

AUSTRIA SENDS BATTLESHIPS TO ATTACK SERVA

Danube Flotilla Starts for Belgrade—Action Considered Ominous—Austrian and Russian Armies Up on War Basis.

Germany insists That There Will Be No Conflict But Austria's Acts Contradict Assertion.

SOPIA, Nov. 23.—With a heavy Bulgarian artillery fire raking Adrianople, the announcement of the fall of that city is momentarily expected.

BUDA PEST, Nov. 23.—Despatches received here declare that Albanian chieftains have issued a declaration of independence.

Germany Alarmed

BERLIN, Nov. 23.—The German public is greatly alarmed today over the accounts of warlike preparations in Austria. A despatch from Vienna to the Tageblatt says the situation is grave and that war is expected. Everything, the despatch said, now hinges on Russia's attitude. "We will not start an attack," is the reported assertion of Austrian government officials, "but we must be prepared for eventualities."

Flotilla Starts

BUDA PEST, Nov. 23.—The Austrian Danube flotilla, consisting of four gunboats, two monitors and two torpedo boats, started toward Belgrade this afternoon. It was not announced that the flotilla is on a hostile mission, this development is considered ominous.

Employees of all street railways have been ordered to report to reserve regiment commanders tomorrow. All indications point to war, but officials refused to give an inkling of what may be expected.

BERLIN, Nov. 23.—Despite the hurried preparations of Russia and Austria to get their armies on a war basis, officials of the German government today insisted there would be no European clash over the Balkan situation. This assertion, however, is not borne out by the latest developments.

Marshals in Conference

The gravity of the situation was indicated here today when Field Marshal Shemua of the Austrian army arrived suddenly for a conference with Field Marshal Von Moltke, chief of staff of the German army. Shemua's visit, following so closely upon that of the Arch Duke Ferdinand of Austria, who was shot for several hours yesterday with Kaiser Wilhelm, indicates that trouble is anticipated.

Austria now has seven of its army corps on a war footing, and Russia is working just as frantically in its efforts to be ready for any emergency.

Emperor Franz Joseph of Austria is admittedly worried over the situation, and it is said his health is breaking under the strain.

HARVARD WINS FROM YALE BY SCORE 20 TO 0

Old Eli Outclassed, Puts Up Hard Game—Punting Duels a Feature of Contest—Crimson Takes Lead From First Play.

First Touchdown Made During First Few Minutes of Play—Yale's Sorry Showing.

NEW HAVEN, Conn., Nov. 23.—Outclassed, but putting up a hard, tenacious struggle, Yale was defeated by Harvard this afternoon in the annual football game here, twenty to nothing. Punting duels between Flynn of Yale and Felton of Harvard figured throughout the game. More than 34,000 persons filled the grandstands when the whistle announcing the kickoff was blown.

Considerable betting on the result, with odds at ten to eight, was reported. One wager of \$10,000 to \$9,000 was reported, with Harvard on the long end.

Opens With a Rush

At the opening of the first period Harvard carried the ball to Yale's 24 yard line. A series of line plunges were tried by Harvard and Brickley of Harvard, which ended with Brickley trying for a field goal, which missed. Then followed an exchange of punts between Flynn and Felton.

On the next formation Flynn made a twenty yard end run but the ball was returned to Yale's seven yard line as a penalty for holding. Another punting battle followed until Garner of Harvard finally got a fair catch. He kicked to Wheeler, Yale's quarterback, but the latter fumbled the ball. Storer of Harvard grabbed the oval and scored a touchdown.

Harwick kicked goal. A punt duel followed with the ball finally in Harvard's possession in the center of the field. On a series of plays Brickley and Wendell carried the ball to Yale's thirty yard line, where Brickley drop-kicked a field goal. There was no further scoring during this period.

Resort to Punting

The opening of the second period found Yale in possession of the ball on her own forty-six yard line. Flynn however, was unable to gain, and once more resorted to punting. On her own thirty-five yard line, Yale was still in possession of the ball.

Line plunging was resorted to by Flynn, Spalding and Cornell, who by degrees forced the Harvard players back to their own thirty-five yard line. Brickley intercepted a forward pass. The ball seasawed back and forth, each side resorting to punting. On her own forty-five yard line, Harvard gained possession of the ball and fell back to line plunging. Brickley and Wendell hammered the line until they forced the ball to Yale's thirty-five yard line. Brickley attempted to drop kick but failed. Flynn of Yale punted.

Harvard succeeded in carrying the ball to midfield, but lost it on a fumble. The half ended with the ball in Harvard's territory.

