"I give my hearty preference to the Willcox & Gibbs Silent Sewing Machine."

"The weight of reliable evidence being overwhelming for that of the Willcox & Gibbs Silent Sewing Machine, I decided upon it, procured it, and am more than satisfied."

"I have the Wheeler & Wilson, the Grover & Baker, and the Willcox & Gibbs Sewing Machines in my family. I use the Willcox & Gibbs most frequently, thinking it far superior to either of the others."

"My wife would not accept a Sewing Machine of any other patent as a gift, if she must receive it on condition of giving up the Willcox & Gibbs."

"The Willcox & Gibbs is the only Sewing Machine whose working is so sure and simple that I could venture to introduce it into Syria."

"We have used various Sewing Machines within our family, but it is the unanimous opinion of the household, that the Willcox & Gibbs is the best of them all."

"For simplicity and mechanical accuracy of construction, I have seen no Sewing Machine equal to the Willcox & Gibbs."

A correspondence on the subject of Sewing Machines is respectfully solicited.

ROBERTS' PETROLEUM TORPEDO TORPEDOES. THE ROBERTS PETROLEUM TORPEDO CO. Office at the RED PLANING MILL, Corner of Pine and Second Streets, (Near the Railroad,) TITUSVILLE, PA.

Due to the large and increasing demand for the Roberts' Torpedoes, and the late decision of the Commissioner of Patents in favor of Wm. Reed's patent, and the decision of Judge W. C. Grier sustaining the Roberts' patent they have LOWERED the price of their Torpedoes.

OPINION OF JUDGE GRIER As I write with difficulty I can only state the non-discussion as to which my mind has come after a careful examination of the case.

The Roberts' Torpedo has exhibited a patent dated 23d of April, 1869. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless.

I need not repeat my remarks in the case of Good-year vs. Day (2 Wall, U. C. Rep. 229) but will adopt them as asserting a rule of decision which applies to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of the complainant's patent of April 23, 1869.

"It was after speculation had been reduced to practice," and after repeated experiments, that the complainant succeeded in ascertaining the principle and operation of the people on the subject, and in securing the public that his invention was worthy of the patent which he had obtained.
