THE TRACTION BRIDGE.

Solicitor Burke Notifies the West Mahanoy Township Constable.

Borough Solicitor Burke has addressed to Joseph Peters, of Wm. Penn, constable of West Mahanoy township, the following letter, which is self explanatory:

DEAR SIR:—The trestle or bridge in the track of the Shenandoah Valley Company spanning Shenandoah Creek and the tracks of the P. & R. railway in the south-western part of this town, is reported to be in such dangerous condition as to warrant the fairest and strictest investigation in the interests of the traveling public.

"The matter was taken up by the Council of this borough at their last meeting, by resolution they directed me to bring this case to the attention of the District Attorney. I did so, and that gentleman assured me he will leave nothing undone toward having the Company, if they be negligent in this respect, brought to serious account.

"It has occurred to me that there is a duty incumbent upon you as the constable of West Mahanoy Twp. to examine into this report, and if you find the report to be well founded, to make return of the company to the January Term of this Court. This public duty falls upon you, and you are to be held liable for the same if you neglect it.

"I shall expect you to look into this case, I shall expect you to return to the next Court."

We're told we have the finest selections of Xmas presents in the county. Wonder if it's true? Like to have your opinion. E. B. Bruum. 12-12-99

Mr. Gill's Greeting. Two beautifully arranged show windows can be seen at Gill's dry goods store. In the south window there is an elaborate display of linens, towels and embroidered handkerchiefs and other novelties. Mr. Gill extends a hearty greeting to the public in the shape of a Merry Christmas and a Happy New Year. The greeting is made conspicuous by arches at the top of the window. The north window is devoted to coats, furs and dress goods. The winter garments shown hold full sway in fashion's domain and are most suitable to artistic dress. Both displays are really worth a perusal. The man of the work of Elwood Jacoby, the salesman, who is becoming quite an adept in the art of window dressing. His taste and manner of display is excellent.

NEW HOME INDUSTRY.

Shenandoah's Manufacturing Company's Plant to be Re-Established.

IT WILL START UP NEXT MONDAY

Dr. J. S. Kistler Will Put It in Operation For the Manufacture of Shirts—His Plan to Promote Town Interests a Generous One.

It will be gratifying to the people of town to know that one of its home industries which has been idle for several months is about to be put in operation again. The plant is that of the Shenandoah Manufacturing Company, located on North Erieck street. It was formerly devoted to the manufacture of caps. According to the plans now about to be put in operation it will hereafter be devoted to the manufacture of shirts.

It will be remembered that, shortly after the old plant suspended operations, there was a public sale and ultimately a syndicate, headed by Dr. J. S. Kistler, of town, secured full control of the old company's stock. Subsequently Dr. Kistler made an announcement through the press outlining a plan tending to re-establish the industry and offering to give personal financial aid and in that direction, the offer seemed to pass unnoticed by local people and Dr. Kistler took steps towards getting outside manufacturers interested in the plant.

The movement in this direction did not bring the results desired, whereupon Dr. Kistler decided to take hold of the plant single handed and it has culminated in arrangements for a shirt factory to be operated under the old name of the Shenandoah Manufacturing Company.

In conversation with a reporter last evening Dr. Kistler said that there is plenty of unemployed girl labor here and if it can be given employment it will be so much better for the borough. He will open the factory next Monday with 32 machines and 35 girls.

A foreman will be employed to teach the girls to run the looms and he will also have a man employed to superintend the factory, while Dr. Kistler will be the president and general manager of the concern.

"My sole ambition in this movement," said Dr. Kistler, "is to give the borough home industries. If I can make this one a success I am sure others will follow and there will then have something in the place for the working people to depend upon other than the collieries, in which only male labor can be employed. I will start the plant with 35 machines and shall be satisfied to maintain the plant for the first three months as an experiment, even if I must go down into my own pocket to help pay some of the expenses. If, at the expiration of sixty days, the plant gives promise of becoming self-supporting I will double the number of machines, and if the prospects continue favorable, I shall increase the number of machines from time to time to one hundred or more.

I have secured the services of a Philadelphia lady who will instruct the girls in the work required of them. I have also made arrangements with a New York firm which will furnish all goods for manufacture and take the products of the plant off my hands and put them on the market."

