Five hundred thousand dollar Gravity Water System completed, giving finest pure water, pure mountain water, and 17.5 miles of streets paved.

JAP FISHERMEN BARRED BY ALASKA

JUNEAU, Alaska, April 30.—With the federal government too busy with the proposed anti-alien law in California to head it off, the territorial legislature took a direct slap at the Japanese here in re-passing the anti-alien fishing bill, which is today in the hands of the governor.

The bill which is introduced by Representative N. J. Svindeth of Wrangell is designed to bar Japanese fishermen from Alaskan waters. It was pointed out that the Japanese have rapidly increased their operations along the coast in recent years. The bill was passed unanimously by both houses a month ago, but on April 4th, the senate re-considered the measure to await legal advice, passing it again Tuesday. After the bill was passed a message was sent to Governor Johnson of California informing him of the action.

INTERESTING ADDRESS TO BE DELIVERED TONIGHT

Albert Parker, one of the leading men of the Methodist Episcopal church, will give a free lecture at the church tonight at 8 p. m. that will be well worth your attending. He will discuss the "Eastern Question" from a religious, political, social and business standpoint and having been a missionary in India, also superintendent of the work in that country, as well as pastor of some of the leading churches in the middle western states, he is in a position to know from experience and observation what he is talking about.

Mr. Parker is a young man, full of life and love for humanity and is doing special work on the coast for the church. He spoke at the conference in Grants Pass a few weeks ago and several of the people here heard him.

MRS. STREETS HOSTESS FOR MR. AND MRS. HOY

On Tuesday of this week Mrs. F. W. Streets was hostess at dinner at her home at 621 11th street west, in honor of Mr. and Mrs. George H. Hoy of Woodstock, Ill., who are making an extended trip of the South and Pacific Northwest.

Those present to welcome the visitors were their former Illinois friends, Mr. and Mrs. D. W. Stone of Central Point, Mr. and Mrs. E. E. Bagley of Ashland, Judge and Mrs. O. H. Gillmore of Rogue River, Mr. and Mrs. C. W. Nims, of Ashland and Mrs. F. C. Page. Other invited guests were Mr. and Mrs. D. W. Luke, Mrs. Williams of Grand Forks, North Dakota, now visiting Mr. and Mrs. Luke, Mr. and Mrs. H. C. Kenter, Mr. and Mrs. W. H. Brown and Mr. and Mrs. Stuart Saunders of Ashland, Mr. and Mrs. J. C. Schmidt.

MORE ROOMS NEEDED FOR I. O. O. F. CONVENTION

At the I. O. O. F. convention to be held here May 20 to 22 the local lodge expects 1000 to 1500 delegates and as the hotel and rooming houses cannot accommodate all these people it is necessary to secure rooms in private families for a large number and the lodge is advertising in the papers for rooms and so far have had very little success. Unless the people open their homes to these visitors the lodge will be greatly embarrassed and the town will get a black eye. Medford people have always been hospitable and surely will be this time. Delegates will pay for their rooms. Clip the coupon in this paper, fill it out and send it in as requested.

CALIFORNIA STANDS PAT.

SECRETARY BRYAN'S mission to California to prevent the passage of the anti-alien land bill has resulted in flat failure—as it should and as Mr. Bryan probably thinks himself. It is true the objectionable phraseology is changed but the bill is altered only in form and not in substance.

President Wilson objected to the phrase "aliens ineligible to citizenship" shall not hold land, the bill declares that "aliens eligible to citizenship" shall be allowed to hold land. The difference is that between Tweedledee and Tweedledum.

The people of California have every right to bar ineligible from land ownership. Arizona and Washington have already done so. The United States has done so, in the case of District of Columbia and the territories. Japan has a similar law, so have other nations. There is no cause for offense, no cause for war, because a people rule regarding their property. There is no reason for Japan to feel aggrieved at California, if not aggrieved by Arizona and Washington.

California merely declares that only citizens or those eligible to citizenship under the federal laws shall own land in the state. What is there to become offended about in that?

