PLAN FACTORY TO DRYING FRUIT BY NEW PROCESS

There will be a meeting of the members of the Commercial club and the Merchants association at the Library auditorium, 7:30 p. m., to meet with representatives of the Ever Fresh company who are here in the interests of establishing a factory. This company has perfected a new process for preparing all sorts of vegetables, fruits, berries, etc., in such a way that they retain their flavor and freshness for several years, although all the water originally in them has been removed. For instance, corn, cauliflower, asparagus, etc., are so processed that they may be prepared for the table and have all the freshness and flavor of the perfectly fresh vegetable taken from the garden.

Dried and Restored

The process removes all the water without taking away the flavor and a demonstration will be made tonight by the owners of the process, Frank J. Morton of Sutherlin and A. G. Chuloupka of Portland.

Samples of the produce are on exhibition at the exhibit building of the Commercial club. They show the fruits and vegetables dried and also show them restored to natural appearance and taste after being soaked for one night in water.

Make Pies and Cakes

In the demonstration this evening pies, short cake and other delicacies will be made from fruits kept for a great time under the process. The men behind the concern are not offering stock for sale but are understood to be looking for an inducement to locate in this city. Just what the inducement will be announced shortly. A number of orchardists are already greatly interested in the plan.

Products On Display

The representatives of the Ever Fresh company will have on display many of their products, and are desirous of meeting the people who are interested in establishing a factory in the valley. No one who feels that the valley needs an establishment which will take care of our various farm products should be absent from this meeting. J. A. Perry, temporary president of the Commercial club, and Ed. Warner, president of the Merchants association, will preside and urge the attendance of every interested person. Remember that the meeting is called for 7:30 p. m. in the auditorium in the basement of the library. Show your interest and come. Ladies are also invited to be present as this matter is also of interest to them.
