POLICE BULLETS KILL WOMAN IN TWINE WORKERS' STRIKE

AUBURN, N. Y., April 5.—State troops are on guard tonight at the plants affected by the twine workers strike where serious riots occurred today. During the rioting the police poured a volley into the mob seriously wounding four persons, one being a woman. A conference of strike leaders and employers called by Mayor O'Neill was deferred because the state mediator whose presence is desired could not reach here in time. When found there was no prospect of settlement tonight the sheriff called upon the local militia company to do patrol duty. The riot was at the Columbian Rope company works where the police fired a volley and was followed by an attack on the International Harvester company's plant. None were seriously injured here. About 1700 men are striking for higher wages.

EAGLE POINT EAGLES

By A. C. Howlett.

Mr. Ash, proprietor of the Trail House of Trail, came out Saturday and stopped with us over night, then went to Medford and bought a load of supplies, returning Monday. John Greives, one of our ex-assessors and now supervisor of the Prospect road district, came in Monday evening and spent the night with us. He was on his return trip from a visit to Ontario, Canada, where he had been visiting relatives. He said that on his return trip he had just kept ahead of the blizzards and floods. He took the P. & E. car for Derby Tuesday. I omitted to state in my last that Mr. and Mrs. J. B. Saunders, Mrs. C. A. Saunders and Mrs. W. A. Furry of Ashland were pleasant callers at the Sunnyside last Sunday. Mr. Saunders, Sr., was here inquiring for the location of a tract of land that he was thinking of purchasing. All that he had to do was to take the number of the section, etc., and look on the abstract map put out by the Mail Tribune as a premium for subscriptions and there he found just what he was looking for. Mrs. Furry formerly lived in this neighborhood, being the daughter of Mr. and Mrs. S. A. Potter, now of Ashland.

St. Claire Rooms of Medford and M. F. Sanders also of Medford were guests with us Monday night. They had come out to log at some property in this section. Mr. E. S. Hitzler, formerly of Table Rock but now of Medford, came out last Monday and engaged a room and board at the Sunnyside. He is engaged grafting trees for L. K. Hawk in an orchard tract about a mile above our town. I omitted to state that the bid for the ten thousand bonds was opened last Saturday night. There was but one bid put in and that was to take the bonds at par, but the council was asked to pay for certain legal investigations there were to be made. The bid was rejected and so will have to be readvertised. Prof. Henry went up to Butte Falls.

No Longer Do Women Fear The Greatest of All Human Blessings.

It is a joy and comfort to know that those much-talked of pains and other distresses that are said to precede child-bearing may easily be avoided. No woman need fear the slightest discomfort if she will fortify herself with the well-known and time-honored remedy, "Mother's Friend."

THE OCCASION IS THEREFORE ONE OF UNBOUNDED JOYFUL ANTICIPATION, AND TOO MUCH STRESS CAN NOT BE LAID UPON THE REMARKABLE INFLUENCE WHICH A MOTHER'S HAPPY, PRE-NATAL DISPOSITION HAS UPON THE HEALTH AND FORTUNES OF THE GENERATION TO COME.

Mother's Friend is recommended only for the relief and comfort of expectant mothers. Thousands of women have used and recommended it. You will find it on sale at all drug stores at \$1.00 a bottle. We have a beautiful place for a park and it is well shaded but will stand to have some more trees planted. It is under a ditch and the soil will produce almost anything that will grow in this climate and by a little care and labor can be made very attractive.

Geor. A. Gwan, a prosperous farmer and stock raiser, living west of our town on Rogue river, was here Saturday and while here paid me for a year's subscription to the Weekly Mail Tribune. Speaking of the Mail Tribune, I see by looking over my list of subscribers that since January 1st, 1913, I have issued 29 receipts and 13 of them are to new subscribers, and some have subscribed that have not paid up yet but will soon. The people

are beginning to realize that if they want to keep posted they must have and read a reliable newspaper that gives all the news all the time.

Henry Meyer of Lake Creek was here Saturday. He brought in a lot of truck from his farm. Ed Dutton took a load of lumber out from the Eagle Point Lumber yard the other day to improve his place.

MELANCHOLY WOMEN

Should Profit by Mrs. Hurley's Experience—Her Own Story Here Told.

Eldon, Mo.—"I was troubled with displacement, organic inflammation and female weakness.

For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased once a month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world.

"After I had tried most every female remedy first, without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

The Great Centipede EDUCATIONAL—INSTRUCTIVE

The centipede is a well known venomous and vicious insect which derives its name from the number of its legs. It is the terror of all other insects, being capable of paralyzing them. Its bite is poisonous to human beings so that, although it is not a good thing to meet personally, a study of its nature on the screen is profitable and entertaining.
