Oil Items—A dispatch from Pithole, received this morning, says: The Haskell & Rhodes well No. 2, Fisher & Herrington lease, Rooter farm, has increased in production to 150 barrels per day. Heretofore it has produced between fifty and sixty barrels daily.

In this vicinity the oil territory on Tarr Run is at present exciting considerable interest. The first well will be finished on Friday of this week. So far the show is excellent for a good well. Tarr Run is a branch of Bennehoff Run, and is distant about a quarter of a mile from Petroleum Centre.

The Appy Concert troupe, re-organized, re-modelled and rejuvenated, is soon to revisit this place.

It is not true that large well was struck at Reno yesterday.

An oil company with \$500 shares has been formed at Ellcottville, N. Y. Thirty shares have already been taken.

Yesterday afternoon a team of horses owned by the Messrs. Parkers, proprietors of the meat market, on Main street, became frightened and ran away up Main and Wild Cat streets, and from thence up the road that leads to the Columbia farm. They were captured on the Columbia farm, nearly a mile from the place of starting. The wagon was smashed to pieces, and one horse quite seriously cut. No other damage was done.

Two woodchoppers at work on the Wilson farm, came to town yesterday afternoon and got on a "bit of a spree," which resulted in their being arrested and confined in the lock-up over night. This morning they were brought before Justice Reynolds, and pleaded guilty to a charge of drunkenness and disorderly conduct, and were fined \$2 each and costs. The fine was paid by their employer, and the two men were allowed to depart in peace.

ISHAM & Co., JEWELERS.—Among the many business houses of Titusville, that deserve the attention of strangers, and which will amply repay an examination, is the jewelry establishment of Isham & Co., on Spring street, nearly opposite the American Hotel. They have recently enlarged and otherwise beautified their main salesroom, and with its shelves and show cases filled as they are with costly and elegant solid silver and silver plated ware, beautiful and rich gold and silver jewelry of every design and pattern, rare works of art, &c., will bear close comparison with similar establishments in any of our large cities or towns. The jewelry sold by them is warranted first class and composed of the finest gold and silver. Of the brothers Isham we speak but the plain truth when we say they are honest, honorable and upright dealers, which fact we cheerfully bear testimony to from an acquaintance of over six years with them during their residence in the oil region. Those of our citizens having occasion to visit Titusville should by all means call in and examine the jewelry store of Isham & Co.

The New Castle Courant, speaking of the Phillips Bros., well known oil operators of this place says:

The Phillips Brothers of this city are again in luck. We are pleased to learn that their recent experiment in the Pitt Hole region has proved a magnificent success. A well was struck on Friday last which yielded forty barrels a day at the start, and has been increasing ever since. Yesterday morning a dispatch was received stating that the well is now yielding ninety barrels, and still increasing. We understand they have about two hundred and fifty acres of land on the same belt.

A large audience were in attendance at Sobel's Opera House, last evening, to witness Chas. MacEvoy's famous and original Hibernicon, illustrating the scenery, music and antiquities of Ireland. The panoramic portion of the entertainment was good, the paintings being far above the average of panoramas. Mr. Wm. Lawlor, as Barney the Guide, gave excellent descriptions of Irish character and eccentricities and was loudly applauded. Miss Marie D. MacEvoy sang several beautiful Irish ballads in a manner that it would be hard to excel. On the whole the performance is first-class and deserves a liberal patronage. All should attend this evening.

A new well on the Fox land, in Richland township, this county, nearly opposite the head of the island above the mouth of the Clarion river, is reported as yielding 50 barrels of oil a day. Large developments will be made this season in Richland and Perry townships.—Clarion Democrat.

The semi-annual L. O. G. T. Convention, of the north-western district of Pa. will be held at Meadville, commencing April 19, 1871, and remaining in session two days Erie county is in the district.

Thousands of wild geese got lost by getting into the smoke in flying over Pittsburgh, the other day, and they flew around there for several hours, until finally a man came along with a lantern, when they followed him off into the country.

In the list of Travoso Jurors drawn to the fourth Monday of April we find the following Centerites:

C. H. Williams, H. C. Jarvis, J. H. Christie.

Messrs. Siggins and Dubbs, County Commissioners, are at the Rochester House today, hearing the tax appeal.

Greeley says he fears farmers generally don't appreciate the importance of having their strawberry trees properly pruned at this season of the year. There shouldn't a limb over three inches thick be allowed to grow nearer than six feet from the ground.

A Boston man has invented a process by which maple syrup can be made out of common brown sugar, flavored by steaming maple wood, and getting the juice. Next they will make honey out of castor oil, and flavor it with beeswax.

Boston has got another mean man. This one is meaner than the one that discharged a servant because she was too particular, and picked the bones out of fish before eating it. This mean man invited his servant to attend church one Sunday and sit in his pew. She accepted, and after he got home he figured up the amount of his pew rent, and charged the poor girl her proportion for sitting in it once. She says she never worked for such a mean man.

