THE SHIRT FACTORY.

Operations Will Probably Begin Next Wednesday Morning.

The shirt factory of the Shenandoah Manufacturing Company will not begin operations next Monday morning, as expected, but will in all probability be started on Wednesday. The delay has been caused by the firm supplying the machines being pushed by orders, but the machines are now here and the firm promises that its mechanics will put the equipment of the factory in order next Tuesday, and everything will be ready for operations on Wednesday morning.

The company already has a sufficient number of hands employed for a start and the force will be increased each day after the start until the number figures upon, thirty-five, is reached. After that the increase in the working force and number of machines will depend upon the success of the venture.

In the morning the theme will be "The Father of the Church." In the evening a historical sketch of the congregation will be read. VICTIMS OF MISFORTUNE

A Deplorable Discovery Made by the Deputy Coroner.

A SORELY AFFLICTED FAMILY!

The Son's Remains Awaited Burial in the Same Room With the Father, Crippled by an Accident, and the Sick Mother With an Ailing Child.

The old saying that half the world does not know how the other half manages to exist was never better exemplified than by a case located by Deputy Coroner Cardin last night, when he went to a house on East Raspberry alley, to arrange for holding an inquest on the death of Joseph Monzies, who was killed by cars in the Kuckelcocker colliery, and which was reported in the Herald of last Thursday.

The victim was the nineteen year old son of Anthony Monzies and resided with his parents. He was employed as a driver at the colliery. It is essential before inquests are held to have the Coroner's jury view the remains, and this was the object of the visit to the home of the bereaved parents last night.

As the Deputy Coroner and jury filed into the house from the rear they found an apartment filled with friends of the deceased, who were holding the wake. Passing into the front room they beheld a condition affairs that touched the steepest heart. A most distressing situation presented itself. To the left of the room was the corpse in the usual receptacle prior to preparation for burial. To the right was a bed upon which lay the father of the deceased with his right arm and right leg broken, the injuries having been sustained in the Turkey Run colliery three weeks ago. At the foot of the bed was a couch upon which reclined the mother of the deceased. She was very ill, but in her sore condition was trying to soothe the sick and crying child.

The father, a fine looking and intelligent man with good command of the English language, bore up bravely under the distressing circumstances and told, in a few words, a story of repeated misfortunes which had reduced him to poverty. He said he and his wife were due him at the Turkey Run colliery, but neither himself nor his wife could go to the colliery to-day to claim them. Deputy Coroner Cardin prepared a certificate addressed to the foreman of the colliery, stating the condition of the family and one of Monzies' friends promised to present it with proper identification to-day to collect the wages.

"STAR OF BETHLEHEM."

This Cantata Will be Produced in F. M. Church Monday Night.

There will be a grand cantata entitled "The Star of Bethlehem" produced in the Primitive Methodist church on Monday evening, under the auspices of the Sunday school. It will consist of strong and effective choruses, dialogues, recitations, solo and address. The cantata is a beautiful one of the strong features of this beautiful cantata is the tableaux, among them being "The Cross of Christ," "The Star of Bethlehem," "The shepherds' dream," and their beautiful costumes, and the King and wise men going over the desert with presents for the child Jesus.

The choir, which is a strong one, will render special choruses for the occasion, and the final scene is the reception of the King and shepherds to the angels, all in a magnificent tableau with closing chorus, which will prove a grand treat. This cantata is the result of the gift given in town, and the fact that the fifty people assembling parts are well trained is evidence that a treat is in store for our people Monday night.

Mr. Edward Malick has charge of the character parts, and Prof. Edgar Cooper will direct the musical numbers. The rehearsals indicate a grand success for the production of this beautiful cantata.

QUAKER CITY WINNERS

Republican National Convention to Meet in Philadelphia.

ONE VOTE AHEAD OF OHIOGO.

Selected on the Second Ballot by a Vote of 25 to 24—June 15 Named as the Date For the Great Gathering, Which Will Renominate McKinley.

