## ALLIES FLANK TURKISH FORCE AT GALLIOLI

**Bulgars and Serbs Capture Village and Attack Fortress Which is Key to Dardanelles and Will Open Constantinople to Assault.**

**Turks Admit Retreat But Will Attempt Recapture of Vacated Positions Today.**

BERLIN, Feb. 6.—Despatches from Sofia to the German war office today officially announce that the Bulgarian forces on Gallipoli peninsula have captured the village of Bulaci and are now advancing against the town of Gallipoli which is the key to the entire peninsula. If this point is captured it undoubtedly means the fall of the fortifications along the Dardanelles and that Constantinople will be open to the allies' attack.

LONDON, Feb. 6.—Bombardment of Adrianople by the Bulgarians was resumed today but so far despatches received here indicate no serious damage is being wrought. There has so far been no confirmation of news agency despatches that General Saffoff captured 1,000 Turks who made a disastrous sortie from the beleaguered city.

### Fighting Is Resumed

Advices today from both Rome and Constantinople say that fierce fighting was resumed this morning on the Gallipoli peninsula where a force of Bulgars and Serbs, aided by the Greek fleet, are attempting to flank the Turkish forces and to open the Dardanelles to an attack on Constantinople itself.

The Turkish authorities issued a statement admitting that the Turks retreated at the close of yesterday's fighting to the coast of the Sea of Marmora but stated that the allies' army was unable to pursue and that the Turks today would retake several villages occupied by the Christians if the Moslems retreat. It probably is this attempted re-occupation which is the crux of the fighting today.

### Turkish Commander Killed

An unconfirmed news agency dispatch received here today says that Hassan Riza, Turkish commandant at Scutari, has been killed by the shells of the besieging Montenegrins.

Premier Venizelos of Greece is in Sofia today as the guest of Czar Ferdinand. He is enroute to Athens.

Constantinople dispatches today state that Shekret Kasha has returned from the lines at Tebatolja.

For the first time since last Monday the ambassadors conferred today in the foreign office here and it is believed they considered a new plan by the German ambassador to induce the Turks and the Allies to reopen peace negotiations. Dispatches from Constantinople that Shekret Pasha is secretly negotiating with the Bulgarians are perplexing the ambassadors who believe that such action would only tend to further complicate the situation and would render the prospect of peace even more vague.

### Albanians Advancing

More than 30,000 Albanians are advancing against Uskub which the Servians have held since the beginning of the war, according to the Journal Leturie, a newspaper. The Constantinople correspondent for the London Standard says the Turkish army in Monastir is conducting an active and successful campaign there.

## FIRST TURTLE SERUM BROUGHT TO AMERICA

NEW YORK, Feb. 6.—Bringing with him the first Friedmann turtle serum ever brought to the United States Dr. Austin Heid of Pittsburg arrived here today. He brought only enough to treat one patient in Pittsburg and at once started for that city.

Dr. Milton Foster of the Ellis Island health service questioned Dr. Heid as to the efficacy of the Friedmann cure. The Pittsburg physician said he had no doubt it was an absolute remedy for tuberculosis.

## EDITOR TAKEN TO JAIL FROM BED FOR LIBEL

**Philadelphia Publisher Who Exposed Grafting Being Persecuted by Political Gang—Says They Cannot Gag Paper and Will Print Truth.**

**Police Judge Accused of Employing Man to Fix Juries in Railroad Accident Cases.**

PHILADELPHIA, Feb. 6.—Arrested for criminal libel Martin E. Pew, editor of the newly established Philadelphia News-Post, was taken from his bed at midnight here as a climax to a crusade against alleged crooked police court judges and this morning ate breakfast in a cell in the suburb of Kensington.

Pew was arrested on a warrant issued by Magistrate Wm. Campbell on application of former Assistant District Attorney Wm. Gray, acting in behalf of Magistrate James Carey who has been bitterly attacked by the News-Post as a grafter and a menace to the decent element of the city.

### Printed Grafters' Confession

Carey alleges that Pew libelled him by printing a confession by J. Alexander Boyd that Carey bribed him to fix juries trying damage suits against the Philadelphia Rapid Transit company. Boyd confessed to Assistant Director of Public Safety Murphy, who demanded that District Attorney Ruten act. Ruten declared that prosecution could not as it was barred by the statute of limitations.

