

Pictures of World Events for News Readers

In This Department Our Readers in Fulton County and Elsewhere May Journey Around the World With the Camera on the Trail of History Making Happenings.

STATE NEWS BRIEFLY TOLD

The Latest Gleanings From All Over the State.

TOLD IN SHORT PARAGRAPHS

Transplants Bone From Leg To Vertebrae—Apprentice Schools Reorganized—Councilman Killed As Auto Goes Over Bank.

Dr. J. C. Biddle, surgeon-in-chief and superintendent of the State Hospital, at Fountain Springs, performed an unusual and delicate operation in a clinic before leading physicians and surgeons of that region, at the hospital, when, with the use of an electric saw, the surgeon sawed a piece of bone from the leg of Elizabeth Flail, two years old, a cripple, and transplanted it to the vertebrae. It is one of the most difficult operations known to surgery. The surgeon believes that the child will be cured.

The Easton boy who wrote to President Wilson, congratulating him on his engagement, and asking him to order the schools closed on his wedding day, was Konrad Gesner, twelve years, son of Rev. H. M. Gesner, pastor of the First Presbyterian Church, formerly of Atlantic City. Konrad received a letter from Secretary Tammity saying: "The President asks me to acknowledge the receipt of your letter of October 7, and to thank you for your kindness in writing him."

The Atlas Powder plant, controlled by the Du Pont interests, located at Webster, is preparing to turn out large war orders. Work has been started on a big addition to the acid plant and mechanics and laborers are employed as rapidly as they apply, nearly 400 men now being at work. As an inducement to secure help, the company has had the Reading Railway Company run a special train night and morning from Tamaqua to the plant, a distance of six miles.

Seven-year-old Anita Broden, daughter of Albert Broden, superintendent of furnaces of the Reading Iron Company applied the match which started the fires of the giant furnaces at Temple, idle for over a year, one of the most important industries of the East Penn Valley. The stack will produce one hundred tons of iron a week, and, because of the boom in the iron business, was gotten ready in a hurry.

Flossie Montain shot his wife after they had quarreled at their home in Erie and then shot himself. Mrs. Montain died while being taken to the hospital and physicians said Montain could not recover. No one witnessed the tragedy and its cause is not known. Mrs. Montain just had returned from the grape belt east of Erie, where she had been employed.

A suit was brought by counsel for Mrs. Sara D. Frankentfield, a milliner, Allentown, against Phao P. Frankentfield, her husband, for the recovery of \$2,128.06, which she declares she lent him at various times. The items include \$1.50 for tickets for a theatrical performance, \$1 for a hair cut and shave, 65 cents for shoes for his baby and \$3.36 for nine ducks and a hen.

Apprentice schools, operated by the Westinghouse interests, the Carnegie Steel Company and other large corporations in the Pittsburgh district, will be recognized by the State Department of Public Instruction under the new child labor law, according to an announcement by Miller A. King, State Director of Industrial Education.

James Fitzsimmons, aged forty-five, president of the Scottdale Council, was killed instantly, and Ora Mauk and Frank Moorehead were injured slightly when Moorehead's automobile, in which the men were riding, went over an embankment on the road near Scottdale.

Typhoid fever is raging in various sections of Lancaster county. At Falmouth, there are a number of cases. At Ephrata, seven members of Henry W. Witwer's family are ill with the disease.

Rev. Winfred H. Ziegler, who spent the past three years as an Episcopal Missionary in Alaska, has been appointed vicar of All Saints' Episcopal Church, Lehighton, to succeed Rev. A. A. Bresce.

Nathaniel J. Lefevre, of Paradise, sixty-two years old, while attending church services, was stricken with heart disease and died within an hour. He was a retired tinsmith.

Mrs. Sarah Finney, seventy-six years old, of Nickel Mines, while engaged in cleaning house, fell and was fatally injured when a balcony broke against which she was leaning while shaking carpet. She was picked up in an unconscious condition and died within an hour.

Mrs. Amanda Eshelman, a native of York county, who went West thirty-two years ago, is visiting her sisters at Wrightsville and vicinity, whom she has not seen for that time.

Worrying over being out of work, Augustus Miller, a railroad fireman, of Bethlehem, attempted to commit suicide. He fired two shots at his head, the first hitting a bone and glancing off and the second missing altogether. He probably will recover.

