From the Philadelphia Evening Bulletia. NEW SETTLEMENT.-A new settlement has been started at Hammonton, New Jersey, which for success and progress rivals anything we have heard of in the West. There is a large emigration having objection to the West on account of unhealthfulness, distance and association, which embaaces this new enterprise. The land is in a genial climate, and the soil is said to be amongst the best Jersey soil. Jersey, as it will be seen by the agricultural statistics at the Patent Office, is the first agricultural State in the Union for the value of its products. Hammonton is within thirty miles of Philadelphia by railroad, and enjoys one of the best markets in the Union. The tide of emigration to this place is immense, as well from the West as from the North. Many of the best grape growers of Ohio have located, with a few to make wine. Butter .......... 124 Cloverseed ..... 5, To judge of its progress, the population one year ago is numbered at only five persons; year ago is numbered at only five persons; it now numbers overeight hundred souls, has one hundred and twenty-five buildings, three stores, two churches, Episcopal and Methodist, steam mill, brick yard, public niles of new papers opened, six square miles being improved, a new railroad station, and all the elements of an old place. We are satisfied that this place must possess merit from its unparalleled progress.