At the time of his arrest last night Pew was already under bail of \$500 on another libel charge by Carey. Today Magistrate Campbell announced that \$6,000 bail would be required under the new warrant.

"The whole political gang is behind Carey," said Pew today, "but they cannot gag my paper. I will print the truth about them. The honest people of Philadelphia are strongly supporting me."

### Just Starting Fight

Pew was released on \$6,000 bail at 11 o'clock this morning. Justice Campbell setting the hearing for four o'clock this afternoon.

Pew announced today that he is just beginning to fight and even if he is arrested a hundred times will continue to print conditions just as he finds them.

The Philadelphia Bar association will hold a special meeting Monday afternoon to decide whether to institute impeachment proceedings against Justice Carey. The Boyd confession and other allegations against Carey will be presented at the hearing.

## COAL DEALERS ACCUSED OF FRAUD

SAN FRANCISCO, Feb. 6.—Deputy United States marshals this afternoon were stationed in the offices here of the Western Fuel company to remain on guard there until the federal grand jury receives the books of the concern for investigation. John L. Howard, president of the company and Secretary B. C. Norcross have been subpoenaed to appear before the grand jurors tomorrow to answer questions concerning the firm's business methods.

Action against the company is based on information furnished to United States District Attorney McNab which alleges that the firm's books will show that for years there has been systematic fraud practiced upon the government by the manipulation of the "drawback" system in the payment of tariffs upon imported coal.

## TUBERCULOSIS EXTERMINATING ALL NATIVES IN ALASKA

WASHINGTON, Feb. 6.—Extermination of Alaska's native population within seventy years unless the spread of tuberculosis is checked immediately is predicted by Dr. Emil Kulish of the public health service in a report of conditions in Alaska today.

## DUBLIN CASTLE BOMBARDED BY ENGLISH SUFFRAGETTES AND LEADER SENT TO PRISON.

MRS. DESPARD  
The militant English suffragettes are "at it" again, but their activities this time have really reached a serious stage. In Dublin the suffragettes recently made a concerted attack on the windows of Dublin Castle, and in London the Home Office was also bombarded. In the English capital "General" Mrs. Drummond and Mrs. Despard, sister of the famous cavalry general, Sir John French, are leading their forces. Mrs. Despard has been sentenced to fourteen days in jail for resisting the police in the rioting in Trafalgar square.

## COMPENSATION ACT PASSES HOUSE AND GOES TO SENATE

SALEM, Feb. 6.—This is the last day for the introduction of the bills in the legislature without a three-fourths majority consent of either house. The total number of bills reached 797 today, and many more will be introduced when the order of new bills is reached late this afternoon.

In the house there are 100 bills now up for third reading. The house ways and means committee today reported favorably on Representative Forbes' bill appropriating \$500,000 for the completion of the old Columbia Southern irrigation project and on Representative Abbot's bill appropriating \$50,000 for the state to co-operate with the federal government in making a survey of the water resources of the state. These two bills are of large importance especially to Crook county and Central Oregon.

The workmen's compensation act, introduced by Representative Lawrence, has today passed the house, only two negative votes being registered. The bill was passed without amendment.

## SOLONS SHOULD AMEND PEOPLE'S LAWS; U'REN

SALEM, Feb. 6.—W. S. U'Ren, whose fame as an expert in law making by the people is undisputed, does not agree with those members of the legislature who take the stand that the legislature should not amend the laws passed by the people. In fact, Mr. U'Ren would like to have some of the laws passed by the people amended, and he asserted that the legislature, as a lawmaking body, should not regard the laws of the people as matters to be left untouched.

"Sometimes the people make mistakes," he said, "when the initiative was introduced that idea was carefully considered, and we thought that it might transpire that the legislature would enact laws with defects that need be remedied. The people might also make a serious mistake in passing a bill, and I do not see why the legislature should not change it."

## THIRTY REPUBLICANS TO FIGHT FOR OFFICES

WASHINGTON, Feb. 6.—Thirty republican senators met in caucus today and voted to continue the legislative session fight for confirmation of appointments by President Taft. As soon as the senate met Senator Lodge called for a legislative session.