Flynn Fumbles Punt

Brickley of Harvard, kicked off at the opening of the third period and a series of punts were exchanged. Flynn finally fumbled a punt on Yale's fifteen yard line and Harvard recovered the ball. On the first play Brickley got the ball, circled Yale's end and scored a touchdown. Felton kicked goal.

The Seattle bankers charged with aiding and abetting Schrieker in receiving deposits after knowing that the La Conner bank was insolvent.

Schrieker's trial lasted four days. His conviction came on the first ballot.

Schrieker's bank failed in April in about \$250,000.

Furth will be tried in Bellingham, he having been granted a change of venue. His plea for a second change of venue to Snohomish was denied by the supreme court yesterday.

Weems of Baltimore, who then committed suicide, will recover, according to a bulletin issued today by hospital surgeons. Examination showed the bullet lodged in the muscles of the woman's back after plowing its way through the abdomen.

Mrs. Baggott was conscious today and talked freely of the shooting.

"It was a dirty cowardly thing," she said. "I never gave Weems any encouragement, but have tried to keep away from him. He has persisted in forcing his attentions upon me."

"These defendants were actuated at Lawrence merely by mercenary motives," shouted Atwill, turning until he faced Ettor. The latter retorted: "No sir," shouted Ettor, "that is not true."

EXTEND THE TIME FOR A RE-COUNT IN CALIFORNIA

SACRAMENTO, Cal., Nov. 23.—Attorney General U. S. Webb transmitted to Governor Johnson and Secretary of State Jordan today a formal opinion in which he holds it directory, and not mandatory, that the election returns shall be certified by the last Monday in November.

Webb regards the language of the code to mean that the official returns shall be transmitted to the governor in time to permit the issuing of his call to the electors for the first Monday in January.

This undoubtedly will have an important bearing on the re-count contests that are to be launched in several counties seeking a re-canvas of certain precincts.

More Mandates Due

It is believed at the capitol today that the extension of time given Jordan under Webb's ruling will encourage the filing of many writs of mandate with the appellate court to compel supervisory re-canvasses which would otherwise be withheld because of the danger of losing the entire vote by not getting it into the hands of the secretary of state before Monday.

Only Los Angeles and Alameda counties were still out today. In the 44 counties now ready for certification, Griffin, (Wilson elector) has a lead of 26,471 over Wallace (Roosevelt elector). Los Angeles and Alameda both are concededly heavily Roosevelt.

No Jeopardy Sought

While Secretary Jordan has announced that he would not make his official election certification to the governor until the returns from every county are in, he stated today that this would not be extended over a period which might in any way jeopardize the sitting of the state electoral board.

WAR CRISIS IN EUROPE DRAWS NEARER HOURLY

Graver Danger of General Conflict Now Than at Any Other Time—First Blow Expected to Be Struck by Austria or Russia.

Censorship Prevents Real News from Becoming Public—Austria's Act Threatening.

LONDON, Nov. 23.—Graver danger of a general European war as a result of the Balkan-Turkish struggle exists tonight than at any time since the Turk and Belgar first crossed arms. The first blow is expected to be struck by either Austria or Russia before many hours have elapsed.

Since early today a strict censorship has been established over all Austrian news sources, and the real information coming from Russia and Germany is so slight that there is more than a suspicion that the censors there also are busy.

Threat of Conflict

Austria's move in sending a torpedo flotilla down the Danube toward Belgrade, while it is said that no hostile act is intended, is without doubt a threat of actual conflict, and the report from Buda Pest that reserves are being ordered to the colors gives further indication that the hour of struggle may be near. The best information available is that Austria has more than 500,000 men on a war footing.

Just how much dependence may be placed on the German reports which have been allowed to come from Berlin is not known. There is little doubt in diplomatic circles here, however, that the kaiser will be found ready to support Austria and Italy if the clash comes, and the news from Bohemia that the reservists of five German army corps have been ordered to the colors is taken here as an indication that the situation could not be well gravest.

Russia Prepared

On the other side of the possible battle line, Russia is known to have been for weeks massing men on her German-Polish frontier and it is not doubted that her armies will oppose in the field the eastward march of Austria, which, if carried out to its logical conclusion would bring either the Austrian or the German eagles to the Bosphorus in time.

No official information of what Britain intends in the matter is obtainable here, the Horseguards and the admiralty and foreign officers continuing their traditional policy of reticence. So far as can be learned, France has made no move toward a land mobilization, but it is believed that both British and French warships in the Mediterranean are notified to be on the watch to at once protect the interests of the entente cordiale, should a clash come.
