FULFILLS PLEDGES

(Continued from page 1.)

placed the old system of nomination. "Under the primary system it is almost a mathematical certainty that candidates will be chosen from centers of population as instanced in the case of U. S. senator, Portland having two United States senators, and under which the dominant party is invariably misrepresented, causing a candidate to be elected from the minority, as instanced in republican Oregon being misrepresented in the United States senate by two democrats.

Senator Calkins concurred in this statement. Clarence Reames' Speech In nominating Dr. Lane in the house Representative Reames said in part: "The people of the state of Oregon are to be congratulated at this time on the fact that we are about to proceed to the election of a United States senator, knowing as we do that election will occupy but a few minutes of time, that it will be free from the squabbles of the past, and knowing that important legislation will not be delayed or traded for votes for senator.

"The people are to be congratulated likewise, in the man they have chosen—Dr. Harry Lane, whose grandfather, Joseph Lane, was the first governor of Oregon.

"The best recommendation for him comes from his own home community. If you want to find out what a man really is, go to the place where he comes from. The records of the secretary of state show that Dr. Lane not only carried the state, but that against three other prominent gentlemen, he carried his own county of Multnomah.

"I assure you it gives me great pleasure to nominate Dr. Harry Lane, for United States senator."

Representative Hagood of Portland, also made a brief seconding speech.

\$50,000,000 IS LOW ESTIMATE OF LOSS IN COLD SNAP

The southern California orange and lemon crop valued at \$50,000,000 is completely gone. While the press dispatches out of Los Angeles have minimized the loss, no one in southern California conversant with the facts disputes it.

Not only did the cold spell ruin this year's crop but it killed thousands of acres of young trees, and set the bearing trees back two or three years.

The Los Angeles papers at first published the news following up with reports that the damage was much less than at first believed. They petitioned congress for a frost fighting appropriation. Snudge pots were photographed and run on first pages and their use explained. The people of Los Angeles and vicinity have a tremendous "grouch."

Real estate men are heavy losers. With the annual tourist season on in full blast they were reaping a harvest. Then Jack Frost took a hand. Now if a man asks for an orange grove they put him off with an excuse. It wouldn't do to show him a grove at this time.

For miles along the railroads of southern California the orange groves resemble an August wheat field when they should be a dark green. The frost hit them, and hard.

Palm trees were singed while the semi-tropical parks were hit very hard.

A loss of \$50,000,000 is conservative. This does not include the canceled orders for fruit boxes, transportation and the like.

FAKE COMMISSION HOUSE SCORED AT MERCHANTS MEET

The business dealings of the Rogue River Commission company, and its representatives, Messrs. Schueckloth and Raa, were roundly scored at the meeting of the Medford Merchants association Monday evening. Instances of deals whereby farmers were defrauded of a whole season's crop and work were related and the fact was brought out that two families were driven from the valley and forced to abandon the farms they had cleared, as a result of consigning their produce to the commission company.

Although the merchants were asked to co-operate with the Mail Tribune to gather data to be presented to the grand jury it was not felt that, as an association, this could be done. Individual members, however, are strong in the belief that such data can be and will be obtained and will lend their efforts to that end.

The association by an unanimous vote passed the following resolution: Whereas, It is the sense of the Medford Merchants' association that the business methods and business dealings of the Rogue River Commission company have injured the commercial standing of the community and have to our knowledge financially crippled deserving citizens in this district.

Be it resolved, that this association goes on record as strongly condemning any business methods of the character practiced by the Rogue River Commission company in this valley.

Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, then add the Sugar Syrup. Take a teaspoonful every one, two or three hours. You will find that this simple remedy taken hold of a cough more quickly than anything else you ever used. Usually ends a deep seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pain, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could lay ready made for \$2.50. It keeps perfectly and tastes pleasantly. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in ginseng and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful formula has never been equalled. A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.