## TOO MUCH WATER UNITED RAILROADS SAYS COMMISSION

SAN FRANCISCO, Feb. 6.—Over-capitalization is the reason assigned by the state railroad commission here today for turning down the application of the United Railroads to issue \$2,350,000 of six per cent five year bonds, and the application also of the Market Street Railroad company to issue, as collateral for these notes, \$2,150,000 in five per cent bonds. The commission further questions the legality of the alleged payment to Patrick Calhoun, former president of the company of \$300,000 back salary for four years at the rate of \$75,000 annually.

"No explanation," the commission says, "is made of this item, but it at once suggests the necessity of a thorough investigation to determine the merits of the company by the applicants of previous expenses of the United Railroads over a series of years."

The commission flatly charges that United Railroads operates on a free-lance finance basis.

## CANADIAN SHIPS TO CALL AT BAY CITY

VANCOUVER, B. C., Feb. 6.—According to a report to which considerable credence is attached the present C. P. R. White Liners Empress of India and Empress of Japan, pioneers in Oriental trade, will be routed to China and Japan from this port via San Francisco and Honolulu as soon as the new 16,000 ton steamers Empress of Russia and Empress of Asia, now being completed in England, are placed on the direct trans-Pacific run. Each one of the new C. P. R. steamers has a much greater tonnage than the entire three steamers now engaged in the C. P. R. Oriental trade.

This presages a lively competition with American lines for the rich export traffic as well as the possible permanent establishment of the C. P. R. liners as factors in carrying business originating far south of the present sphere of influences of the road.

## ASHES SCATTERED TO WINDS FROM TOP OF HIGH HILL

LOS ANGELES, Feb. 6.—Pursuant to his last wish, the ashes of Geo. H. Stewart, former president of the Los Angeles chamber of commerce, who died at Shanghai, are in Los Angeles today, to be scattered to the winds from some hill top. Stewart died suddenly while on a health-seeking trip.

WASHINGTON, Feb. 6.—It was announced at the department of justice this afternoon that Attorney General Wickersham approved the dissolution plan presented by the Union Pacific and Southern Pacific directors in New York.

## CERTAIN IS COIN FROM UNCLE SAM FOR PANAMA FAIR

WASHINGTON, Feb. 6.—Although the Rodenberg bill, providing \$2,000,000 for the Panama-Pacific exposition and a government fair commission of seven members, may not pass the house in its present form next Wednesday, there will be a government exhibit at San Francisco and the main purpose of the measure thereby will have been achieved.

This was the declaration her today of Representative Rodenberg the bill's author, and member of the California delegation who are fighting hard for its passage. The only California congressman opposing the measure is William Kent who objects to the appointment of seven men to the government's fair commission. He maintains that one man could do the work of seven in this instance and that the naming of the other members would throw needless expense on the exposition.

Representative Rodenberg says if the bill is rejected in the house it will be by a margin so close that it will ultimately pass as a senate amendment to the sundry bill appropriation.

## SURETY BOND OFFERED FOR RELEASE OF CLANCY

CHICAGO, Feb. 6.—Permission to file two surety bonds of \$60,000 each for the release from the government prison at Fort Leavenworth, Kansas, of Olaf Tveitmo and E. A. Clancy, San Francisco labor leaders, convicted at Indianapolis of unlawfully transporting dynamite was asked of the United States court of appeals here this afternoon by Defense Attorney Zoline. The courts original ruling barred the acceptance of surety bonds.

The court this afternoon, however, took the matter under advisement and probably will render its decision tomorrow. Bail to the amount of \$30,000 was submitted today for the release of H. W. Legleiter, of Pittsburgh, another of the convicted labor leaders.

## HARRIMAN STOCKS MAKE SLIGHT GAINS

NEW YORK, Feb. 6.—The stock market closed quiet today. The Harrimans were the only active issues to make gains, but losses were small. Compared with recent averages the business of the entire Wall Street district fell off nearly 50 per cent at the opening.

The copper group was weakened by a continual weakness of the metal abroad. Several low priced specialties were in good demand. Bonds were steady.

## SEGREGATION OF HARRIMAN LINES ACCOMPLISHED FACT

NEW YORK, Feb. 6.—Ratification of the United States supreme court's order for a divorce of the Union Pacific and Southern Pacific railroads was made at a meeting here today by the executive committees of both systems. The plan for dissolution was first presented at separate meetings and then received the unanimous support of both committees. It was said a statement giving details of the plan may be issued late this evening.