Japan will not go to war. Japan is in no condition to make war. Japan is financially embarrassed. Japan could not borrow the money for such a war. Japan has burdened her people with taxes as high as they can struggle under. There is no danger of war.

But if Japan should decide on war—better for Americans to fight in a just cause than to accept the dictation of an ineligible race of aliens.

Exposition and commercial interests are as usual to the front with a plea not to enact beneficial and needed legislation. This is the usual relapse into dollar diplomacy—the placing of the immediate dollar before the welfare of the people. The appeal should not be heeded.

BENEFITS OF THE PROTECTIVE TARIFF.

THE report of the Ways and Means committee on the Underwood tariff asserts that since 1897 the wholesale prices of all commodities used by the American people have advanced an average of 47 per cent. Some of the prime necessities of life have advanced much beyond that average. Farm products have increased 93 per cent in price. Other food products have increased 47 per cent. The increased cost of clothing is 36 per cent and house furnishings 24 per cent.

At the same time there have been growing up under the protective tariff laws trusts dealing in the necessities of life. The Underwood report names 224 of these industrial combinations with a total capitalization of nearly nine billion dollars.

Another effect of prohibitive tariffs cited by the report, is the resultant waste of the natural resources of the United States—resources, which when once exhausted, can never be restored. With foreign timber, ores and minerals barred from importation by prohibitive duties, we have been exhausting our own at a ruinous rate.

While industries within the country are rapidly becoming monopolized and competition is being smothered, there has been no spur of foreign competition to make trusts adopt the most efficient manufacturing methods. Obsolete plants, old machinery and out-of-date methods, which have practically been eliminated in foreign countries, exist in this country.

Hence the tariff, by eliminating foreign competition has not only increased the cost of living, flooded the land with inflated securities, exhausted natural resources, but has actually fostered inefficiency and incompetence.

The Excursion to Crater Lake by the International Geographers Sept., 1912

Written for "Annales De Geographie" by Dr. Emmanuel de Margerie, Late President Geological Society of France. (Translated from the French by P. J. O'Gara.)

(Continued from Yesterday.) Here are some of the more important facts concerning the crater itself and the lake which it embraces: The greatest diameter in an east and west direction measured from shore to shore from the foot of The Watchman to Redcloud cliff is about 8800 meters; the smallest diameter following a direction almost at right angles to the above, from Puncie point to Eagle point, is 6800 meters. The circumference is approximately 30 kilometers, although to make the tour of the rim on foot would make the actual distance 54 kilometers.

The water, shallow in the western part, where an island of cinders and scoria, Wizard island (2114 meters above sea level), rises 232 meters above the surface of the lake, is elsewhere very deep, the bottom sloping rapidly downward. The greatest depth noted in the eastern part, opposite Skull Head, is not less than 608 meters. This depth, which is almost identical with the measurement of the highest point of the rim. Glacier peak, which rises 603 meters above the surface of the lake, gives a total depth of 1211 meters for this enormous crater. The bottom of the crater is, therefore, 1274 meters above sea level.

The interior slopes or walls of the crater, parts of which are wooded, are extremely steep, and rise almost everywhere as unbroken cliffs, making it almost impossible for one to get a foothold. However, one may reach the water's edge quite easily by following a zig-zag path which leads from Crater Lake Lodge to Eagle cove, where tourists may find

ESCOLA INDICTED FOR TAKING BRIBE

SAN FRANCISCO, Cal., April 30.—On the charge that he accepted a fourth part of \$800 from Michael Gallo, a convicted Italian bunco man, to "hush up" the swindling of Mrs. Pellini, an Italian woman of this city out of \$5300 by Gallo and others, Police Detective Frank Esola is indicted today by the grand jury here. The indictment followed direct charges by Gallo, who is now serving a term in San Quentin for swindling operations here. Gallo declared that Police Detectives John H. Sullivan, Louis Droulette and W. F. McHugh were given their demand of \$800. The indictment of the other three men named is also expected.

