

SULZER FOUND GUILTY AND IMPEACHED

DECAPITATION GOES THROUGH PER SCHEDULE

Two-Thirds of Impeachment Court Against Governor—Only Final Vote Remains to Be Taken, But It May Be Delayed Until Tomorrow.

Rumor Asserts That Sulzer Can Command But Fourteen Votes on Question of Removal.

ALBANY, N. Y., Oct. 16.—The Sulzer impeachment court this afternoon found the governor guilty on the first of the impeachment articles against him, in which he was charged with filing a false statement of his campaign expenses.

ALBANY, N. Y., Oct. 16.—The galleries were packed with spectators this afternoon when Chief Justice Cullen of the court of appeals called the Sulzer impeachment court to order for a final vote on the question of removing the governor. Senator Argeton, the first to vote, favored a verdict of guilty. Judge Bartlett, next on the roll, was for acquittal. Senator Brown, republican leader in the upper house of the state legislature, voted guilty. Brown explained his vote briefly, saying he considered Sulzer's failure to take the stand in his own behalf a confession of guilt.

Chase Votes Not Guilty

Judge Chase, the second member of the appeals bench to cast his ballot, voted not guilty. There was no question of Sulzer's moral guilt, he remarked, but he did not regard that as sufficient to warrant a verdict of guilty.

The Tammany senators voted solidly for conviction.

Judge Cuddeback voted guilty. Chief Justice Cullen's vote was for acquittal. He said he was convinced Sulzer used his candidacy to enrich himself and knew when it was filed that his account of his campaign expenses was false, but he held that he could be impeached for neither of these offenses.

Of the first eighteen members of the court who voted, thirteen declared the governor guilty.

Glynn Now Governor

Sulzer will issue a statement tonight or tomorrow attributing his removal to the fact that he refused to accept orders from "Boss" Murphy of Tammany.

Leaders of the republican state opposition believed they had won an important strategic advantage in the form of the verdict. It was at their suggestion that the impeachment court's decree did not include disqualification from future office-holding. Their theory was that, as an active candidate at the next and probably at subsequent state elections, Sulzer will draw heavily from Tammany, and thus, by dividing the democratic vote, indirectly help the republicans in both New York City and New York state.

Acting Governor Glynn became next governor tonight, succeeding Sulzer. His only statement on taking the helm was that he would be governor of "the whole people."

BRASS BAND MEETS OIL RESCUE SHIP

LONDON, Oct. 16.—The tank liner Narragansett which sprayed oil on the waves about the burning steamship Volturmo last Thursday night and Friday morning, quieting the sea to such an extent that lifeboats succeeded in reaching the distressed craft and taking off its crew and passengers, arrived at Tilbury Dock today with its brass band, met the big tanker at the mouth of the Thames and escorted it to its berth, the band playing "Hail the Conquering Hero."

DIPLOMATS ASK WARSHIPS SENT MEXICAN PORTS

Developments Have More Than Vindicated Administration's Attitude Toward Huerta—Rebuke Makes Dictator Milder.

Government Does Not Believe Huerta Has Eliminated Himself as Factor at Coming Election.

WASHINGTON, Oct. 16.—Administration officials expressed satisfaction today with the decision of the foreign diplomats in Mexico City to recommend their governments to send warships to Mexican waters. It was felt that recent developments have more than vindicated the administration's attitude of disapproval toward Huerta and officialdom had hard work to conceal its gratification that those who recognized him earlier were being compelled to admit that the American view was the correct one.

Huerta's comparative mildness today was attributed partly to the emphasis with which President Wilson and Secretary Bryan called him to time and partly to the threat of an international fleet in Mexican waters. At the same time there was considerable suspicion that he was practicing some deception and developments were anxiously awaited. It was considered that the next move was Huerta's.

Will Pass Up Election

Unofficial advices were to the effect that the provisional president still insisted on a national election October 26, but attention was called to the fact that the Mexican constitution prohibits "balloting while the country was in a state of disorder." It also virtually empowers the president to decide what constitutes disorder.

