GOLD IN AUSTRALIA.

The Rev. Mr. Clarke, a skillful geologist, speaking of the gold deposits in Australia says: "In the first place, it is to be noticed that gold is one of the most universally distributed metals in rocks of a certain class, and that there is scarcely a river of any volume upon the face of the globe in which it does not exist in small quantities, the sands and gravels of which will pay for the washing, provided they yield 24 grs. per cent.

THE ELECTION.

On Tuesday passed off very quietly.—The weather was fine and the turn out good, and the result is, as we predicted, a large majority for Bigler. On Tuesday night before we had finished counting off the returns in our own box, we were receiving the returns of our neighboring towns. What a revolution the Telegraph has effected in this matter. A few years ago we were kept in a glorious state of uncertainty and excitement for a week. Now the news is conveyed by lightning speed, and before midnight on the day of election, we may frequently form a fair estimate of the result of the election in the State. While watching the result of the count, for Judges in the Court House, some one comes in and announces the vote for Governor in Danville, in a few minutes after, the result in Mauch Chunk, Allentown, Minersville, Pottsville, &c., is announced. Shortly after another dispatch announces 1000 majority for Bigler in the Northern Liberties. A green horn present, very complacently inquires if these were the returns of last year, and regards with wonder and amazement the announcement of the result from distant quarters. The telegraph office at this place was crowded all night, and the instrument was constantly clicking from 10 o'clock at night until next morning, and throughout the next day. Our young friend, Samuel J. Packer, was kept so busy in sending and receiving messages, that he entirely forgot the fact that a bottle of pure cogniac, was in the adjoining room, such only as our friend Jerry Walker of Philadelphia, nearly opposite Jayne's Building, knows how to furnish. Some of those without, however, had frequent occasion to refresh their memories with something stronger than water. The night, however, passed off very harmoniously.

FATAL CONSEQUENCES OF FOLLY.

An occurrence, which happened at a young ladies' seminary in New York, is mentioned in the Times of that city, which presents another proof of the folly of indulging in the thoughtless practice of attempting to frighten others. Two of the young ladies in the institution were engaged in their own room, conversing upon the science of anatomy, in the course of which one of them proceeded to relate some experience she had formerly acquired in a dissecting room. Just as the conversation reached this point, the door of the room opened and another of the inmates of the seminary entered with slow and solemn tread, having a white sheet wrapped about her form, and her face powdered to perfect whiteness, her jet black hair, eyes and brows presenting a contrast which gave a startling liveliness to her ghost-like countenance. The lady who was relating her experience, as already stated, is said to be mentally superior to any of her classmates, and noted for her strength of mind and freedom from nervousness and absurd sensibility. So sudden, however, was the approach of the figure, just at a moment when her mind was least prepared for anything associated with thoughts of the dead, that upon beholding the apparition she fell senseless to the floor, and awoke to the scenes around her only to show her anxious attendants that reason had fled and left sad tokens of the mental wreck. At last accounts no change was discoverable in the distressing symptoms of the unfortunate girl, and there is little encouragement to hope that reason will ever resume its seat.—This occurrence, of course, has produced much distress, both in the seminary and in the families of the respective parties.

The contest in this County has resulted in the election of the whole County ticket excepting Mr. McCormick one of the candidates for Associate Judge, who was defeated by Judge Dentler the whig candidate. Dr. Heck our candidate for Senator, received a good vote, but the heavy vote of Dauphin elected his opponent J. C. Kunkel, Esq., of Harrisburg, Wm. B. JUDGES OF THE SUPREME COURT.

The Democratic Candidates nominated for the Supreme Court are no doubt all elected except Judge Campbell of Philadelphia. His own immediate neighbors have repudiated him for his incompetency. This was just and proper, and will add weight and character to the democracy, and prove highly beneficial to the party in the end, notwithstanding the croakings of those who would make the Judicial ermine the sport of political intrigues. Our opposition to Judge Campbell caused the expenditure of a good deal of wrath and cabbage. Our motives were questioned and our statements denied, but the result has borne us out. We stated that our charge of Judge Campbell's incompetency would be backed by at least 8000 democratic votes which he would lose in the City and County of Philadelphia. Have we not been borne out by the returns, which make it 10,000? Northumberland County has also set her seal of opposition to his incompetency, by a vote showing a loss of 1223. We trust the lesson will prove useful in future nominations.

FROM NEW MEXICO.

Letters from Santa Fe to the 21 September, contain the following intelligence: On the 25th ult., the feast of San Augustin—the Navajoes in a large body, made a descent upon the town of Los Gavaldoines, and, in the absence of the greater part of its inhabitants, who were in attendance at the celebration of the Feast of San Augustin, in the pueblo of Isletta, twelve miles distant from the scene of disaster, succeeded in dividing off the entire stock belonging to that community, and, horrible to relate, killed nine of the citizens, and carried off six women and children captive. The daring nature of this incursion may be imagined, when you learn that the attack was made upon a town, which with a settlement in a circuit of five miles does not number less than 2,000 inhabitants. This attack is in strict consonance with Indian tactics. Their plan has ever been to strike their most fatal blows upon the settlements immediately after the departure of the troops upon a campaign against them. Elections for County Officers and Delegates to Congress were held throughout the Territory on the 14th Sept. We have the returns from the precincts of the county of Santa Fe, A. W. Reynolds has a majority over R. H. Weigtmann, of 360. From information from other counties, received a few days before the election and yesterday, it is believed the contest will be a close one, and the result is doubtful.

A TRUE LADY.

The Louisville Courier of the 5th instant says—The papers through the country are noticing with favor the verdict of ten thousand dollars lately recovered in Henry county, in this State, in favor of a young lady, in an action of slander, as a strong indication of the high moral tone of the community where the case was tried. It may be proper to add that, so soon as the verdict was rendered, the fair Kentucky plaintiff, seeming to receive the money of the defendant—her only object being the vindication of her name from the calumnious aspersions of the defendant—for the amount of the verdict, save what would be sufficient to compensate them for their services. Upon consultation they consented to be satisfied with five hundred dollars, and in accordance with the instructions of their client, released the defendant from the payment of the nine thousand five hundred dollars. Commodore LEWIS WARRINGTON, of the U. S. Navy, died at Washington on Sunday morning, after a painful illness. He was a native of Virginia, and had been in the service since 1800. He was a gallant officer and much esteemed gentleman. He stood third on the list of Post Captains.

THE CONGRESS.

The census of Dankirk, the terminus of the New York and Erie Rail Road, show a population of 3500. Six months ago it was but 200. For other towns can show no increase.