EAGLE POINT EAGLETS

Mrs. Henry Meyers of Lake creek who has a son attending school here, and boarding at the Sunny Side, came out last Friday afternoon to take him home and while here met Mrs. E. Packard and son of Medford, and they went up home with her to spend a few days.

Last Friday Mr. and Mrs. Perkins, Mr. Earl S. Tunny and Miss Horton all of Medford called Mrs. Howlett up on the phone and ordered dinner for about five p. m. and about that time put in an appearance, spending an hour or so at the Sunny Side and along the banks of our beautiful Little Butte creek. They seemed reluctant to leave the place and after paying a compliment to the author of the Eaglets, promised to come back again in the near future. Speaking about the banks of our Little Butte creek, I see that some of those who are in the habit of fishing in the stream are meeting with considerable success in that line of sport.

Prof. George O. Henry who is engaged in teaching school in the Ed Higginbotham district, and has a homestead in that neighborhood, was a pleasant caller Friday night and so was Prof. George W. Ager one of the school supervisors here the same night. They had a pleasant meeting, both taking the train Saturday morning for Medford.

Alex McCabe and D. R. Patrick were callers at the Sunny Side Saturday for dinner and so was Herman and William Newbann of Lake creek. Thomas Vestal was among us Saturday doing business with our merchants.

I am sorry to have to announce that Mr. L. Keiso who has been living for several years on Big Butte creek on the Prospect road for several years, had the misfortune to have his home and its contents burned last Tuesday, April 21, there was no one at home except his wife and she was not able to save much of anything from the fire.

The J. J. Fryer Ditch company held their annual meeting in the town hall last Saturday and elected Floyd Pierce as president, G. W. Waunsley business manager, and Norman McQuoid, secretary.

Among our visitors to Medford last Saturday were Mr. and Mrs. Wm. G. Knighton, Mrs. A. C. Howlett, Thomas Abbott and H. O. Childreth. Visitors from Jacksonville were Mrs. Chauncey Florey and her little daughter, J. N. Dodge of Medford and Wesley Sage of Table Rock, the latter two came in Saturday morning.

The greater portion of the steep slopes of the crater is bare rock showing varying colors of rose and gray; there is very little debris excepting to the northeast, where the peaks are highest. Andesite, associated with tuffas and breccias, is the dominant rock, and forms a great number of successive, regular and parallel strata whose inclination away from the crater is slight though well marked. Above, in places, we find a massive light colored rock, dacite, which is broken into vertical prisms whose lines of separation from the underlying rock are very definite. This dacite forms, notably on the north, the abrupt wall of Liao rock, the mass of rugged crest and the summit of Redcloud cliff. Some great vertical dikes, the Devil's Backbone, not far from Glacier peak, descend to the water's edge. Finally, a certain number of basaltic cones are found scattered over the exterior slopes of the volcano. The lava flows found on the somber pyramid of Wizard island are also of andesite.

A last feature which completes the physiognomy of the crater is the abrupt way in which the many small divergent notches have been cut in the rim of the crater, such as the two canyons to the southeast which isolate massive Dutton cliff. It is very evident that at the time these passages were hollowed out there existed above a large mass of material and a living force—water or ice—which today has disappeared.

Mr. and Mrs. Dick Vincent of Founsee Rock were recent visitors to the valley. Mr. and Mrs. John Smith were the guests of Mr. and Mrs. Aaron Smith several days last week. Rube Johnson called on Perry and Ed Foster Sunday.

Mr. and Mrs. T. G. Rainey and Mr. and Mrs. Frank Miller and Miss Ora Rainey spent the week end with Mr. and Mrs. Jasper Hannah. Mrs. Rainey remained several days to visit. Everett Hannah went home with Mrs. Miller for a few days. Dr. Kirehgesner made professional trips to I. Honston's and W. McCredie's near Jacksonville this week.

Ed Foster and Henry French were shopping at Eagle Point Friday. The McDonalds passed Saturday on their way to take possession of the Johnson ranch at the mouth of Elk creek which they recently bought of the Johnson brothers. Norman Gage accompanied by his twin sister, Miss Mary, went to the valley.

