MISS MARY ARCHER GLASS

MISS MARY GLASS ENGAGED

Daughter of Secretary of Treasury to Wed October 6

Washington, Oct. 6.—The Secretary of the Treasury and Mrs. Carter Glass announce the engagement of their daughter, Miss Mary Archer Glass, to John Gerrant Boatwright, of Danville, Va. The wedding will take place on Saturday, November 1, in the Church of the Covenant, and a reception will be held at 1529 New Hampshire avenue, the new home of Mr. and Mrs. Glass.

Miss Glass is perhaps more widely known in Washington than any member of the family, save the secretary himself, as she was educated at Gunston Hall and was a great deal with her father while he was serving in Congress. At this time Mrs. Glass and Miss Augusta Glass spent most of their time at their home in Lynchburg, Va., and it was not until Mr. Glass entered the cabinet that he took a house in Washington for his family.

Chicago, Oct. 6.—Within a few days General Leonard Wood will relinquish military control of Omaha, where a week ago a mob rioted, lynched a negro, attempted to hang Mayor Smith and burned the courthouse. The general said last night a disorder, which arose from a specific cause—namely, the assault on a white woman by a negro—was seized upon by the organized elements of disorder which are to be found in the population of every large city with a view to overturning the constituted authorities and government and establishing a reign of terror under mob rule.

DISPUTE FIVE-CENT THEORY OF MITTEN

P. R. T.'s Ability to Carry Riders at That Rate Denied by Transit Chiefs

"ZONE" FARES DEFENDED

Special Dispatch to Evening Public Ledger. Atlantic City, Oct. 6.—Philadelphia Rapid Transit's ability to carry passengers at a nickel and escape bankruptcy, or at least a "grave fiscal situation," is the large item in the argument of 3000 electric railway managers gathered here to discuss the "desperate situation" confronting the traction lines of the nation in the thirty-eighth annual convention of the American Electric Railway Association which launched its preliminary session on the Million Dollar Pier this afternoon.

There are some indications that Thomas E. Mitten, president of P. R. T., would not receive anything more than the usual courtesy, if he should come here, after the disconcerting statements he made in his written testimony submitted to the federal probe commission which is probing the electric rail way "crisis" in Washington.

But Philadelphia does not have a five-cent fare, an authority in the councils of the national organization of the traction interests said today. "Omnibusly, Philadelphia riders are carried for a fifty-cent fare, in fact, as was shown by the rebuttal testimony of President Mortimer, of the North American Company, before the federal probe, the returns from transfers and the P. R. T. is five and one fare amounting to six cents rate."

Jersey System Scientific

The Jersey zone system has been worked out upon a scientific basis, it is based on the theory that the cost of transporting riders should be two elements, the "stand by" or terminal charge of keeping the line in readiness to serve and the additional cost for distance traveled.

ALBERT AND QUEEN SEE NIAGARA FALLS

Belgian King Kisses Little Baby Before Viewing Wonderful Cataract

New York, Oct. 6.—King Albert and Queen Elizabeth of Belgium and the crown prince arrived here at 9 o'clock this morning and half an hour later were viewing the wonders of the great cataract. Rain drizzled all morning as their train sped westward from Boston, but just as they crossed Goat Island bridge the sun broke through the clouds. When they reached the parapet overlooking the brink of the American falls they saw the cataract in its most brilliant colors, the rays of the sun and the mist from the tumbling green waters forming a beautiful rainbow over the deep mound of rocks in the chasm. At the Echoes station, where the royal party left the train, a woman held up her twelve-week-old baby and King Albert kissed it. From the station the majesties were taken at once to the falls' show place. After crossing Goat Island bridge and getting their first view of the American side of the falls, the party proceeded to the Cave of the Winds.

AMERICANS RESENT TRIESTE EXPERIENCE

Passengers Declare Report Will Be Made to State Department

Wilson Caricatured. New York, Oct. 6.—Passengers who arrived here last night on the steamship Trieste, which sailed from Trieste on September 29, after having been delayed in the harbor there eleven days, asserted they had been annoyed and unnecessarily delayed by Italian officials. One of the passengers, William M. Sullivan, a New York lawyer, said he intended to protest to the authorities at Washington.

Ralph C. Busser, United States consul at Trieste, who was among the passengers, said he would make no statement until he had reported at Washington. Mr. Sullivan declared while the steamship was held in Trieste harbor Italian ships departed for America, and that when they prevailed to the Italian officials over their delay they could not get any satisfaction.

Other passengers told of a protest meeting held on the ship in Trieste which they said was not permitted by the Italian officials. They threatened to lodge a protest with the American ambassador that the steamship was permitted to sail.