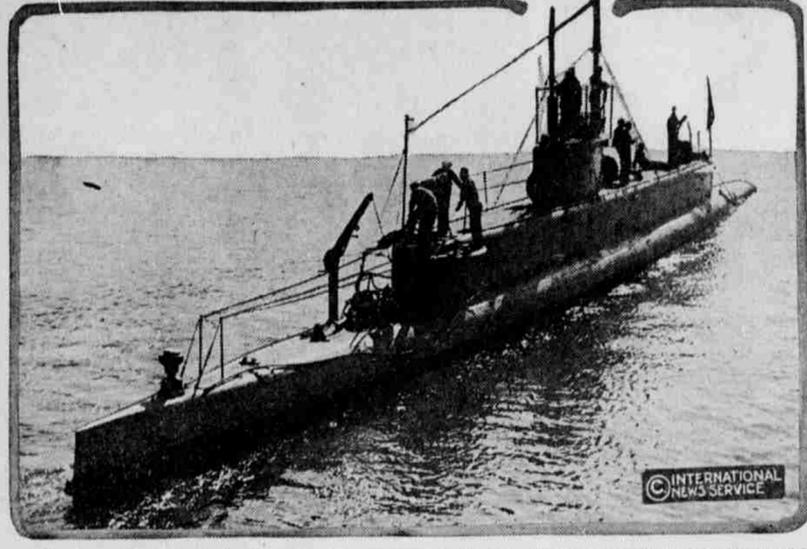

Miss Ella Mann, of Mountville, was dragged some distance after being caught in a spring of the buggy in which she was driving. Her sister, Ada, was thrown out, and escaped injury. The horse became frightened at an automobile.

AMERICAN TROOPS FIGHTING IN HAITI

Bluejackets from the United States ship Washington are here shown ashore near Port-au-Prince, Haiti, attacking a party of rebels in the bush. The American forces have now about restored order in the black republic.

ONE OF UNCLE SAM'S GOOD SUBMARINES

This photograph, taken during the submarine maneuvers at Newport, shows the United States submarine G-1 as the sailors were clearing her deck preparatory to submerging.

CZAR OF BULGARIA AND HIS GENERALS

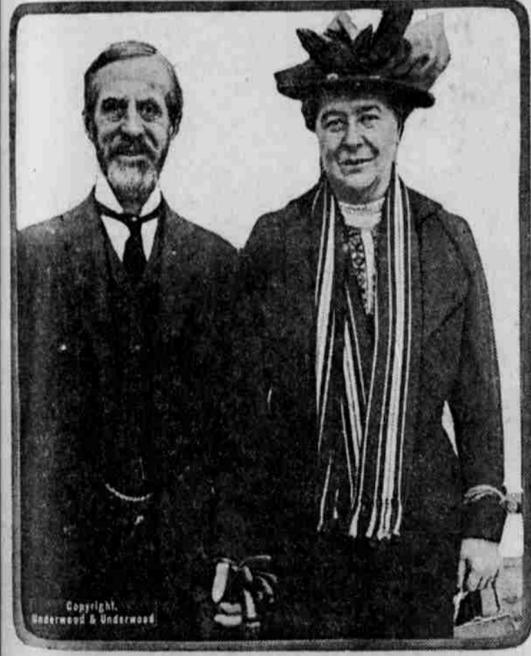

Ferdinand, czar of Bulgaria (in the right foreground), and the leading generals of the army with which he is attacking Serbia.

MARTIAL MUSIC UNDER DIFFICULTIES

A highly interesting and unusual picture just from the Argonne district. The crown prince has been making attacks along this front in which poison gas was extensively used. Entire regiments go about constantly masked against the deadly fumes, and when during a lull in the fighting the regimental band got together for rehearsal in the ruins of a village they presented this grotesque scene.

LORD AND LADY ABERDEEN IN AMERICA

The marquess and marchioness of Aberdeen are now making a tour of the United States and Canada for the purpose of attending various meetings and of delivering lectures on social topics. Lord Aberdeen, who has twice been viceroy of Ireland, was made a marquess last January. The marchioness is president of the International Council of Women.

NEW BRITISH GAS HELMET

This is the latest gas helmet issued to the British troops for protection in the trenches against the deadly fumes from German gas bombs.

Activities of Women.