Mrs. Mary Cornish went to Central Point Friday to visit friends. She is a lady 77 years young. She has been traveling alone since October 2, 1912, and has visited in Iowa, Southern California and Oregon. She will leave for Iowa May 11 and thence to her home in Philadelphia, Pa. She will be accompanied as far as Omaha by one of her old time friends, Mrs. Maria Purkeyade of Medford.

Joe Hannah and sister, Miss Mia, were visiting friends in Medford a few days ago. Rube Daw was in Eagle Point Wednesday. Mr. Henry, school supervisor, visited the Dry creek school a few days ago.

Miss Darby, the teacher in the Dry creek district, spent the week end with home folks on Griffin creek. Mrs. Jasper Hannah went to Central Point Friday evening. Mrs. Rainey returned to her home in Central Point after spending a week with her daughter, Mrs. Jasper Hannah.

Will Honston went to the valley Friday. A. A. Hall and son Ruby went to Central Point Friday after supplies. Mr. and Mrs. Frank Castor have moved home after a couple month's stay with her father, Mr. Munter. Mrs. Castor and baby have recovered from the severe attack of whooping cough.

Every Child Should Be Given this Tonic

When children have no appetite; when they are continually peevish and irritable; when they are restless in their sleep, it is almost a certain indication that their digestive organs are troubled with worms or other parasites. This is a very common ailment and easily remedied. Physicians will tell you that nearly every child is so troubled at some time and, in fact, many adults suffer in the same way. Among adults this trouble is invariably referred to as indigestion, when in reality it is due to a small parasite which infests the intestinal tract.

For children, Jayne's Tonic Vermifuge is unsurpassed, as it is not only destructive to these parasites, but completely removes the nests in which their young are deposited. Seldom does it purge, and the improvement in the health of the child will be the first and best indication of the beneficial results of the medicine. Not only will the Vermifuge destroy all the parasites, but its wonderful tonic effects will restore the digestion which has been impaired.

For children, the addition of a little sugar will make it so palatable that they will take it readily. Millions of parents have praised it for more than 80 years. Insist on Jayne's; accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

Praise This Remedy For Consumption

If the voluntarily written words of grateful people living in all parts of the country, praising Eckman's Alternative, a remedy for the treatment of coughs, colds, throat and lung troubles, are to be believed, this medicine is certainly doing a vast amount of good for such sufferers. We state none but facts, and give to you the names and words of praise of those who declare it benefited them—in many cases compiled with the writers' statements that it restored them to health. This is a sample taken from many:

St. Mary's Academy, O'Neill, Nebraska. "Sister Mary. About seven years ago I was attacked with the dread disease, Tuberculosis. I coughed incessantly, could not sleep, my eye could not speak out loud and could do no work. I had three hemorrhages, raised blood from the time and suffered of night sweats, fever and chills. A specialist of Columbus, Ohio, pronounced my case hopeless. "Nearly five years ago I heard of your Alternative and procured some at once, with the result that I soon found myself restored to health. For the past four years I have been able to continue my teaching, and though I have always had heavy school work, I am also able to perform much manual labor. I consider your medicine, if faithfully taken, a most excellent remedy for Consumption. Mother Superior permits this testimonial. (Signed) SISTER MARIE.

Sisters of St. Francis. "Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit forming drugs. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

ON THE FACE OF IT

Mother should be photographed, but—Mother thinks only of the children when she thinks of photographs. Perhaps she'll need persuading—perhaps will call it vanity, but her pictures will prove she is still a beauty—will be in greater demand than those quaint pictures of younger days. Make an appointment for her. H. C. MACKAY East Main and Central Medford, Ore.

Draperies

We carry a very complete line of draperies, lace curtains, fixtures, etc., and do all classes of upholstering. A special man to look after this work exclusively and will give as good service as is possible to get in even the largest cities. Weeks & McGowan Co.