The author who is engaged in writing a humorous history of the late war is said to have received an offer from a prominent publishing house to write a funny history of the sinking of the City of Boston, and the ludicrous aspect of a nitro-glycerine explosion.

Tell us not in idle jargon "marriage is an empty dream;" for the girl is dead that's single, and things are not what they seem. Life's real, life is earnest, single blessedness a fib; "Man thou art, to man returneth," has been spoken of the rib. Not enjoyment and not sorrow is our destined end or way, but to act that each to-morrow finds us nearer marriage day. Life is long and youth is fleeting, and our hearts, though light and gay, still like pleasant drums are beating wedding marches all the day. In the world's broad fields of battle, in the bivouac of life, be not like dumb driven cattle—be a heroine, a wife! Trust no future, however pleasant; let the dead past bury its dead, act—act in the living present, heart within and hope ahead. Lives of married folks remind us we can live our lives as well, and departing, leave behind us such examples as shall "tell"—such examples that another, wasting time in idle sport, a forlorn, unmarried brother, seeing shall take heart and court. Let us then, be up and doing, with a heart on triumph set, still contriving, still pursuing, and each one a husband get.

SOME WOOD WILL SPLIT SO.—A gentleman residing near Allender Run on Pithole creek, having missed considerable store wood of late, selected a fine specimen stick and treated it dexterously to a gentle dose of nitro-glycerine. The next morning while a neighbor was engaged in splitting a few sticks of wood for breakfast he was startled by an explosion, the stick of wood was converted into splinters, his axe went up through the air like a rocket followed by his hat a few rods behind, and when last seen the woodman was busy picking chips out of his ear with a basing fork. The joking neighbor was soon after confiding with the victim who said he said he supposed the frost was all out of the wood a week ago.—Herald.

It is said there is now the largest tide in the Kentucky river that has been known for a number of years. Iron, coal and lumber have passed down in immense quantities to the market within the past few weeks. Since the present heavy rise then sands of logs have been swept out of creeks where raftsmen had them lying to put to gether for rafting. Numbers of these hard-working men have thus lost in a single day, the work of a whole winter.

The following resolution was recently introduced and adopted in the county court at Nashville: *Resolved*, That the portrait now placed over the chair of the judge of this court, and purporting to be the likeness of the father of our country, General George Washington, but which looks more like the jack of clubs, be removed from this hall, and the court-house, committed to authorized to have a true likeness of the pure patriot, George Washington put in its place.

The evening star Jupiter is now very bright, and may be seen in the western heavens any pleasant evening shortly after sunset.

A Jefferson county, N. Y. farmer laughed when his prudent wife advised him not to smoke on a load of hay. He floated it home that night, with his hair singed, most of his garments a prey to the devouring element, and the iron work of the wagon in a potato sack, and then his wife laughed. The dying agonies of the horse were dreadful to contemplate.

A colored mail carrier in Virginia was recently well shaken by a man for kicking his dog "Look a here, massa," said he "you'd better be keertful how you shake de childer when you shakes me, you shakes the whole of de United States! I carries de mails."

Announcements.

The announcement cards of candidates for nomination for the various offices will be published at the following rates: Assembly, \$10; Associate Judge, \$10; Sheriff, \$10; Treasurer, \$10; District Attorney, \$10; Commissioner, \$5; Auditor, \$5. Positively no announcements published unless paid for IN ADVANCE.

DISTRICT ATTORNEY.

We are authorized to announce the name of James H. Smith, as candidate for District Attorney, subject to the usages of the Republican Primary Election, Petroleum Centre, March 25, 1871.

COUNTY TREASURER.

Editor Record:—Please announce the name of FID BISHOP, of Oil City, as a candidate for the office of County Treasurer, subject to the decision of the Republican Primary Election, and oblige

MANY REPUBLICANS.

We are authorized to announce the name of N. B. RIDDLE, as a candidate for Treasurer, subject to the usages of the Republican party, at the primary meeting, Petroleum Centre, March 25, 1871.

SHERIFF.

We are authorized to announce the name of U. S. MARKS, as a candidate for Sheriff, subject to the usages of the Republican party, at the primary meeting, Petroleum Centre, March 16, 1871.

Local Notices.

S. M. Pottengill & Co. 277 Park Row, New York, and Geo. P. Powell & Co. Advertising Agents, are the sole agents for the Petroleum Centre Daily Record in that city. Advertisers in that city are requested to make their favors with either of the above houses.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructing matter, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by all operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Hamilton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

Office Columbia Oil Co. }
Columbia Farm, Jan. 29 }
Mr. H. K. KENYON:
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.
Respectfully yours,
G. W. HAMILTON, Supt.
J. P. BARRETT, Manager
