OHIO SOLONS PROBE RUBBER STRIKE AKRON, Ohio, Feb. 26.—Believing that an immediate probe by the state will aid their cause, the thousands of workers out here in a strike against the big rubber manufacturing companies plucked up heart to day and resumed active picketing. They believe the legislature will force the companies to agree to arbitration of their wage and working conditions dispute. More than 2000 strikers paraded this morning before the plants of the Goodrich and Diamond companies, urging the men employed there to throw down their tools and aid the strike. DOVE OF PEACE DESERTS TURKEY CONSTANTINOPLE, Feb. 25.—All hope that the European powers would agree to the proposal of the Porte voiced in London by Ibrahim Hakki Pasha that the Turkish retention of Adrianople should be the basis of a new peace proposal to the Balkan allies vanished here today with the receipt of news from the Turkish ambassador in London that the powers were indisposed to intervene. The war party here, however, shows no diminution in its zeal and the probability of a long fight is stronger than ever. Owing to terrific winter weather which grips the whole Balkan front, serious fighting is improbable, for some time. Skirmishes are reported daily, but none of them so far has been of great importance. MRS. JONATHAN BOURNE SEEKING A DIVORCE? Two thousand persons have been driven from their homes today and heavy property damage has been done, the result of floods following the recent heavy rains. Sluice gates connecting the Venice canal system with the ocean have been dynamited to permit faster flow of the water that is piling up, but little relief has been afforded. A lake almost five miles wide extends from the northwest limits of Long Beach to the Wilmington Harbor. A dozen manufacturing plants in Long Beach are menaced. Between Long Beach and Los Angeles, in the vicinity of Compton and Clearwater, many thousands of acres of beet land are submerged. Scores of ranchers have been compelled to move to the upper floors of their homes. Street car traffic in Los Angeles is crippled as a result of the storm. Phone 3681, 290* HOUSE MACHINE GETS FIRST REAL DEFEAT OF SESSION SALEM, Feb. 26.—The house machine, led by Speaker McArthur, sustained its first real defeat of the session, after a battle lasting practically all day yesterday upon S. B. 292, which gives the governor power to appoint special officers to replace district attorneys who are delinquent, one of West's moral reform measures. The issue was clean cut, machine politics vs. moral legislation, giving the governor power to enforce the laws, and the machine went to pieces after a hard fight. The bill was permitted to pass the house Monday by a vote of 32 to 18. Monday evening, however, it offered such a fine opportunity to cripple the governor's moral reform fight, and "put him in the hole," that the organization leaders decided to chastise the governor. No sooner decided than they put it into effect by rushing through the house at a night session by wierd parliamentary tactics a motion to reconsider. At the time many of those known to be the stoutest supporters of moral crusade bills were absent, including Honebrake of Benton, and it was considered a moment of great strategic value. The motion to reconsider after a lengthy debate was defeated by a vote of 28 to 24. In the afternoon a second effort was made to reconsider. Reames raised the point of order that it could not be reconsidered a second time without a two-thirds vote and the debate lasted all afternoon, ending in the route of the machine.
