

DIVORCE MILL GRINDS OUT FIVE SEPARATIONS TODAY

This was divorce day in the circuit court at Jacksonville and five cases were disposed of before noon.

No appearance was entered on behalf of any of the defendants, all the plaintiffs claiming on the ground of desertion. The non-appearing defendants were represented by the state in the person of the district attorney, and the witnesses were subjected to a searching cross-examination by that officer and by Judge Calkins.

Three male parties to the matrimonial contract claimed more than a year's abandonment of the home on the part of the so-called better half, while two women claimed willful desertion on the part of the husband.

Two of the marriages were childless; in all of them there was no real or personal property involved. One marriage, the result of a matrimonial agency ad, failed utterly of domestic happiness after a month of married life. In this case the papers filed by the attorney for the plaintiff some what confused the name of defendant and the court was unable to determine just who the plaintiff wanted a divorce from. The decree in this case was held up until the plaintiff could correct the tangle of names to the satisfaction of the court.

The plaintiffs in the following cases were awarded decrees except in the White case, which was help up: Edmund D. White, vs. Ethel D. White.

Helen E. Curtis vs. William C. Curtis.

Martin Carlson vs. Mattie Carlson. Nona V. Dunlap vs. Wilford Dunlap.

James A. Reese vs. Maggie Reese. Judge Calkins issued a call for the grand jury for July 18th, upon the request of District Attorney Kelly and the grand jury will in all probability be convened for one day to lieve the jail of four or five bound over prisoners who are anxious to enter pleas of guilty and take their sentences.

AVIATOR'S NERVE SAVES SELF AND FRIEND

MUSKEGON, Mich., July 12.—Glenn Martin's steady nerve and perfect control of his hydro-aeroplane in which he was making the Chicago-Detroit cruise probably save his life late today when the machine developed carburetor trouble and forced a quick descent in Lake Michigan.

Martin, with his passenger, Charles Day, flying seven hundred feet above the water when the air valve dropped from the carburetor. Martin volplaned to the surface of the lake making a perfect landing two miles and a half from shore. He started the engine again in a few minutes reaching the shore under his own power. Martin said his machine was undamaged, and would resume his journey tomorrow.

LOS ANGELES COURT REVERSES DEPORTATION

LOS ANGELES, July 12.—An order from Secretary of Labor Wilson was reversed today by Judge Wellborn of the federal district court here. The judge scored the immigration officials who appeared against the Japanese, arrested originally on a disorderly charge saying such methods could not be tolerated.

NO PLACE TO DOCK PROVIDED FOR WARSHIP

BREMERTON, Wash., July 12.—Notice was issued at the flag office of the Pacific reserve fleet today that the failure of Commander C. J. Lang, of the cruiser Chattanooga, to stop at South Bend, Wash., on July 5, as previously arranged, was due to the citizens there having neglected to make provision for a place to dock. It is denied that Secretary Daniels has ordered an investigation.

ENDEAVORERS TO MEET IN CHICAGO

LOS ANGELES, Cal., July 12.—Committees and commissions of the International Christian Endeavor convention are trying today to conclude their business before Monday, the final day of the convention. Almost double the usual number of section and committee meetings were held today. It is believed that the business of the convention practically will be wound up before tonight.

Chicago will be the scene of the 1913 convention. The Illinois city was chosen after a spirited opposition from Winnipeg, reinforced by the Toronto delegates.

The usual convention parade featured last night's activities. Six thousand Endeavorers, marching by states, many of the delegations in uniform, traversed the streets.

Tonight the convention grand concert will be given. Billy Sunday will deliver his nightly exhortation at Temple Auditorium.

SAN DIEGO LEASES LAND TO FARMERS

SAN DIEGO, Cal., July 12.—City draughtsmen are at work today on the city farm, dividing it into five acre plots, which are to be leased direct to prospective poultry raisers and gardeners.

The rental rate has not been fixed, but it is the idea of the city council to have the rental yield a return of about five per cent yearly on land values.

About 5000 acres are available for sub-division. The work will be done on a 2000 acre flat first. Holders of the land will not be allowed to sub-lease.

MULHALL SAYS

(Continued from Page 1)

the National Association of Manufacturers, issued a statement that Robert McCarter had been retained as counsel for the association.

Mulhall on Stand

Mulhall then resumed his testimony, begun last night. He identified a letter from Marshall Cushing, secretary of the Manufacturers' association, written in 1904, accompanying a check for \$200. Cushing warned Mulhall to "be careful in cashing" this check. The witness said the money was used in "A-1222 congressional district."

In September, 1904, Cushing wrote Mulhall that thereafter he would receive every Friday a check which he retained his connection with the "Workmen's Protective Association," an organization he had joined to work for the republican ticket. Cushing sent him \$100 a week, besides \$40 a week for expenses. Mulhall testified. At that time, Mulhall said, the manufacturers were fighting United States Senator McComas, of Maryland, and Cushing employed C. M. Downs, the senator's private secretary to furnish the manufacturers with copies of McComas' private correspondence.

Aldrich Knew It

Mulhall stated positively that former Senators Aldrich and Foraker, with whom he worked, knew at all times that he was employed by the manufacturers, although he was head of the Workmen's Protective association.

"In 1903," Mulhall said, "I left the union to which I belonged, and took with me a paid up union card. I did not try to hide from the heads of the union the fact that I was with the National Association of Manufacturers. I was under the impression that the officers of the American Federation of Labor knew I was working for the Manufacturers' association."
