

# UNMERGING PLAN HARRIMAN LINES IS DISAPPROVED

SAN FRANCISCO, Feb. 25.—Raising its stand on its objection to the breaking of the local system of the Southern Pacific within the state of California, the state railroad commission early today handed down a decision which practically defeats the plans for unmerging the Southern Pacific and Union Pacific railroads as arranged by railroad officials and Attorney General Wickersham. The principal petitions of the Southern and Central Pacific railroads for joint use of tracks and terminal facilities have in effect, been denied.

### Opposes Dissolution

The commission declared the proposed plan of dissolution would reduce the Southern Pacific to the position of an inferior line, that there would be one strong line and one weak line, and that the Union Pacific would dominate the Southern Pacific. The commission also flatly stated it would withhold its approval of the unmerging plan unless the Southern Pacific would agree to allow any competing road the same privilege or joint use of the Benicia line and terminal facilities upon similar terms which it proposes to accord to the Union Pacific. It also suggested if the federal authorities should insist on the divesting of the Southern Pacific of the main line of the Central Pacific to Ogdon, it would prefer to see this accomplished by a lease.

The commission's stand on the unmerging plans was sent to Attorney General Wickersham at St. Louis today in the following summary:

### Summary of Plan

"George W. Wickersham, attorney general of the United States, St. Louis: Commission approves application on the following conditions:

"First: The Union Pacific be limited to the line from Sacramento by way of Niles to Oakland as an exclusive line.

"Second: If Southern Pacific grants Central Pacific right to use the Benicia short line, it shall accord to all of the competing carriers like privilege on similar terms.

"Third: If Southern Pacific grants to Central Pacific joint use of terminal facilities and industry tracks it shall grant to any other competing line applying therefore privileges on similar terms.

"Fourth: Commission approves 999 year lease on line from Tehama to Oregon.

### Sale of Weed Line

"Fifth: Commission approves sale of California portion of line from Weed to Natron, Oregon.

"Sixth: Commission approves trackage rights over Bay Shore cut-off for a term of fifty years.

"Seventh: Commission reserves right to pass upon valuations for rental and sale purposes when arrived at under the method provided in the contract.

"Eighth: Commission imposes condition that Central and Southern Pacific shall file joint rates, which shall not exceed the rates now in effect between the same points upon the Southern Pacific within the state of California.

"Ninth: Commission provides, by agreement of the parties, that its approval shall not serve to revive or extend any franchise of companies involved. Although the commission deems this unnecessary, it was done on application of Oakland and Sacramento and by agreement with representatives of railroads.

### Railroads Pledged

"Tenth: Commission requires that railroads involved shall bind themselves to accept conditions imposed before order becomes effective."

Judge Lovett testified that imposition of conditions would require further negotiations and would defeat plan and requested that if the commission found such course necessary it indicate the terms upon which it would approve those matters within its jurisdiction. Accordingly in supplemental opinion commission sets out terms of its approval.

# RUBBER WORKERS DESERTING STRIKERS

AKRON, Ohio, Feb. 25.—Refusal by the Ohio legislature to investigate conditions in the rubber industry and failure of the state board of arbitration to bring the men and their employers together caused heavy desertions here today from the ranks of the strikers who are fighting the rubber trust for higher wages and better working conditions.

It is estimated that nearly 2,500 strikers today quit the ranks of the men thus reducing the number out to about 15,000. At the plant of the Goodyear Rubber company, one of the struck concerns, even the pickets deserted their lines and returned to work.

The officials of the rubber plants declare they will treat with their men individually but not as members of the Industrial Workers of the World.