It was said by state department officials that it would not be surprising if, after promising an election up to the very day for it, Huerta should at the last moment decide that disorders prevailed and call it off.

Huerta was correct, it was said, in pointing out that the Wilson and Bryan notes were not presented to him officially. In fact, special agents were taken to see that the presentation was unofficial, since it was desired to avoid, according to him, any such measure of recognition.

Roundabout Methods

Charge d'Affaires O'Shaughnessy was instructed to deliver the communications as "a private citizen," and it was believed he sent them to the provisional president through the foreign minister without seeing Huerta personally.

This roundabout method was cited as illustrative of the care the administration has taken to deprive the Mexican provisional executive of the slightest pretext for claiming that Washington has recognized him.

It was stated emphatically an administration authority that the heads of the United States government did not believe Huerta had eliminated himself as an influential factor at the coming election. It was intimated, however, that if Gombor or Calera should be elected, without interference by Huerta, either one of them will be acceptable to Washington.

CALLED PHONE OFFICE "HOG PEN," FINED

WURZBURG, Oct. 16.—Admitting that he told a telephone girl over the wire that her office was a hog pen and that the operators evidently put in their time reading, Prince Charles of Wrede paid \$7 fine today, the court holding that although his remarks were true, he was not entitled to commit beamtenbeleidigung—that is, to insult public officials, as telephone operators are classified in Germany.

FIRST PHOTOGRAPHS OF GREAT RACE FOR COUPE INTERNATIONALE D'AVIATION

The above are the first photographs of scenes attending the race for the Coupe Internationale d'Aviation at Betheny Aerodrome on Monday, September 29. Mr. Prevost, the winner, is shown in flight, starting and taking his seat in his speedy Deperdussin monoplane.

CHINESE RULER NABBED BY JAPS FOR BIG THEFT

VICTORIA, B. C., Oct. 16.—That Dr. Sun Yet Sen, first president of the republic of China, has been arrested near Kobe, Japan, charged with the theft of approximately two million taels, was the word brought to this port today from the Orient by the liner Empress of India.

China has an extradition treaty with Japan and it was stated that proceedings are now under way looking toward the return of Dr. Sun to China for trial.

The money is said to have been part of a large amount Dr. Sun collected to finance the late revolution, and failed to turn over to the proper authorities.

The Empress of India received the news of wireless from the Empress of Russia, which was bound from here to the Orient, and the Russia being of later construction, had more powerful wireless equipment and was able to pick up the message from Japan when the India failed.

It was stated that after secretly leaving Hong Kong recently, Dr. Sun went to Formosa, where he was in hiding for a time, later traveling incognito on the Ava Maru to Kobe. He is said to have been living secretly near Kobe when arrested.

RALPH ROSE, OLYMPIC CHAMPION, IS DEAD

SAN FRANCISCO, Cal., Oct. 16.—Ralph Rose, world's shotput champion, winner of the shotput at the Stockholm Olympic games, and an attorney here, died today of typhoid fever.

LOVE BY CORRESPONDENCE ENDS IN A WEDDING

OAKLAND, Cal., Oct. 16.—Following a courtship across the continent by mail between Miss Mildred Howell of Caribou, Me., and George Sharpe of Oakland, the young woman arrived here today to wed Sharpe. They had never seen each other before today. The correspondence was started at the solicitation of a relative.

EPISCOPALIANS HEAR BISHOP DENOUNCE RICH CHURCHMEN

NEW YORK, Oct. 16.—Bishop Franklin S. Spalding's bitter denunciation of the rich and declaration for an industrial democracy were admittedly the sensation today of the Protestant Episcopal convention here.

"I hate our system of giving to the greedy and taking from the meek," declared the Utah bishop in an address last evening. "It is unchristian. It is un-Godlike. It must end. The church must awake and ally itself with the movement for an industrial democracy."

"There are rich men at this convention who don't care how they get their money. They haven't a particle of feeling for the workingmen beneath them."

