashier of the First National Bank, of this city, commit suicide, or was he foully dealt with?

While the belief is general he took his own life, the coroner's jury has refused to render a verdict to that effect, preferring to further investigate the case before coming to a conclusion. The jurors cannot be convinced that Onon, who was found yesterday with a bullet wound through his heart, fired the shot, although there is no evidence to the contrary. It is known that the cashier's accounts at the bank are straight.

SMILES.

Senator Beverage says "read the Bible." This is undoubtedly good advice, but if he has practiced it, he never got inoculated with its doctrines. As Saxe says, "The simple fact is, His preaching isn't sanctioned by his practice."

When the country newspapers allow and Eastern syndicate to write these editorials, the liberty of the masses is indeed in danger. The great dailies wield a powerful influence. Not always for good, but the editorial opinion of the country press is the foundation on which the liberty of the American people depends. This is not a "smile," it is a serious and indisputable fact.

Now that the sale of opium has been prohibited, maybe there will not be so many pipe dreams among the coast "promoters."

STOPS FALLING HAIR

Ayer's Hair Vigor is composed of sulphur, glycerin, quinine, sodium chlorid, capicum, sage, alcohol, water, and perfume. Not a single injurious ingredient in this list. Ask your doctor if this is not so. Follow his advice. A hair food, a hair tonic, a hair dressing. Promptly checks falling hair. Completely destroys all dandruff.

LILLIAN RUSSELL HERE FRIDAY

Not since "Old Kentucky" flashed across the vision have theatre-goers seen a racing play of deeper insight and of more genuine appeal than the comedy "Wildfire," by George Broadhurst and George V. Hobart, in which Joseph Brooks presents Lillian Russell at the Grand opera house next Friday, April 16.

It is an oddity in that it successfully mingles the atmosphere of a beautiful country home and the realism of a race track. The novelty of the theme bridges this seeming chasm. To Lillian Russell goes the full credit for establishing the illusion that makes the play vital. Her work is refined and artistic and intensely dramatic at one and the same time. The play is faultlessly staged, and Miss Russell is given clever support by a company selected for her by Mr. Brooks.

How to Cure the Grip.

Rest, warmth and quiet are the three sovereign remedies for this disease, and the best preventives of its secondary complications. Go to bed and remain in bed until well on the way toward recovery. Two or three days in bed when you first contract the disease is better than two or three weeks later on. Also take a double dose of Chamberlain's Cough Remedy to begin with and then the regular dose every hour. If it should nauseate, discontinue it until the nausea subsides and then take it in smaller doses or less frequently. Before going to bed take two of Chamberlain's Stomach and Liver Tablets and bathe the feet in water as warm as can comfortably be borne. Do not venture out until fully recovered. This remedy is for sale by all druggists.

Too Much Water.

Andy Gorman was conveying the manager of the Corvallis creamery home yesterday, driving the spotted team of F. W. Seck. Between Tangent and Corvallis Gorman drove the team into the Calapooia river for a drink. The water was deeper than the driver had anticipated, and the horses were soon in swimming water when they became entangled and one of the horses was drowned, the other proceeding in reaching shore. The driver and his passenger had a narrow escape.—Lebanon Express.

PHONOGRAPHIC SAFE LOCK.

Only Its Master's Voice Will Open Denver Inventor's Device.

George J. Charplot of Denver has invented a phonographic safe lock which he says can be opened only by the voice of the owner. Tests in the presence of experts substantiate the inventor's claim.

Instead of a knob on the door there is the mouthpiece of a telephone. A delicate needle is attached in the diaphragm cylinder. The word which the safe is locked on is thus recorded, and the one who uttered it must repeat it before the safe will open.

In the tests a dozen men tried imitate the voice of the man who locked the safe, but the lock would respond only to the right man.

This Is Woman's Rights.

In thirty-six states today a married woman has no right to her own children. In sixteen states a wife has no right to her earnings outside the home. In eight states a wife has no right to her property after marriage. In all the states except the four in which women are voters there is discrimination. In every state constitution the ineligible voters are aliens, lunatics, idiots, criminals, untaxed Indians and women.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. For sale by J. C. Perry.

Rheumatism.

More than nine out of every ten cases of rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. The medicines usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of chronic and muscular rheumatism. For sale by all good druggists.
