

Calendar for June 1904 showing days of the week and dates from 1st to 30th.

MOON'S PHASES table showing dates for Third Quarter, New Moon, First Quarter, and Full Moon.

Republican Ticket. STATE: Supreme Court Justice—JOHN P. ELKIN, of Indiana County. COUNTY: JOSEPH C. SIBLEY, of Venango County. Assembly—JOHN H. ROBERTSON, of Tionesta. Associate Judge—FRANK X. KREITLER, of Green Twp. Treasurer—WM. H. HARRISON, of Green Twp.

NUMEROUS thefts of valuable works of art, gold nuggets, fine porcelain, etc., have been made at the St. Louis Exposition. This is too bad, and if it continues will give the management a bad name.

It is amusing to hear the Democrats give out from their committee headquarters the opinion that they expect to overturn the Republican majority of 24 in the House. There'll be time enough for that after they elect Parker, or Gorman, or Olney, or McClellan or Hearst, or whoever else gets the nomination.

AS THE St. Louis convention will contain 1,000 delegates, it will take 567 votes to nominate Parker. He now lacks about 450 of the required number. And Hearst has almost as many delegates as Parker.

Of course the Democrats are not pleased with the selection of Attorney General Knox for Senator. But this will not interfere with anybody's happiness. Nothing that could have been done would have pleased the Democrats, and if it had pleased them, the rest of us might have been displeased.

AMONG the spellbinders who are expected to make nominating and seconding speeches at Chicago are Senator Beveridge of Indiana, Mr. H. S. Edwards of Macon, Ga., Joseph Colton of Duluth, Minn., Geo. A. Knight of California and a negro lawyer from Baltimore. With all this talent there ought to be some stirring speeches.

PAUL MOTION, formerly a Democrat, and son of that Sterling Morton who was Secretary of agriculture under Cleveland, announces that he has become a Republican. He says there is too much "tommy rot" in the party he has just left, and that the Republicans are the only folks who do anything. Mr. Motion is wiser in his own generation than his forebears.

POLITICIANS of the far reaching and president sort, are going to fight shy of the tariff issue. At least that is a determination the Democrats have come to. If that issue is pressed too hard it may cause wealthy Democrats, who are profiting by protection, to decline to open the much needed barrel. We are now told that "over production" causes mills to close and markets to sag. This was a favorite theory with Sterling J. Morton when he was secretary of agriculture. In any event it is vastly better than under production.

A MOVEMENT has started in Akron, Ohio, which promises to set the country wild. A new organization has sprung up called the "Young Crusaders." The boys belong to a Sunday School, of course, they wear khaki uniforms, flourish swords, talk loud, and sleep out of doors under real flapping tents. Two of Senator Dick's offspring belong to the band. Exactly what the crusade is about does not appear. Possibly it is a crusade against using tobacco, telling lies, being lazy, and showing disrespect to one's parents. If so, it should prosper.

THE great and perplexing question among Democrats is how they can muzzle Wm. J. Bryan. The newspapers have been killing him off for many months, and saying all sorts of funny things about him, nevertheless, at the critical moment, he pops up with the Nebraska Democracy behind him and the same old platform in his pocket. The proposition is how to smother Bryan and his notions and yet keep him and his faction to the ticket and to the party. A happy solution is wanted. Suppose all the regular Democracy goes over to the Bryan faction? Here's a chance for union.

EVERYTHING is in readiness for the Republican National Convention at Chicago next Tuesday. It will be a great gathering of the big men of the grand old party, notwithstanding the nomination of the principal candidate has been settled months ago. The only name that will be mentioned in connection with the Presidency will be that of the idolized Roosevelt, and he will be given one of the greatest ovations ever tendered an American statesman. Who will be his running mate is still a question of doubt, but indications point toward Senator Fairbanks, of Indiana, who is very popular in the West. The convention is not likely to last longer than three days. Hurrah for Roosevelt!

Senator P. C. Knox.

The appointment of U. S. Attorney General Philander C. Knox as the successor of the late Senator Quay was made by Governor Pennypacker last Friday, and a more unanimous approval of the selection could scarcely be wished for. The satisfaction expressed on all sides by the Republicans throughout Pennsylvania is indicative of the Governor's very happy solution of a problem which for a time threatened to cause no little trouble for the party in this State. It is disappointing to the Democrats, of course, and to the boodie element, which sees in this selection a fading of what promised to be a wide-open leg-pulling campaign and the knocking in of several pro-life barrel-heads when the next meeting of the legislature takes place. All this has been quietly nipped in the bud, and the result is that Pennsylvania will have a representative in the United States Senate that will rank with the greatest in the nation. Mr. Knox is one of the cleanest of men in his public and private life. He has both the ability and respectability. This is conceded by even his political opponents. The appointment obviates the necessity of calling an expensive extra session of the legislature, as the Governor in his message has pointed out. The legislature convening in January next will take up the matter, and elect Mr. Knox's successor for both the short and the long terms, and that, in all human probability will be Mr. Knox himself, no doubt without opposition in his own party.

In Honor of Senator Quay. At a regular meeting of the Joseph C. Sibley Republican Club of Forest County the following minute relating to the death of the Hon. M. S. Quay, was unanimously adopted and ordered spread on the records of the organization.