Dr. Kistler is certainly setting an excellent example for other people in town who have money to invest and have the welfare of the borough at heart. On no previous occasion has any other townsman made so liberal and substantial an advance in the interests of the working people of the borough, single handed and without the assistance of any of his equally well-to-do townsmen, or a Board of Trade. The effort is deserving of the highest commendation and the community will enter in the hope that it will be as successful as the promoter desires it to be.

MINE INSPECTOR'S REPORT

The Number of Mine Accidents During the Past Year.

The fiscal year of the mining districts of this state closes on December 1st. Mine Inspector William Stein has completed his official report for the year ending on the 1st inst.

The record is as follows: Total accidents, 107; fatal, 71; non-fatal, 96; number of widows, 37; orphans, 75. The accidents are divided by months as follows: December, 1898, 14; January, 1899, 15; February, 8; March, 19; April, 8; May, 6; June, 19; July, 13; August, 19; September, 14; October, 22; November, 20.

Of these accidents 22.5 per cent were due to falls of coal; 13.7 per cent, to explosions of gas; 14 per cent, to falling under moving cars; 11.3 per cent, to premature blasts. The causes of the accidents are more specifically divided as follows: Explosions of gas, 9; falling under cars, 10; premature blasts, 8; rush of coal down chutes 3; falls of coal, 16; caught by shaft water tank, 1; struck by centre prop in slope, 1; falling down traveling way, 1; falls of rock, 7; falling down slope, 3; killed by locomotive, 1; explosions of powder, 2; falling from mine, 1; falling down chute, 1; kicked by mine, 1; by breaker machinery, 1; smothered by rush of coal and culm, 4; drowned in shaft, 1.

Chicago Wants the Convention. Special to EVENING HERALD. Chicago, Dec. 12.—President George Miller, of the Hamilton club, has appointed a committee of twenty-five Republicans to travel to Washington, D. C., under the leadership of Samuel B. Raymond, leaving here to-day, and lay permanent siege to the national committee until they consent to nominate the Republican Presidential ticket in Chicago. The committee will be empowered to offer any necessary amount of money for the expenses of the convention, and the Hamilton Club will pledge itself to raise the sum and provide the auditorium in which the convention may sit.

THE COAL TRADE.

The December Letter of the Anthracite Coal Operators' Association.

The past month has fully justified the predictions made during the summer as to a scarcity of fuel. At every point of the market this difficulty has been experienced. From Maine to Minnesota there have been complaints, and it has been only because of the moderate weather that the shortage has not caused more serious consequences.

Prices have been firm, as might be expected under these conditions, and concessions have been rare. Such coal as has gone forward on old orders has not been sufficient to disturb the market at any point, nor has the announcement of the construction of a new railroad from the mines to tide been a disturbing factor in prices.

The Western market has been favored by the mild weather which has permitted shipments by the lakes, but the scarcity of vessels and high prices charged have forced an unusual proportion of coal to go by rail. The same difficulty as to vessels has been experienced in the New England market. Recently, vessel rates from Baltimore to Boston were \$20 per ton, and a schooner from Philadelphia to Augusta, Maine, received \$30 per ton.

As showing the unusual demand, the following figures give the receipts of coal at Boston from January 1st to December 4th, 1899.

1899. Anthracite..... 2,012,084 1,095,451 Bituminous..... 2,293,557 1,500,498

With the beginning of December the companies find themselves unable to fill all the orders offered for prompt delivery. Even allowing for the tonnage available now that lake navigation has closed it is doubtful whether the total of December deliveries will equal the demand. This would have serious results, especially in the Eastern coast, where the dealers have had an extraordinary demand for anthracite, owing to the scarcity of bituminous coal. The quantity of coal going to market represents the maximum production. There are neither cars or motive power to move a greater tonnage, and further, if there was abundant transportation, the mines are so hampered by the general scarcity of miners and laborers, that they would not be able to add to their output, and in the event of cold weather there are no surplus stocks which can be drawn upon.

With the demand greater than the supply, it is evident that no lower price can be looked for until Spring, since orders should be working time in January, February and March be increased, the excess over the normal consumption during these months would not be more than sufficient to meet the extraordinary demand and bring stocks to a safe amount.

Camp Anniversary. Camp 206, P. O. S. of A., will appropriately celebrate the anniversary of the organization in the camp room to-morrow evening. A special program has been prepared for the occasion and it is evident a large assembly of members of the order in this and adjoining towns will be present.

