

SAG IN PRICES FOR LIVESTOCK

PORTLAND, Feb. 3.—Receipts for the past week have been: Cattle 1072; calves 1, hogs 4622; sheep 3354; horses 16.

Notwithstanding the fact that receipts have been light and comparatively few cattle were offered to the trade, prices have sagged fully twenty-five cents all along the line. Prime steers sold \$7.50 to \$7.75, cows \$6.50 to \$6.75, heifers \$7.00 to \$7.25 and bulls at \$6.00 represent a conservative range.

Downward tendency to the swine trade early in the week became chronic by Thursday when best light-weight hogs sold at \$7.50 to \$7.55. These prices are twenty to thirty cents lower than a week ago. Liquidation has been very liberal. 4622 head of swine being unloaded here since Saturday.

Mutton values received a trimming Thursday, due to the let-up in demand. The cattle decline has affected both sheep and hog markets and fresh meat business shows big losses compared with early January trade. Choice wethers are down a quarter at \$6.00 to \$6.15; ewes \$5.00 to \$5.15. Lamb market steady to a shade weaker, tops \$7.00 to \$7.25, demand not so urgent. Bulk of sheep house offerings during week only medium quality.

KING GEORGE ILL WORRIES ENGLAND

LONDON, Feb. 3.—King George's health is giving his physicians not a little concern. His majesty has been suffering intermittently since Christmas with a troublesome cold, which the most careful treatment has been unable to eradicate.

The present winter, with its sudden changes of temperature and its almost continuous rain, has been trying for persons even of robust constitution. King George is of frail physique, and this fact renders him peculiarly susceptible to the ravages of the English winter which he managed to escape last year by taking the Durbar trip to India, from which he returned in splendid condition.

Those who have seen the king lately have noted with considerable apprehension the contrast with his appearance last spring. His stoop of shoulders has increased perceptibly, and he seems to have lost quite a little in weight, while his facial expression is anything but that of a well man.

Last year the rangers met at Yreka, Cal.

SAYS INDIAN CHILDREN WERE SLAIN FOR ESTATES

EDWARD B. LINNEN.

Forming only one of a series of narratives of crimes as shocking as those for which the McNamaras were convicted in California, Inspector Edward B. Linnen, special Indian investigator for the Secretary of the Interior, tells how land swindlers slew two Creek children in Oklahoma in furtherance of a fraudulent deed plot. The government will undoubtedly order a thorough investigation of these charges.

Presbyterian Church

Yesterday at the Presbyterian church was a day of great inspiration. The morning services were rich in music, and the sermon was from 2 Cor. 11:21. "Whereinsoever Any Is Bold, I Am Bold Also."

Representatives of the Conservatory of Music of Albany college were present. Mrs. Hans Flo, the vocal instructress and Miss Waggener, the instrumental teacher of that conservatory took part in the services. The evening service was one of music and song. A large audience was present morning and evening. Many were highly pleased with the music.

The program at 7:30 follows: Hymn 33, "Hark! Hark! My Soul." Organ—Miss Waggener. Solo—Mrs. Flo. Quartette. Solo—Miss Hance. Piano solo—Miss Waggener. Solo—Mrs. Flo.

Thankful He Was Not a Woman. The late Lawson Tait, of England, the great woman's doctor, said he never went to bed at night without thanking heaven he was not born a woman. No doctor ever knew better than he what women have to suffer at some times of their lives. It was an American woman long since passed to her reward who introduced a simple combination of roots and herbs called Lydia E. Pinkham's Vegetable Compound, that has proved wonderfully successful in mitigating suffering and curing diseases of women. It has brought unspeakable relief to thousands of women who suffered from female ills.

MARKET DEPRESSED BY LABOR TROUBLES

NEW YORK, Feb. 3.—The stock market closed irregular today. Canadian Pacific dropped a point and a half. Can lost a point and steel five-eighths of a point. Southern Pacific collateral fours moved up a point and a half to 97.

Likelihood of resumption of hostilities in the Balkans and threats of widespread labor troubles in the steel industry had a depressing effect. Trading was checked by uncertainty whether the supreme court would hand down the Minnesota rate decision today.

Bonds were steady.

If I caught a slight cold, it always settled in them, causing my back to become very lame, weak and painful. Last summer I was suffering in that way and on a friend's advice, I procured Doan's Kidney Pills. I found this remedy to be exactly as represented and in a few days the trouble left me. I know of many other persons who have obtained benefit from Doan's Kidney Pills."

BODIES OF FIVE LIE IN AVALANCHE DEBRIS

TYE, Wash., Feb.—Although the Great Northern tracks through here which were carried away with the big snow slide that occurred two weeks ago are again open, some-

where buried beneath the thousands of tons of ice and rock are the bodies of five laborers who were crushed by the slide. Three shifts labored day and night to open the lines of the railway, but the bodies of these five will remain forever under the avalanche, because it would cost thousands of dollars to recover them. Some skeletons may be found in the spring when the snow thaws away from the logs and boulders.

TUBERCULOSIS CURE RIVALS FRIEDMANN'S

MINNEAPOLIS, Minn., Feb. 3.—After 13 years of research work, Dr. J. H. Burgan of Minneapolis, has discovered a tuberculosis cure which the Daily News, a newspaper today claims rivals that recently announced by Dr. Frederick Franz Friedmann of Berlin.

The serum is injected in such a manner, as to strengthen the resistance of the cells in the body.

Dr. Burgan disputes Dr. Koch's theory that a germ causes the disease maintaining that Koch's tuberculosis germ is a negligible factor in the development of the disease.

He insists that the only cure is to strengthen the resistance so germs cannot live.