Resolved, that this club hears with profound regret of the death of the distinguished senior Senator of Pennsylvania, who for forty years displayed unwavering allegiance to the principles of Republicanism, as interpreted by Lincoln, Garfield and McKinley.

Resolved, that by his death our great Commonwealth has sustained an irreparable loss due to his withdrawal from the councils of the nation, and from his distinguished service to his own State.

Resolved, that in common with the thousands of loyal Republicans of Pennsylvania, we record our sorrow at his unexpected demise, and extend to the bereaved family our sincere condolences.

INTERESTING LETTER FROM WASHINGTON. COLVILLE, Wash., May 28, 1904. EDITOR FOREST REPUBLICAN:

I write you a short sketch of Washington as I have seen it: I have been here over a year now, so I have experienced all the seasons. It gets very hot here during the summer as the sun gets a couple of hours more per day to get in his work. It is light enough to read a newspaper here at 3 a. m. and only dark at 9 p. m. The ranchers sow wheat in the spring—often plowing it under—and a mixture of wheat and oats to be cut green for "hay." This beats Penn'a. for growing any kind of fruit or vegetables. I have only missed a couple of our eastern products here, i. e., corn and grapes. The nights are too cold here for corn—corn can sleep under blankets here the year round—so the ranchers claim. My private opinion is that corn requires too much work for these people here. Work is avoided as much as possible, and many of the ranchers make a good living and do not average two days' work a week. All kinds of fruit grows abundantly and is very fine, with the exception of apples. They look nice, but I have not found a single one that was as finely flavored as they were in Penn'a. There are ripe strawberries now. We have also plenty of snow in sight yet, a few thousand feet up on the mountains, and only three miles from here. I am five miles from Colville.

I saw two unusual sights in the spring. One was a juneherry bush in bloom within a rod of a snow bank. The other was frogs sitting on cakes of ice and croaking. The frogs speak a different language here, and, if possible, a more discordant one. We have a chipmunk here similar to the ones back there, only darker and smaller, with a tail twice as long. They also talk "Swish" and do not "chip" like the ones we used to hear in Penn'a. There is also a ground squirrel here—a copy of the woodchuck. He is larger than the black squirrel and can destroy more vegetation than a rabbit. White rabbits are to be found here also, but the little gray one. Trout are very plentiful in the streams. Deer are to be found everywhere, and bears are not scarce. Blue grouse are thick on the mountain sides, but rarely come down into the valleys. Pheasants are found in the canons similar to the ones found in Forest county. They are numerous here around our camp and one can see deer tracks in a ten minutes walk from the mill.

Timber land is being gobbled up like gold nuggets. There is a fine layout for some one with some money, about four to fifteen miles from here. There is good timber and plenty of it. Yellow pine at first and running back to a belt of white pine as fine as ever grew in Penn'a. I saw some of it, but being alone and strange did not venture very far into it. I saw white pine that had fallen over into the creek; we were fishing (I was not alone this time) but stopped to measure it. With only three feet of a diameter it measured 164 feet, and was four inches in diameter where the top had broken off then. Fish story! I am right "here with the goods" and will pay your expenses here and back (if I can't show you hundreds, yes, thousands, just as long. The white pine belt has been visited by but few people. There are about 15,000

acres of it covered by timber and stone claims, but it could be bought for about 50 cents per thousand on the stump. It is estimated at 50,000,000 to 200,000,000 ft. of yellow pine and cedar included, there is said to be 500,000,000 tributary to the stream this is on. It lies from three to fifteen miles from the railroad. Acting on instructions from eastern parties I took options on 30,000,000 to 50,000,000 ft. of it for 90 days. It is the key to the whole position, but as 30 days are gone and no action taken I guess the scheme will fail to materialize. It is a fine chance for someone. A great deal of the white pine is on unsurveyed land open to settlement, though. I expect to look it over and take a claim myself soon. The lumber trade is quiet out here, but it will boom again.

We had a few weeks here without communication with the outside world on account of high water. It was three feet deep on the R. R. track.

If any of you are in St. Louis you can see a picture of our mill in the Stevens county exhibit. The steps and stairs of Washington State building are of marble from Stevens county, too. This is a great county, but it lacks development at present. I have only a few minutes to mail this so I will "cut it out" for you. Yours truly, R. M. CARBAUGH.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The price per bottle is 50 cents in advance. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Triumphs of Modern Surgery. Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they are changed, and the blood vessels are spliced; pipes take the place of diseased sections of the veins; alpine dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Dr. J. C. Dunn.

MARRIED. HUNTER—BARNETT—At the Rural House, Tionesta, June 8, 1904, by C. A. Randall, J. P., John Hunter, of Ross Run, Forest Co., Pa., and Rebecca Barnett, of Lickingville, Pa.

"DO IT TO-DAY." The time-worn injunction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day." That is the terse advice we want to give you about that backing cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for IT TO-DAY—and let that remedy be Dr. Rosche's German Syrup, which has been in use for over thirty-five years. A few doses of it will immediately relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure, as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At J. D. Davis'.