At a meeting of the executive committee of the U. P. earlier in the day William Averill Herriman, son of the late E. H. Harriman, was admitted to the directorate of the vast system of railroads built up by his father. He was elected a director of the Union Pacific to succeed H. W. DeForest, Frank Trumbull was elected a director to succeed Julius Kruttschnitt.

## PEOPLE VOTE AGAIN ON LIEUTENANT GOVERNOR

SALEM, Feb. 6.—Despite the adverse vote of the people last November, the legislature has ordered the question of creating the office of lieutenant governor to be placed on the ballot in 1914.

The senate today passed Speaker McArthur's resolution to submit the question, the house already having acted.

Approval of the governor is not necessary in the case of a resolution.

## TO STOP PLATTING OF DISTANT ADDITIONS

SALEM, Feb. 6.—A "blue sky" bill applying to real estate dealers, introduced by Senator Smith of Coos county, has today passed the senate. It fixes punishment for promoters of schemes who file plats of "city additions" that are located far from town on rocky hillsides, or other places such as may deceive the "non-resident buyer."

## TAFT IN MESSAGE FAVORS ALASKAN ROADS

WASHINGTON, Feb. 6.—President Taft today sent a special message to congress recommending the government construction of 773 miles of railroads opening Behring and Manataska coal fields in Alaska at a cost of \$35,000,000. He advised private operation of the railroads under a lease from the government.

## NERVY BURGLAR KEPT BOOKS ON WHAT HE STOLE

**Frank Kelly Caught Breaking Into Grocery Store Has Complete Set of Books Showing What He Stole, Its Value, and Where Secured.**

**Mysterious Robberies of Local Stores Expected to Cease With Locking Up of Young Man.**

A new wrinkle in criminal annals, in which a burglar systematically kept books on what he stole and what he expected to steal, has been unearthed by the local police force, in the capture of Frank Kelly, a young man of 23, who has resided some time on West Eleventh street. Officers Mego and Cady nabbed the man as he was attempting to break into Scheffelin's grocery on Central avenue.

Kelly, after his capture made a full confession and produced his "books." Here is found a list of all he has stolen, together with the dates on which he broke into the places. Opposite the list is the price of each. At his home at 710 West Eleventh street the officers found more than two wagon loads of loot. Kelly's list of stolen articles is unique. It looks like a bill for groceries and is very complete. Here is a sample page:

"Beacon Co. Defunct"  
January 24, 1913: 1 pd. salmon 15; 1 pd. mushrooms 25; 1 pd. asparagus 25; 1 can Postum 10; 4 cans oysters 60; 1 can shrimp 15; 3 cans elms 45; 6 tamales 75; 3 cans chicken 90; 2 cans canvir 80; 5 boxes candy \$1; 1 bx Cubanola cigars \$2.  
"Kid's Shoe Store."  
January 28: 1 pr Eng Hal Hanan tan \$5, 1 pr Weyenber heavy \$3, 1 pr Ladies Cof hose 25.

This is just a sample from his books. He has "accounts" with Warner Wortman & Gore, B. & C. Cash Store, Public library, where he stole oil, Big Pines Lumber company, and a number of orchard companies in the valley. He also had a list of what he intended to steal.

Kelly states that he knows nothing of the robbery of the Snake House Monday night.

The young man has made a complete confession covering all of his operations. He has not sold any of the supplies he secured.

## BEACH TAKES STAND IN HIS OWN DEFENSE

AIKEN, S. C., Feb. 6.—Frederick Beach, the rich New Yorker on trial here on a charge of trying to murder his wife in the yard of their Aiken residence, took the stand in his own behalf today. Beach reiterated the story he has told from the first, that a mysterious man attacked his wife, gashed her throat and tore her diamond earrings from her ears. He was quite cool on the stand and told an apparently clear story.

## DARROW IS FIGHTING INTRODUCTION EVIDENCE

LOS ANGELES, Feb. 6.—Further indication that the Darrow defense will fight vigorously any attempt of the prosecution to introduce testimony purporting to show the existence of a conspiracy to defeat justice during the McNamara trial was offered today when District Attorney Ford took over Witness Bert Franklin in redirect examination.

## ADMIRAL PEARY ILL; IT IS FEARED FATALLY

WASHINGTON, Feb. 6.—Following a mysterious operation Admiral Robert Peary is seriously ill at his home today. Peary's relatives and physicians decline to answer queries regarding the nature of his sickness or the operation. Grave concern is being felt here that his illness will prove fatal.
