Last week, in mentioning the injury received by Mr. Phillips, pursuer of a river steamer, by the explosion of dynamite in a cigar given him by a stranger, it was stated that an attempt was probably made on his life, he being a witness in a criminal case. "I am tired of being blistered, leeches, cupped and bled with croton oil by the most eminent practitioners, who try to cure that cold of mine by such proceedings." This tale is frequently told by the sufferer to his druggist, who, not knowing better, makes up any number of cough mixtures without giving any relief. All you sufferers, do you know why you cannot be cured by such means as stated above? Here is the cause: It is an established fact that almost all coughs have their origin in a deranged stomach, whence gases press upon the diaphragm, and chest, etc., and thus cause coughing, which upon too much straining even produces carache, and finally deafness. One bottle of Plunder's Oregon Blood Purifier will give immediate relief. It has been tried over and over again, and found to answer the purpose in every case. Ask your druggist for it.

MAGNETIC HEALER.—Dr. James Kiech, a plain and unassuming man, whose mission seems to consist in "going about doing good," is at present in this city, engaged in canvassing for books for daily bread. The Doctor has no office in the city, but wishes to announce that he will answer at residences any calls by note dropped in the post office, and will make no charge for a call when not employed as a healer.

I have been in love, and know what I am acting."

The Telegram of last evening showed up one of John Maguire's petty tricks, and gave him such a notice as he deserved. He kept a company playing under his poor management and the members were without funds and he was in debt to them over a thousand dollars. They finally started out on the road and got the "manager," determined to start without him and what they could not get with it—a living. He then displayed his chief characteristic, ingratitude, by writing to a Walla Walla paper a communication intended to damage the prospects. The letter was not published but was handed over to a member of the troupe, Maguire's attempt to belittle a company for refusing to play longer for him without pay, is only one of the contemptible actions of a man who has been guilty of a crime attempted to manage New Market Theater.