One of the features of the evening will be the initiation of six new members. The degree team of the Gilbertson camp will exemplify the unwritten work, and their proficiency in this respect is well known throughout the district. In addition several of the state officers have promised to be present and participate in the entertainment. The members of the camp look forward to the event with a great deal of pleasure and extend a cordial invitation to members of other camps to join with them in celebrating jointly the anniversary of the Order and the 100th anniversary of the death of Washington. State President Cameron Schmitt, of Danville, and ex-judge R. H. Koch, have notified the camp that they will be present.

THE FILIPINO GUERRILLAS

Robber Band Surrounded and Captured Near Malasqui.

WILL PROBABLY BE EXECUTED.

They Committed Twenty-Five Murders in as Many Days, and It is Expected That They Will Be Speedily Tried and Promptly Shot.

Manila, Dec. 12.—Colonel Smith, with a detachment of the Seventeenth Infantry, surrounded and captured in a village near Malasqui a party of guerrillas, who had made their headquarters there. The party included the band which assassinated seven of the British at Malasqui for friendship to the Americans.

All are insurgents who became bandits when the disintegration of the Filipino army began. They kept the country around Malasqui in a state of terror for several weeks, and committed 25 murders in less than that number of days. When they were caught they were promptly sent to General MacArthur's headquarters at Bayambang by train. It is expected that they will be speedily tried and either shot or hung, as an example, if convicted.

The whole country north of San Fernando and between San Fernando and Manila, except within the permanent line of troops around the city, and the closely patrolled stretches of railroad, swarms with similar bands. Probably they will be increased by men from Pilar's army, many of whom are making their way south to join the insurgent force in Cavite province. These people, for the most part, succeeded in dodging the troops of General Grant, Colonel Bell and Colonel Hood, who are scouring the country for them. They devote their energies to ambushing commissary wagons and to picking up soldiers who leave their command. Every day some wagon train is fired upon or some soldier disappears. General Wheeler's secretary, Mr. Garrett, was disarmed and slashed by a boloman almost within sight of headquarters, his assailant pursuing him almost into the headquarters building.

The policy of these ruffians is to make the country uninhabitable for Americans and to frighten natives into refraining from giving any assistance to the inhabitants to support the insurrection.

Frequently they raid and loot towns. The brother of the president of Imus went outside the town the other day to harvest some rice. He was captured by his compatriots, accused of being a spy and executed.

Only a small proportion of the insurgent arms have been surrendered, and the problem of supplying this guerrilla warfare is anything but easy of solution. Some of the American officers think it worse than fighting Indians, owing to the difficulties of the country and the trouble of locating the enemy, who resort, when hard pressed, to the same device and hide their guns.

Some of the Americans favor the issuance of a proclamation declaring all natives found with arms to be bandits, punishable as criminals, instead of being treated as prisoners of war. Information has been received at headquarters that 500 Spanish prisoners have been shipped from Vigan to Manila, and that 1,500 others have been assembled at Vigan, including General Pena. Probably these are Spaniards released by General Young's troops in the Benguet district, where they were concentrated by the insurgents.

Gang of Youthful Burglars Arrested. Altoona, Pa., Dec. 12.—Police yesterday arrested a gang of youthful burglars who had been raiding Harry Levi's store in Mahanoy City. They were caught in the boiler house in the rear of Attorney Thomas H. Greevy's residence, where one of them, Sam Hamm, aged 15, colored, was fireman. The others were Henry Lewis, aged 16, colored, Roy Neff, aged 15, and John Bart, aged 16, both white. They confessed to robbing J. H. Miller's grocery on Eleventh street, Monday night, and some of the stolen goods were found in their possession. They also admitted breaking into and ransacking the office of the Eleventh Avenue Opera House. The police believe these boys are responsible for petty robberies here for months past.

Hotel Cook Burned to Death. Scranton, Pa., Dec. 12.—Nellie McGinness, one of the Hotel Jermyn cooks, was about the range when a spark ignited her dress, and in a short time she was in a mass of flame. She ran screaming into the street, and Patrick Mahon, a hotel employee, followed to save her. His clothing also became ignited, and before he could extinguish them by rolling into a pool of water in the gutter he was severely burned. The woman died soon after, but there is hope for Mahon's recovery.