"The laboring classes produce this country's wealth; yet they are suffering untold tortures from poverty. Seventy-four per cent of our population own only four per cent of our wealth."

"The workers are forming their own religion away from the capitalistic religion, just as they are forming their own political party away from the capitalistic parties."

SACRAMENTO BARS WHITE SLAVE PLAY

SACRAMENTO, Cal., Oct. 16.—George Scarborough's white slave play, "The Lure," which has been presented in various Pacific coast cities, was prohibited in Sacramento by action of the city commissioners today. The play was scheduled for tonight and tomorrow night, and the house had been sold to capacity.

VOLTURNO SURVIVORS ARRIVE ON SEYDLITZ

PHILADELPHIA, Oct. 16.—The German tramp steamer Seydlitz, with forty-six survivors from the liner Volturmo, docked here this afternoon. The immigration authorities took immediate charge of the Volturmo's passengers.

VICE PLAY MORAL PROMPTS COUPLE TO SUICIDE PACT

CHICAGO, Oct. 16.—Coming to Chicago to celebrate their tenth wedding anniversary, William Ellis and Mrs. Ellis, wealthy residents of Cincinnati, attended a performance of "Damaged Goods," went to their rooms in the Hotel Sherman and entered into a suicide pact. The woman, with her head almost decapitated, was found dead this afternoon in their room after Ellis had notified a friend of their intentions. Ellis sent a bullet into his temple, inflicting a probably fatal wound.

At noon today Ellis telephoned the following message to Morris Ebersole, a friend: "This is Will Ellis at the Sherman Hotel. There has been a terrible tragedy in our room. Notify the police."

Hotel employes battered down the door and found the couple lying on the floor. The woman died almost instantly, a physician said. Ellis was revived for a few seconds, and gave out the following statement: "We agreed to die together. I did it." Later he made another statement, saying: "We agreed to die together. She cut her own throat and I cut mine. Then I sent a bullet into my temple. I hope I die."

Dr. Waterman, the hotel physician, believed Ellis is suffering from a recurrence of venereal disease, and that the play "Damaged Goods" caused him to become despondent over his condition.

RAILROADS MAKE GAINS ON MARKET

NEW YORK, Oct. 16.—Canadian common and preferred showed marked strength at the opening of the stock market today, each rising a point. Other price changes were slight and irregular. Union Pacific and Steel were slightly lower, but Southern Pacific, Reading and Amalgamated made small gains.

Later Westinghouse lost 1½ and Canadian Pacific, Union Pacific and Utah Copper each a full point.

RIGHTS OF WAY ALONE PREVENT ROAD BUILDING

Preliminary and Location Work Completed—Bids Soon to Be Called for on Siskiyou Grade and Central Point Surfacing.

Present County Road Too Narrow in Many Stretches—Sharp Curves to Be Eliminated.

"Securing rights of way for the new road over the Siskiyou and rights of way for alterations along the present road, such as elimination of sharp turns and the feeding of needed strips for a uniform width of 60 feet alone prevent the advertising for bids on the construction of the Pacific highway" asserts State Engineer H. L. Bowby. "Preliminary surveys have been completed and the line located. Right-of-way men are now out. Within a few days we will advertise for bids on grading of the stretch over the Siskiyou and on hard surfacing the stretch between Central Point and Medford.

"In many places the present roadway is but 40 or 50 feet. We must have the entire 60 feet deeded. As soon as this is done, we will advertise for bids to hard surface the road between Ashland and Medford.

"I am taking estimates and survey notes to Salem with me to go over them and within a few days will have advertisements prepared for bids.

"The best way to speed road work is for those affected to help us secure the rights-of-way."

GIRL HEADS HUNT FOR DAD'S SLAYER

LOS ANGELES, Cal., Oct. 16.—Led by eighteen-year-old Mary Caramona a posse is today pursuing Jose Gonzales, who Tuesday shot and probably fatally wounded Frank Caramona, the girl's father.