The women conductors on the Glasgow tram cars wear green straw hats and black watch tartan skirts. Thirty-five per cent of the women in New York, Pennsylvania, New Jersey and Massachusetts have to work for a living outside the home. The threatened grand jury investigation of the juvenile court in Chicago is said to be a direct attack on Miss Mary Bartelme, assistant judge of the court. The majority of the boatmen in Wales having gone to war, their places have been taken by women, who take people out for a sail or a row in the same safe way as the men did. Women munition workers in the Vickers factory in England are earning from \$4 to \$5 per week of six shifts of 54 hours. They wear overalls of butcher blue, caps to match, leather gloves and strong boots. They all live together in a house close to the factory.

Our Friend, the Doctor.

A doctor is a member of the greatest and most beneficial and unselfish of all the learned professions. We jest at the doctors in our hours of health, but when disease seizes upon the strength of manhood, when even the mighty Caesar cries like a sick child, when the hour of pain is upon us, then, in the hushed chamber and by the lonely lamp of the watcher, we invoke the merciful ministrations of the doctor, and with willing feet he comes through the storm and darkness, and with skill and patience and courage he battles with disease and beats back death from the house of life.

ANOTHER INTERNATIONAL MARRIAGE

Lieut. John H. Towers, U. S. N., assistant naval attaché to the United States embassy in London, and Miss Lily N. Carstairs, daughter of Charles S. Carstairs of Mayfair, whose engagement has been announced.

GENERAL ARLABOSSE

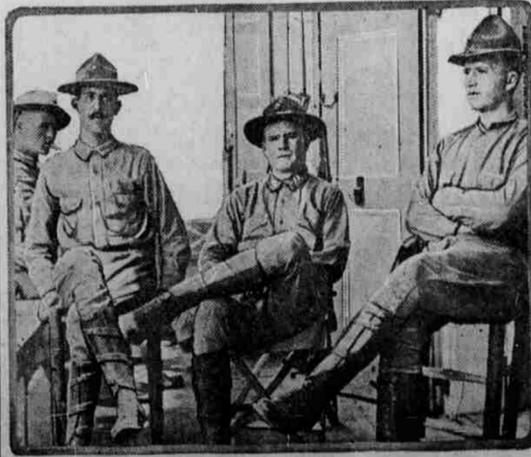

General Arlabosse, one of the French commanders, standing in front of his "mansion" in the French lines in eastern France.

Right Way to Drop a Hook.

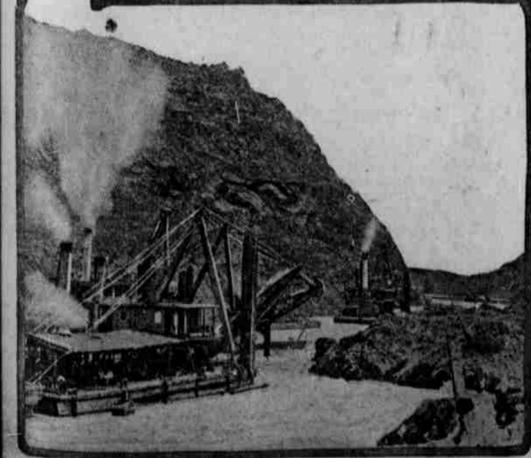

One of the most common faults of amateurs in the realm of seamanship is to let go the anchor while the vessel is still going ahead, says Outing. This is not only sloppy and unseamanlike, but it is very likely to involve one in difficulties later on, because when the vessel settles back over her "hook" she is apt to catch a turn of the anchor-rope around a fluke or arm and then the anchor will drag under at the least provocation. The proper method of coming to anchor is to round up to the wind or tide (according to which is the controlling force), bring the vessel to a stop, and even have slight sternway on her before singing out "Let go!" Then the anchor will go down fair and its chain or rope will fall out straight as the vessel swings off before the wind or tide.

AMERICAN OFFICERS IN HAITI

These officers of the American forces now occupying Haiti are stationed at Jacmel. Left to right, they are: Captain Green, Lieut. John Quincy Adams and Lieutenant Miller.

PANAMA CANAL BLOCKED BY SLIDES

This photograph shows dredges working on the latest slides that have blocked the Panama canal just north of Gold Hill. Slides occurred on both banks and the land pushed up formed an island in the center of the channel. The canal may not be opened again to traffic before the end of the year.