Washington, Dec. 16.—The Republican national convention will be held at Philadelphia on Tuesday, June 19. The place and date were decided upon by the national Republican committee yesterday after a friendly contest for the honor of entertaining the convention between the city selected, Chicago, St. Louis and New York. The meeting of the committee was held at the Arlington hotel, and was presided over by Senator Hanna, the chairman of the committee. Sixty-three of the states and each of the six territories were represented, Senator Foraker, proxy for Charles L. Kurtz, the national committeeman for Ohio, and Senator Wolcott, proxy for J. F. Saunders, of Colorado, being the only absentees. In addition to the committee-men many of the big wigs of the Republican party were in attendance. The proceedings throughout were enthusiastic and harmonious, every speech that was made emphasizing the fact that President McKinley will be re-nominated and that the convention will be in effect simply a ratification meeting. The claims of the rival cities were presented by distinguished citizens of each in open session. The matter occurred in the afternoon behind closed doors.

On the first ballot Philadelphia received 13 votes, Chicago 20, New York 7 and St. Louis 2. On the second ballot the contest narrowed to Philadelphia and Chicago. The New York vote went to Philadelphia and the St. Louis vote was split between the two cities. An amusing incident occurred in connection with this ballot. After the vote was counted and announced—Philadelphia, 25; Chicago, 23—Mr. T. N. Jameson, the national committeeman from Illinois, suddenly discovered that in the excitement he had forgotten to vote. He demanded that the vote should be recast, and this was accordingly done, but it did not change the result. Chicago gaining only the vote of the committee-man from Illinois. Philadelphia won by the narrow margin of one vote.

Immediately upon the announcement the Quaker City boomers, who had been waiting in the lobby, broke in ringing cheers and the hotel was soon given up to their jubilation. Later many of them went to the White City building to see the president. As the ballot was secret, there is no record of the city for which each committeeman voted.

It was the desire of the leaders that the convention should be held June 12, and that date would have been selected had it not been that it conflicted with the date of the Rhode Island elections. June 5 was then selected, but the date was reconsidered and changed to the 19th, in the hope and belief that before that date congress will have adjourned.

After the time and place had been selected the committee considered briefly a request from Delaware that the committee take some action to straighten out the factional fight to prevent two contesting delegations from appearing from that state. The committee decided that it had no jurisdiction.

After the Delaware case had been disposed of the chairman was authorized to appoint a sub-committee of five to look after arrangements for the convention, also a committee of three to prepare and distribute literature. Chairman Hanna and Secretary Dick were made ex-officio members of all sub-committees.

Messrs. Manley of Maine, Long of Florida and Simon of Oregon were appointed a sub-committee to consider the election of delegates in the District of Columbia.

Adjournment was taken until 11 o'clock today, when the Payne resolution for changing the system of representation will be brought up for consideration. Mr. Payne, the author of the resolution, called upon the president to pay his respects to him in a body.

The Payne resolution for the reapportionment of delegates to the national Republican convention on the basis of the Republican vote cast in the states and territories will not be presented at this meeting of the national committee. Mr. Payne, the author, after a conference with the president last night, decided to abandon the effort to have it acted on at this meeting.

Philadelphia's Convention Hall, Philadelphia, Dec. 16.—Having won the Republican convention, Philadelphia will now turn to the work of preparing for it. The convention will be held in the large auditorium of the recent National Export exposition. At present the big hall has a seating capacity for 8,000 persons, but this will be enlarged to accommodate at least 18,000. Plans for the alteration of the building are already in the hands of a contractor. The delegates will all be seated on the main floor, while the unofficial visitors will occupy the galleries.

Croup instantly relieved. Dr. Thomas' Eucalypti Oil. Perfectly safe. Never fails. At any drug store.

THE JUNIOR MECHANICS.

The State Council Will Revoke at Shenandoah Next Month.

The State Council of the Junior Order of United American Mechanics will reconvene its suddenly adjourned session at Shenandoah early next month. The session will probably last but one day, as the only business to be transacted will be the removal of acceptance from the members of those councils desiring to abide by the decision of the National Judiciary Committee and pay the per capita tax of 15 cents and the election of one representative to the National Council, which latter was the only unfinished business when last September's convention was so suddenly ended by the revocation of the state Council's charter.

It is now said that about two-thirds of the Councils throughout the state are now desirous of paying the tax, and there is possibility of the other third coming around.

We're told we have the finest selections of Xmas presents in the county. Wonder if it's true? Like to have your opinion. K. B. Brumm. 12-14-99

Beginning of the century.

EDITOR EVENING HERALD—A few days ago there was reference made in your columns to the much discussed question of when the century begins or ends. A very simple solution of it to my mind is illustrated by the life or years of a man. Suppose he was born the first day of the month 1800—when will he be one hundred years old? It seems to me the first year counts one. Especially, A. HARRIS.
