### DEUEL PREDICTS OPTIMISTIC FUTURE

P. K. Deuel, financier and merchant, has returned from a two month's trip to eastern centers, much impressed with the feeling that an era of prosperity for the entire nation is in sight. He says: "I visited Chicago, New York and Philadelphia, and found an optimistic feeling everywhere. Good crops are reported throughout the country. Had it not been for the drought, they would have harvested the greatest crop in history in the middle west. As it is, they will harvest an average crop, save in portions of western Kansas and Nebraska where hot winds shriveled up the corn and even blew it out of the ground. "Money is easier in the east and all are predicting better times, as soon as the tariff and currency questions are settled and business can adjust itself to settled conditions. The crops are good, and they form the basis of prosperity."

### BOX FACTORY AT ROGUE RIVER

The Benton Lumber company of Redding, California, has purchased the old Dr. Fowler tract of 4500 acres of timber land on Footh creek of M. J. Rougham of Chicago for \$100,000 and will begin the construction of a \$25,000 fruit box factory in the near future. The factory will be located in Rogue River and a lumber railroad 7 miles in length will be constructed from the town up Footh creek to the heart of the timber. The transaction involves \$150,000.

The tract has been on the market for some time and at one time a sale was nearly consummated when Rogue River offered a bonus of \$10,000 to the purchaser if a mill were constructed in that place, but it is believed that this bonus does not apply on the present sale. There are about 250,000,000 feet of timber on the property, fir pine and some spruce.