Deputy Sheriff Joe Sepulveda returned today from the manhunt to seek reinforcements. He declared that Gonzales will be taken dead or alive. Caramona was shot while protecting his daughter from an attack by Gonzales, following the girl's refusal to accompany him to Los Angeles. Gonzales then fled to the hills back of La Canada, near where the shooting occurred.

I. W. W. FOE LOSES NAVAL JOB

SALEM, Ore., Oct. 16.—Stating that his activities at the time several members of the I. W. W. were deported from Marshfield were hardly consistent with the duties of an officer of the Naval Militia, Governor West today revoked the commission of Lieutenant Commander of the Oregon Naval Militia held by Mayor E. F. Straw of Marshfield. Last Saturday the governor removed Mayor Straw from the Naval Militia board.

DUKE IN AUTO KILLS PEDESTRIAN

SEATTLE, Wash., Oct. 16.—Lawrence Duke, son of Brodie Duke, of tobacco fame, is in the King county jail and may have to answer to a charge of manslaughter following the killing of Henry M. Farr, saloonman, by Duke's automobile, driven by Duke last night. Alfred C. Hogland and Thomas Simmons were seriously injured at the same time.

WORK TO START ON GOLD HILL CEMENT PLANT

Contractor Wired to Begin Construction at Once—Satisfactory Contract Agreed Upon Between County Court and Cement Company.

Plant Will Cover Ten Acres and Cost \$450,000—Capacity Is Thousand Barrels a Day.

A mutually satisfactory contract between Jackson county and the Beaver Portland Cement company for 50,000 barrels of cement to be made at the Gold Hill plant for use on the county highways, delivery to begin June 1, 1914, has been drawn up and approved by state highway engineer H. L. Bowby. Attorney General Crawford and the state highway commission. It only awaits the arrival of President Burch of the company, who is due the latter part of the week, to be formally executed by both parties. The county is amply safeguarded as to quality and delivery.

Following the approval of the contract by C. S. Woody of Kansas City, secretary and treasurer of the company, Leigh Hunt of the Leigh Hunt Engineering company of Kansas City, has been wired to begin construction of the \$450,000 plant at Gold Hill at once. Mr. Hunt is engaged in erecting a similar plant in Alberta for an English syndicate, and will arrive here within a few days. Several hundred men will be employed in construction of the plant.

Mr. Woody, represents the Commerce Trust company one of the largest financial houses of the middle west, which have invested \$250,000 in the enterprise. Speaking of the delay in starting work he says: "It has been difficult to finance the enterprise during these times but the contract with Jackson county and a second contract of the same size, has enabled us to complete our plans, and we have wired for construction to begin at once.

Strong opposition has been forthcoming from established plants along the coast, who resented the invasion of what is considered, the best market on the coast. This opposition has hampered our efforts and is due principally to the fact that the improved machinery we will install will enable us to produce cement at a lower cost than the established coast plants can produce it.

"The plant will be located just north of Gold Hill, a siding has already been installed, and a rate differential to Portland secured which will enable us to compete with California and Washington plants. The plant will cover about ten acres of ground and cost \$450,000. Lime of a very superior quality exists in abundance side by side with large posits of shale, the two materials used in making cement.

"We will use about 2500 horsepower of electricity which will be furnished from the Ament dam, and other dams to be built by the Rogue River Public Service Corporation. We will burn crude oil until such time as the coal mines on Roxy Ann are sufficiently developed to supply us with coal.

"The contract calls for delivery of cement by June 1 and we will be making it before that date. The capacity of the plant is 1000 barrels a day and we expect business enough to keep it running constantly throughout the year."

VOLTURNO'S MISSING LIFE BOATS SWAMPED

QUEENSTOWN, Oct. 16.—After scouring the ocean in the vicinity of the spot where the Volturmo burned, the steamship Cymric returned today to report that nothing was seen of the lost vessel's two missing lifeboats. It was considered certain that they were swamped.
