JOLTS AND JINGLES By Ad Brown

One thing about Medford's street cars, they haven't broken any speed ordinances.

Contributed. "There's a hen on in the council meeting. I hope it lays a pavement on the bridge."

Another. My wife tried her new vacuum cleaner on my clothes and cleaned out my pockets.

Could one say his onion bed is coming strong?

Sure you could say it, but it is an old one you are springing.

Any Difference in Size? Some mistake as to Robbie Brown felling a tree on his foot and mashing it beyond repair. It was his boat.

PRIZE IS OFFERED FOR ESSAY ON ROADS

From the office of public roads, United States department of Agriculture, Washington, D. C.

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, director, office of public roads, United States department of agriculture, Washington, D. C.

After many years experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of roads is as much the cause of their bad condition as any other one factor.

Many children living in the rural districts have experienced the disadvantages of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest among the parents.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name, age and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page.

PRECOOLING PLANT IS DISCUSSED BY LOCAL FRUITMEN

A gathering of over 100 orchardists discussed plans for a precooling plant for the Rogue river valley Saturday afternoon and while no definite action was taken considerable momentum was given the movement.

A committee was appointed to see what could be done in the way of ways and means to report at a later meeting to be held in May.

A precooling plant of suitable size will cost in the neighborhood of \$40,000. Bonds for two-thirds of this amount could be sold, the additional one-third raised locally.

MRS. PANKHURST TOO WEAK TO SIT UP

LONDON, April 14.—Too weak to even sit up in the nursing home, where she is being cared for, Mrs. Emmeline Pankhurst, the suffragette leader, is declared to be in a critical condition today.

It is declared that if Mrs. Pankhurst continues her hunger strike and is released to recuperate every time her life is threatened by starvation, she will still be a prisoner when her natural death occurs.

ALL MISS ED ROOT.

Few men go down to the dark valley more sincerely mourned than Ed Root—janitor and newsboy—who passed beyond at Medford on Saturday of last week.

The writer also knew the heart of Ed Root. Knew him as a friend of the friendless. Not a stray kitten or a homeless dog went unfed or uncared for when Ed was near.

"FIT FATE FOR GIRL RAVISHER"

CHICAGO, April 14.—"This is a fit fate for the beast who ruined a young girl. He will ruin no more."

This note, found today by the bedside of George Dietz, a rich ladies' tailor, was the only clue to one of the bloodiest murders which has stirred Chicago in years.

Dietz's skull was beaten to a pulp and his body pounded with a hammer until it was a mass of bruises and broken bones. The rear door of the Dietz apartment was unlocked and stood ajar when the police arrived.

ANTI-ALIEN LAND BILL SURE TO BECOME A LAW

SACRAMENTO, Cal., April 14.—With the majority of both houses of the California legislature today endorsing that anti-alien land measure with "teeth in it" will be passed at this session, a sharp clash is nevertheless scheduled over one important point of divergence between the senate and the assembly committee substitute bills.

This relates to the provision covering corporations controlled by foreign capital. The senate measure, on the files for final action today, is far more drastic in this respect than the assembly judiciary committee substitute for the four lower house bills.

The former declares that any corporation the majority of whose capital stock is controlled by aliens shall have the same status as an individual alien and shall not be permitted to own land for more than one year unless by that time the foreign subjects shall have declared their intention of becoming citizens.

The assembly bill, on the other hand, exempts corporations controlled by eligibles to citizenship, even though they have no intention of becoming citizens. It limits the provisions of the proposed act as far as the corporation clause is concerned, to "aliens who are ineligible to become citizens of the United States under the naturalization laws."

Fearing that many European investors would withdraw their capital if compelled to declare their citizenship, the assembly judiciary committee, which drew up the substitute measure, incorporated this more lenient provision than the senate committee. And for this reason administration leaders in the lower house were declaring today that every stress would be used to pass the assembly bill instead of the senate measure.

"It seems to me a certainty," said Assemblyman Stanley Benedict, floor leader of the Los Angeles delegation, "that if we compelled the English capitalist who resides abroad to own land in California to become a citizen here in order to hold this land he would withdraw his money in a minute. We don't want to legislate against such men."

Another point of difference between the upper and lower house bills is that the former would permit aliens to lease agricultural land for three years and the latter for five, neither permitting the sale or transfer to succeeding aliens, either after the one year's ownership or period of lease.

ATTEMPT MADE TO SLAY ALFONSO BY AN ASSASSIN

MADRID, April 14.—Scores of secret arrests were made here today following the attempt on the life of King Alfonso by Rafael Alego. Alego denied having any accomplices or membership in any nihilistic organization.

The assassin fired at the king while the latter was returning to the palace from a military review. Alego seized the horses' reins and aimed point blank at Alfonso. As the assassin fired the king spurred his horse, it reared and the bullet was buried in the animal's thigh. Before Alego could fire again he was overpowered. The pistol was fired so close to the king that it buried his glove. Alfonso continued on his way to the palace amid the plaudits of a great crowd that had gathered.

A Good Prescription For a Long Life.

This is the prescription for a long life given by an old gentleman in Conn., who is 95 years old and still well and cheerful—"Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and above all keep cheerful."

Should the system get run down—digestive organs weak—the blood thin and sluggish take Vinol, which is a delicious combination of the medicinal—body building properties of cods' livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body builders and strength creators in the world for aged people.

Mrs. Mary Ivey of Columbus, Ga., says: "If people only knew the good Vinol does old people you would be unable to supply the demand; it is the finest tonic and strength creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction. Medford Pharmacy, Medford, Ore.
