### Wan, Weary and Worn Out

If You Feel Fagged to a Finish and Utterly Used Up Here is Quick Relief.

Don't Be Chained to the Hitching Post of Wearyland. Half the people you meet complain of weary muscles, stagnant brain, jangled nerves, and a mournful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn out feeling is due to poor blood, to bacteria in the water you drink, to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.
